Welcome to our latest and biggest catalogue to date. Edition K contains many new ranges of products including Hella LED Lights, Farecla waxes, Awlgrip varnish, Polymarine adhesive, Nautix antifouling and much more.

Page 53

Page 37

We pride ourselves in offering a wide variety of quality marine products and are always seeking to improve our range. If there are products that you feel we are missing please let us know and we will do our best to source them.

Page 59

Page 60

We are also constantly updating our website and we send out various updates via email. If you need help setting up a trade login for the website, so that you can see your trade prices even when the office is closed, or need to be added to our mailing list, please don't hesitate to contact us.

Page 77

Page 146

Edition K promises to be the most complete and comprehensive catalogue yet, we hope you enjoy it.

MGDUFF

The UK's Premier Anode Manufacturer
& Cathodic Protection Specialist

Zinc

Aluminium

Magnesium

Founded in 1956, MGDUFF was the UK's first corrosion-control company and has pioneered the development of cathodic protection technology and anodes for yachts, powerboats, inland waterway vessels and commercial ships.

Over **3,000 Anodes Available**
for all water types & applications

From trialling zinc anodes in Chichester harbour in the 1950s, MGDUFF, led by the Seabrook family, has grown over six decades to become a global expert in its field. As a result, MGDUFF is a byword for innovative engineering and high-quality anodes.

Backing Pads

B77 Backing Pad
to fit ZD77 8"
Pear Anode.

Part No **11050**

B78B Backing Pad
to fit 12" ZD78B
Hull Anode.

Part No **11055**

B72B Backing Pad
to fit 18" ZD72B
Hull Anode.

Part No **11060**

B77B Backing
Pad to fit ZD77
Euro Anode.

Part No **11061**

B76B Backing
Pad to fit ZD76
Mini Euro Anode.

Part No **11062**

B56B Backing Pad
to fit 4" ZD56 Disc
Anode.

Part No **11076**

B58B Backing
Pad to fit 6" ZD58
Disc Anode.

Part No **11078**

- Reduces the back of the anode corroding.
- Cushions the hull.
- Prevents rubbing and damage.

Hull Anodes Bolt On

ZD78B Zinc Hull Anode	
Part No	11035
Length	305mm (12")
Width	76mm
Depth	32mm
Centres	200mm (8")
Weight	4KG
Stud Size	M10

ZD72B Zinc Hull Anode	
Part No	11040
Length	457mm (18")
Width	102mm
Depth	64mm
Centres	229mm (9")
Weight	12.2KG
Stud Size	M16

ZD72BM Zinc Hull Anode	
Part No	11039
Length	457mm (18")
Width	102mm
Depth	38mm
Centres	200- 229mm
Weight	6.5KG
Stud Size	M10 / M16

ZD78BMLP Zinc Hull Anode	
Part No	11038
Length	457mm (18")
Width	95mm
Depth	25mm
Centres	200 - 229mm
Weight	7.25KG
Stud Size	M10 / M16

ZD76 Mini Euro Zinc Hull Anode	
Part No	11090
Length	200mm (8")
Width	65mm
Depth	32mm
Centres	0 - 110mm (0" - 4")
Weight	1.4KG
Stud Size	M10

ZD77 Large Euro Zinc Hull Anode	
Part No	11092
Length	318mm (12.5")
Width	65mm
Depth	32mm
Centres	110 - 210mm (4" - 8")
Weight	2.4KG
Stud Size	M10

305mm Metec 2.8kg Zinc Bolt On Hull Anode (MH28ZS-2)
110-210mm centres. 305mm long. 32mm high.
Part No **11484**

305mm Metec 3.8kg Zinc Bolt On Hull Anode (MH382S)
200mm centres. 305mm long. 34mm high.
Part No **11485**

305mm Metec 11.5kg Zinc Bolt On Hull Anode (MH115ZS-1)
229mm centres. 457mm long.
Part No **11487**

457mm Metec 11.5kg Zinc Bolt On Hull Anode (MH115ZS-2)
200mm centres. 457mm long. 64mm high.
Part No **11486**

Vetus ZINK15C Zinc Hull Anode	
Part No	57849
Length	150mm (6")
Width	70mm
Depth	25mm
Centres	80mm
Weight	1.1KG
Stud Size	M10

Vetus ZINK25C Zinc Hull Anode	
Part No	57851
Length	250mm (10")
Width	75mm
Depth	30mm
Centres	140mm
Weight	2.5KG
Stud Size	M10

Vetus ZINK35C Zinc Hull Anode	
Part No	57853
Length	300mm (12")
Width	80mm
Depth	35mm
Centres	200mm
Weight	4.7KG
Stud Size	M10

Hull Anodes Bolt On & Weld On

CM500Z Zinc Hull Anode	
Part No	11063
Length	116mm
Width	43mm
Depth	24mm
Centres	113 - 150mm
Weight	0.5KG
Stud Size	M6

Vetus Zinc Bolt On Anode	
Zinc anode 23kgf for BOW2312 mounted in tunnel. ZINK02C. 0.54kg.	
140mm hole centres	
Part No	57847

8" Pear Metec 2.1kg Zinc Bolt On Hull Anode (MH20ZS)	
200mm centres. 242mm long. 39mm high.	
Part No	11483

ZD77 Pear 8" Hull Anode	
Part No	11030
Length	229mm
Width	83mm
Depth	41mm
Centres	200mm (8")
Weight	2.1KG
Stud Size	M10

ARNSMALL Small Teardrop Hull Anode	
Part No	11169
Length	154mm
Width	32mm
Depth	30mm
Centres	89mm
Weight	0.27KG
Stud Size	M7

ARNLARGE Large Teardrop Hull Anode	
Part No	11170
Length	190mm
Width	45mm
Depth	44mm
Centres	127mm
Weight	0.74KG
Stud Size	M7

Ribbon Type Anodes

Low profile zinc anode with a non reactive aluminium insert ideally suited for fitting to high speed vessels.

Part No	MG Duff Part No	Length	Centres

Weight 2.14KG

Whether your boat is steel or GRP, to provide the best protection to the stern gear the shaft should be fitted with an MGDUFF Electro Eliminator Brush assembly. The MGDUFF Electro-Eliminators offer the most effective shaft bonding solution. Running directly onto the propeller shaft the electro eliminator puts the anode in constant low resistance contact with the propeller shaft. The copper graphite brushes will give at least 2000 running hours under normal conditions. The electro eliminators will also remove the interference to electronic equipment caused by the rotating shaft.

EE1	Part No 11093	Description EE1	EE2/208
Shaft Earthing Assembly for Propeller Shafts up to 50mm. Does not include mounting bar.	11094	EE2/208	Shaft earthing assembly for propeller shafts between 40mm to 100mm diameter. Does not include mounting bar.

CMHJ104634Z Large Hamilton W/Jet Bar Zinc Anode

Hamilton Jet bolt on bar anode. 82mm centres. Dimensions: 101 × 22 × 23mm Weight 0.285kg

Part No **11330**

CMHJ102185A Hamilton Jet Aluminium Anode

For salt water use only.
Weight (kg): 0.94kg. Outside Diameter: 95mm. Height: 27mm. Hole Diameter: 9mm.

Part No **11396**

CMHJ111059A Hamilton Jet Aluminium Anode

For use with the following HJ274, HJ292, HJ362, HM422 Hamilton jet drives.

Part No **11397**

CMHJ103359A Hamilton Jet Aluminium Anode

Used on HJ212, HJ213, HJ241, HJ273, HJ274, HJ291, HJ292, HJ321, HJ322, HJ362, HS363, HJ402, HM422 and other Hamilton jet drives. Also fits MJP Ultrajet drives as part number 8978-926-00G.

Part No **11398**

CMHJ111593A Hamilton Jet Aluminium Anode

M8 thread. Tailpipe internal anode used on the HJ274, and the 300 and 400 series of Hamilton jet drives.

Part No **11399**

Hanging Anodes

Zinc Hanging Anode for connecting to hanging cable. For salt water use.

Zinc Hanging Anode. Kit includes 4 metres of cable with an M10 terminal, 1x mounting bracket and 2x re-useable rubber tie wraps. For use in Salt water.

Outboard & Outdrive Anodes

ZBU1 Engine Pencil Anode Bukh
000E0450

The pencil anode is 12mm X 35mm with 5mm stud. Original part number 000E0450. See also 02050

This anode fits in a brass plug located at the rear of the Bukh DV10-20-24-32 engine just above the gearbox.

On the Bukh DV36 & 48 the anode is on the starboard side of the engine.

Dimensions
12 x 12 x 35 mm

Weight 0.03kg

Part No 11328

CM123009Z – Martyr Zinc Anode for Bombardier Johnson, Evinrude

Fits a wide range of Johnson and Evinrude outboards and outdrive legs, 1981 – 2011.

Dimensions 60 x 22 x 12 mm

Weight 0.09 kg

Part No 11250

CM327606Z – Martyr Zinc Anode for Bombardier Johnson, Evinrude

Fits 1983-1990 2HP Johnson and Evinrude outboards.

Dimensions 60 x 22 x 12 mm

Weight 0.08 kg

Part No 11251

EVINRUDE **EVINRUDE** **EVINRUDE** **EVINRUDE**

Johnson **Johnson** **Johnson** **Johnson**

CM398331Z – Martyr Zinc Midsection Block Anode for Bombardier Johnson, Evinrude

For use in Salt water. Original part number 398331.

Fits outboard tail Johnson-Evinrude 160-280HP (V4-V6).

Dimensions 44 × 57 × 22 mm

Weight 0.32 kg

Part No 11253

CM392123Z OMC Zinc Anode

Martyr Zinc Anode for Bombardier Johnson, Evinrude.

Martyr crescent shape Zinc Anode for Bombardier Johnson/Evinrude. Half Moon – Transom. For use in Salt water. Part number 392123.

Fits outboard engine OMC 90-140 HP Series, Johnson 90-140 HP Series, Evinrude 90-140 HP Series.

Dimensions 118 × 80 × 23 mm

Weight 0.76kg

Part No 11265

CM431708Z – Martyr Zinc Anode for Bombardier Johnson, Evinrude

Original part number 431708

Fits outboard engine Johnson/Evinrude 45-300 HP Series (1988-90), Diabolo 70/120 HP Series.

Dimensions 76 × 50 × 21 mm

Weight 0.27kg

Part No 11254

CM433580Z – Martyr Zinc Anode for Bombardier Johnson, Evinrude

Transom for Power Trim and Tilt Models. For use in Salt water. Original part number 433580 5007089/433580.

Fits outboard engine Johnson 60/300 HP Series, Evinrude 60/300 HP Series

Dimensions 175 × 34 × 21 mm

Weight 0.77kg

Part No 11268

HONDA
MARINE

CM31640Z – Martyr Zinc Anode for Honda, Mercury Outboard & MerCruiser Sterndrive and engines

Standard Skeg Trim Tab. For use in Salt water. Mercury Equivalent Part: 31640T4, 31640Q4 (fits Alpha 1, 120, 140, 470, 485 R, MR) MerCruiser No: 679-45251-00

Fits HONDA BF75AT/AW, BF90AT/AW, MERCURY 50HP, MARI-NER 40/60 HP <1991 Honda P/N: 41107-ZW1-003-ZA.

Dimensions: 90 × 90 × 105 mm

Weight 0.55kg

Part No 11200

HONDA
MARINE

CM826134Z – Martyr Zinc Anode for Honda 75, Mercury Outboard & MerCruiser Sterndrive and engines

Wedge anode located on the side of the gearhousing just above the cavitation plate. For use in salt water. Honda part number 41109-ZW1-003

Dimensions: 77 × 29 × 22 mm

Weight 0.26kg

Part No 11220

HONDA
MARINE

CM06411ZW1Z

Zinc Honda 75 / 130 / 225 HP large bar anode. For salt water use only.

Anode Body Length: 226mm

Width: 50mm

Height: 16mm

Stud Size: 6mm

Fixing Hole Details: 202mm Centres

Weight 0.36kg

Part No 11344

CM806105Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Stern-drive and engines.

Bearing carrier behind propeller. Mercury Part: 806105A2, 806105Q1. Fits: Alpha 1 Gen II. For use in Salt water

Dimensions: 72 × 85 × 25 mm

Weight 0.23kg

Part No 11223

CM762145Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Stern-drive and engines.

New Generation – Circular Plate Flat Trim Tab. Fits all high performance Mercury outboards, Alpha 1 Gen II. Mercury Part no: 76214-5 Threaded Hole. For use in Salt water.

Dimensions:

92 × 92 × 24mm

Weight 0.33kg

Part No 11224

CM76214Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Stern-drive and engines

New Generation – Circular Plate Flat Trim Tab. Mercury Part no: 76214Q5, 76214A6. Fits Alpha 1 Gen II, Bravo 1, 2, 3. For use in Salt water.

Dimensions: 90 × 90 × 24 mm

Weight 0.28kg

Part No 11227

CM55989Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Stern-drive and engines.

Gimbal Bolt Head anode. Mercury Part: 55989T3, 55989Q9. Fits: Alpha 1, Bravo 1, 120, 140, 470, 485. Also used by Keypower KP08 and KP10 bow thrusters. For use in Salt water.

Dimensions: 33 × 33 × 29 mm

Weight 0.11kg

Part No 11201

CM34762Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Stern-drive and engines.

Gimbal Plate. Fits MerCruiser TR and TRS outdrives. For use in Salt water. Mercury part no: 34762A1

Dimensions: 62 × 62 × 10 mm

Weight 0.24kg

Part No 11204

CM43994Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Stern-drive and engines.

Gimbal Plate Block. Fits: Mercury F.BB, MerCruiser E.B ALPHA ONE GEN I and ALPHA ONE GEN II and Bravo. Mercury part number 43994. For use in Salt water.

Dimensions: 95 × 77 × 39 mm

Weight 0.95kg

Part No 11205

CM822157Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Stern-drive and engines.

Trim Tab. Fits Mercury 30-50 Hp F25, F30, F40 and F50 outboards (1998 and later). Mercury Part no: 822157c2. For use in Salt water.

Dimensions: 116 × 93 × 83mm

Weight 0.42kg

Part No 11208

CM821631Z – Martyr Zinc Anode for Mercury Outboard, MerCruiser Stern-drive and engines.

Gimbal Housing Plate Block. Fits Alpha I and Alpha I Gen II. Mercury Part no: 821631Q1, 821631A1. For use in Salt water.

Dimensions: 95 × 77 × 39 mm

Weight 0.89kg

Part No 11209

CM984325Z Zinc Mercury / MerCruiser 25 HP outboard anodic plate bar anode. For salt water use only.

Outside Diameter: 91mm

Height: 100mm

Thread Size: M8

Weight 0.42kg

Part No 11210

CM821630C2Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Sterndrive and engines.

Forward Cavitation Plate. Fits Bravo I, II, III, X, XR and XZ. Mercury Part no: 821630A2, 821630Q1. For use in Salt water.

Dimensions: 175 × 110 × 16 mm

Weight 1kg

Part No 11214

CM821629CZ – Martyr Zinc Anode for Mercury Outboard; MerCruiser Sterndrive and engines.

Forward Cavitation Plate. Fits Alpha I Gen II. Mercury Part no: 821629A2, 821629Q1. For use in Salt water. CM821629Z.

Dimensions: 188 × 72 × 18 mm

Weight 0.78kg

Part No 11215

CM818298Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Sterndrive and engines.

Plate Bar for engine trim. Fits Mercury/Mariner 30/40 Four Stroke, 40 (4 cylinder), 50 (3 cylinder 1987-1997), 55 (3 cylinder), 60-90 (3 cylinder 1987 & newer), 75 (4 cylinder), 75/90 Four-Stroke, 100-125 (4 cylinder), 115 (6 cylinder 1984-1988) and all V-6 and OptiMax. Mercury Part no: 818298T3 For use in Fresh water.

Dimensions: 191 × 50 × 11 mm

Weight 0.68kg

Part No 11216

CM43396Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Sterndrive and engines.

Transom mounted 'Waffle Bar'. For use in Salt water. Mercury part number 43396. Fits Mercury 25HP, 50, 60, 75 MerCruiser E.B90, 100 SINO 91, 115, 190.

Dimensions: 194 × 52 × 20 mm

Weight 0.66kg

Part No 11217

CM806190Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Sterndrive and engines.

Lift-Trim Cylinder Ram End Horseshoe. Fits Bravo I, II, III, X, XR, XZ and Blackhawk drives. Mercury Part no: 806190A2, 806190Q1. 2 Required. For use in Salt water.

Dimensions: 49 × 49 × 51 mm

Weight 0.35kg

Part No 11221

CM806189Z – Martyr Zinc Anode for Mercury Outboard & MerCruiser Sterndrive and engines.

Lift-Trim Cylinder Ram End Horseshoe. Fits Alpha 1 Gen II. Mercury part no: 806189A2, 806189Q1. 2 required. For use in Salt water.

Dimensions: 49 × 49 × 16 mm

Weight 0.1kg

Part No 11222

CM3C7602181A0Z
Nissan / Tohatsu
transom bar in zinc.

VOLVO PENTA

CM832598Z – Martyr Zinc Anode for Volvo Penta Sterndrive Outdrive 832598

Martyr Zinc Anode for Volvo Penta Sterndrive outdrive. Transom Shield Bar Anode. Fits 200, 250, 270, 275, 280, 285. Aquamatic sterndrive single prop drive anode. Volvo Part no: 832598. For use in Salt water.

Dimensions: 187 × 41 × 22 mm
Weight 0.95kg

Part No 11150

CM838929Z – Martyr Zinc Pencil Anode for Volvo Penta Cooler 838929

Martyr Zinc Pencil Anode for Volvo Penta engines. Cooling system anode. Fits MD40A, TMD40 A/B/C, D4 D6, TAMD63, TAMD74 / TAMD75, TAMD122P, D12C, TAMD163P-A, 2001 / 2002 / 2003, TAMD103, TAMD122A, TAMD162C, TAMD163A-A. Volvo replacement part for 838929, 804107, 800476, 858501. For use in Salt water

Dimensions: 43 × 17 × 43mm
Weight 0.05kg

Part No 11152

VOLVO PENTA

CMV15 – Martyr Zinc Anode for Volvo Penta 100 Drive Sterndrive 875810

Small Prop Ring. Fits 100A and 100B. Aquamatic sterndrive single prop drive anode. Volvo Part no: 875810. For use in Salt water.

Dimensions: 100 × 100 × 12 mm
Weight 0.2kg

Part No 11153

VOLVO PENTA

CMV16 – Martyr Zinc Anode for Volvo Penta 200 Drive Sterndrive 875809

Small Prop Ring. Fits 200, 200A, 200B. Volvo Part no: 875809. For use in Salt water.

Dimensions: 108 × 108 × 11 mm
Weight 0.21kg

Part No 11154

VOLVO PENTA

CMV17 – Martyr Zinc Anode for Volvo Penta 270 Drive Sterndrive 875805

Medium Prop Ring. Fits 270 B,C,D, SP, T, 275, A, SP-A/MT, 250, C,D. Volvo Part no: 875805. For use in Salt water.

Dimensions: 116 × 116 × 10 mm
Weight 0.32kg

Part No 11155

VOLVO PENTA

CMV18 – Martyr Zinc Anode for Volvo Penta 200-290 Sterndrives 875815

Large Prop Ring. Fits 280, B, C, D, E, SP, T, 290, A, B, D, SP, SP-A, SP-C, SP-E, SP-A1, SP-A2, 280PT. Aquamatic sterndrive single prop drive anode. Volvo Part no: 875815. For use in Salt water.

Dimensions: 120 × 154 × 35 mm
Weight 0.73kg

Part No 11156

VOLVO PENTA

CM823661Z – Martyr Zinc Pencil Anode for Volvo Penta Diesel engines 823661

Fits TAMD60 A,B,C, MD70B, TAMD70 B, C, D, E, D12 500, 700, 715, 800, TAMD122 A, C, D, P, P-A, P-B, P-C, MD70C. For use in Salt water. Original part number 823661.

Dimensions: 25 × 25 × 54 mm
Weight 0.15kg

Part No 11158

VOLVO PENTA

CM875821Z – Martyr Zinc Anode for Volvo Penta Duo DP 280 290 Outdrive 875821

Duo Prop Ring Anode. Fits: 280DP, 280T-DP, 280A-DP, DPA, A1, A2, B, G, C, D, D1, D2, E, B1, C1. Volvo Part no: 875821 lower gear anode. For use in Salt water.

Dimensions: 111 × 144 × 30 mm
Weight 0.58kg

Part No 11160

CM852835Z – Martyr Zinc Bar Anode for Volvo Penta Sterndrive and engines 852835/873178

Fits transom shield Aquamatic sterndrive single prop drive 280 and 290 and SP ranges. Fits 290, A, A-DP, B, D, DP, DP-A, DP-A1, DP-A2, DP-B, DP-B1, DP-C, DP-C1, DP-D, DP-D1, DP-D2, DP-E, DP-G, SP, SP-A, SP-A1, SP-A2, SP-C, SP-E. Volvo part number 852835 or 873178. For use in Salt water.

Dimensions: 129 × 44 × 27 mm
Weight 0.76kg

Part No 11161

**VOLVO
PENTA**

CM872793Z – Martyr Zinc Anode for Volvo Penta SX and DPX Outdrive 872793/3861583

Hook-up Fork Triangle Anode. Fits SP, DP, SX, DPX, XDP-B Sterndrives. Volvo Part: Volvo Part no: 3861583. For use in Salt water.

Dimensions: 65 × 38 × 13 mm
Weight 0.11kg

Part No 11165

CM3854130Z – Martyr Zinc Anode for Volvo Penta Outdrive 3854130

Gimbal Plate or transom shield Anode. Fits DP-SM, DP-SMTD, DP-SMTD1, DP-SMTD2, DP-SMTD3, SX-M, SX-MTD, SX-MTD3, SX-M, SX-M1, SX-MLT, SX-MDA, SX-MDB, SX-MHP, SX-MACLT, SX-MDC, SX-MBAC, SX-MACLT, SX-MBAC, SX-MHP, SX-C, SX-C1, SX-C2, SX-CT, SX-CT1, SX-R, SX-RT1, SX-RT2, DP-S, DP-S1, SX-C1AC, SX-C2AC, SX-R1, SX-R2, SX-CLT, SX-CLT1 and Aquamatic sterndrive single prop drives. Volvo Part no: 3854130. For use in Salt water.

Dimensions: 90 × 80 × 48 mm
Weight 1.05kg

Part No 11327

**VOLVO
PENTA**

CM851983Z – Martyr Zinc Anode for Volvo Penta 120 Saildrive 876286/851983

Fits 120, B, C, D, E, MS25S, MS25S-A, MS25S-R, S120C. Volvo Part no: 876286. For use in Salt water. Split ring version also available.

120S, 120SB, 120C-D, 120S-D, 120-E, S120C.

Dimensions: 123 × 96 × 28 mm
Weight 0.6kg

Part No 11162

**VOLVO
PENTA**

CM872139Z – Martyr Zinc Anode for Volvo Penta DPX Outdrive 872139

DPX Outdrive or Aquamatic stern-drive Duoprop range. Transform Bar Anode. Fits DPX, DPX-C, DPX-R, DPX-S, DPX-A. Volvo Part no: 872139. For use in Salt water.

Dimensions: 130 × 45 × 26 mm
Weight 0.66kg

CM6884537102Z – Martyr Zinc
Fin Anode for Yamaha Engines

Skeg / Trim Tab. For use in Salt
water. Original part no: 688-45371-02

Fits outboard engine 70-90
ETLN/ETXN/ETLK, CV75-85ELF/TLR,
P60TJHR, F50TLH Series. Yamaha
50-60-70-75-80-85-90 HP series.

Dimensions:
134 × 93 × 80mm

Weight 0.48kg

Part No 11298

CM6E54525100Z

Zinc Yamaha small block anode.
For salt water use only.

Anode Body Length: 47mm

Width: 23mm

Height: 23mm

Weight 0.14kg

Part No 11300

CM6J94537100Z – Martyr Zinc Skeg
Anode for Yamaha 150-225HP Engines

Skeg / Trim Tab. For use in Salt water.
Standard rotation.

Original part: 6J9-45371-00.
Dimensions: 129 × 99 × 90 mm
Weight 0.5kg

Part No 11303

CM6884525101Z – Martyr Zinc Button
Anode for Yamaha Engines

Button for use in Salt water. Original
part number 688-45251-01

Fits Mariner/Yamaha 40-50-70-90 HP
up to 1987.

Dimensions: 20 × 20 × 8 mm
Weight 0.04kg

Part No 11304

CM61N4525101Z – Martyr Zinc Anode
for Yamaha 8-25HP Engines

Trim Tab. For use in Salt water.
Original part number 61N-45251-01.

Dimensions: 80 × 59 × 27 mm
Weight 0.26kg

Part No 11305

Zingaspray (500ml aerosol)

This has all the advantages of the original Zinga in an easy-to-use spray can. One coat of Zingaspray will dry at approximately 20-25 microns. Therefore a minimum of two coats is recommended. Zingaspray can be used for repairing galvanised steel or products previously treated with Zinga.

Part No
11400

Zinga 1KG Zinc Galvanising System

Zinga is a one-component anti-corrosion zinc coating system which contains a minimum of 96% zinc in the dry film. Its unique formula provides environmentally safe cathodic protection to steel comparable with hot-dip galvanising, with the added advantage that it can be applied as though it were a paint.

FIBREBLAST Boat Cleaner

Now available, Seaware's very own boat cleaner, Fibreblast - available in 1L and 3.25L sizes. Fibreblast removes stubborn stains on the waterline as well as rust and exhaust stains and the usual dirt and grime found on boats.

Fibreblast removes stubborn stains on the waterline as well as rust and exhaust stains and the usual dirt and grime found on boats. Fibreblast is suitable for fibreglass, gelcoat and most two pack polyurethane paints and single pack yacht enamels.

Directions

- Unscrew the lid and apply generously to the surface with a paintbrush.
- Leave for about 30 minutes on the surface to gently "blast" away and absorb the stains.
- Rinse with a sponge and clean water.
- Leave on longer or repeat the application process for tough stains and in colder weather.
- When using for the first time on a surface it is advisable to apply Fibreblast on a small area first to test.

Part No	Description
61130	Fibreblast 1 Litre
61131	Fibreblast 3.25 Litre

3M

3M™ Perfect-it™ Boat Wash
 3M's best product solution to clean a variety of boat surfaces. The product is a professional strength concentrate, making up to 16 gallons. It works safely on surfaces from stem to stern. And it works without stripping wax .

Part No	Description
63680	3M Perfect - It Boat Wash 473ml
63681	3M Perfect - It Boat Wash 946ml

Wessex Propeller Cleaner
 This professional-grade propeller cleaner has been designed to remove calcium deposits, algae and soften and help remove barnacles from all boat and yacht propellers. It delivers superb propeller cleaning results on a range of metals including stainless steel, bronze and aluminium propeller blades, shafts and casings.

Part No
61566

Wessex Proflush Engine Descaler
 Proflush Marine Engine Descaler removes unwanted marine deposits from waterways including: scale and light rust crustaceans Salt deposits Magnetite With a colour indicator you can clearly see when all scale and deposits are neutralised as the liquid will remain a constant colour once it's work is completed. Proflush will remove 1.09Kg of calcium/scale equivalent per litre of product used. (Photo ID Required).

61567	Wessex Proflush 1 Litre
61568	Wessex Proflush 5 Litre

Vuplex 445ml - Plastic Cleaner & Anti Static Polish

Although VuPlex is designed for a specific purpose (clear and coloured plastics) VuPlex can be used on polished metals, painted and glass surfaces.

Applications:
 Acrylic and Polycarbonate. Windscreens. Clear Vinyl Windows etc. Clears and Bimini Top Windows. Instrument Panels. Goggles. Jet Skis.

Part No 61525

JabSCO Toilet Cleaner 1 Litre

Part No
61109

JabSCO Odourless Holding Tank Treatment 1 Litre

A blend of enzymes, friendly bacteria and surfactants, to break down waste in marine holding tanks.

Part No	61108
---------	-------

Wessex Boat Wash

Boat Wash is the perfect solution for cleaning fibreglass hulls on boats and yachts. It effectively removes dirt, grime and grease leaving your hull clean and shining.

Great for use on non-slip decks, metal parts and railings, and teak decks, Boat Wash is highly concentrated, as little as 20 ml into a bucket of water will do an excellent job of cleaning down hulls and leaving them shiny and streak-free.

Boat Wash can also be used as a spot-on spray for quickly removing marks, stains and even birdlime.

Part No	Description
61550	Wessex Boat Cleaner 1litre

Wessex Canopy Cleaner & Protector

This Canopy Cleaner & Protector effectively cleans off mould, dirt, grime, grease and oil from boat and yacht canopies and other marine craft covers.

After cleaning, the spray leaves a special protective film to combat against regrowth and prevent UV fading. This ready-to-use formula means you can just spray onto the canopy then simply wipe clean with a non-scratch cloth.

The water based mixture is fully biodegradable and so can be used for cleaning your boat in and out of the water.

Part No	Description
61552	Wessex Canopy Cleaner 750ml

Wessex Oxalic Acid

Industrial grade, high purity oxalic acid crystals / granules suitable for a range of purposes. Suitable for various uses including stain removal from hardwoods to rust removal from stainless steel and other metals.

Frequently used on boats and yachts for GRP fibreglass cleaning, salt corrosion removal from engine waterways and cleaning/stain removal on teak boat decks. Helps clean and remove problematic areas on boats including rust, algae, dirt and grime.

Should be used with caution around delicate metals, for example, aluminium.

Part No	Description
61556	Wessex Oxalic Acid 1KG

Sail Cleaner

This sail cleaner is quick and effective at cleaning boat, yacht and dinghy sails. It removes general dirt, grime, grease, traffic/pollution film and mould from sail material and is safe on sail stitching and other sail materials. It also smells pretty good too! It is biodegradable, so is environmentally safe, and can be used for cleaning your boat in and out of the water. It also works brilliantly for cleaning caravan and boat awnings too.

Part No	Description
61558	Wessex Sail Cleaner 750ml

Teak Cleaner Part One

Wessex Teak Cleaner (part 1) is designed to take away the natural silver colour teak turns over time, and bring it back to the colour it was when new (a straw colour). When using the Wessex Teak Cleaner for the first time, you will notice it making the teak wood go dark brown in colour. As you apply it with a sponge or brush you will also notice the dirt and muck coming off. When you have finished applying Teak Cleaner and begin to rinse off with water, you will see dirty brown water running off the teak. You will literally see the dirt being removed!

Part No	Description
61560	Wessex Teak Deck Cleaner Part 1 - 1 Litre
61561	Wessex Teak Deck Cleaner Part 1 - 5 Litre

Teak Renovator Part Two

Wessex Teak Renovator (part 2), sometimes referred to as a teak brightener, is designed to restore the colour so it looks like new teak again. As soon as you apply Teak Renovator, the teak will lighten to a lovely uniform amber colour and eventually dry to a straw colour, just like new teak. No patchy areas, just some teak to be proud of again!

Part No	Description
61562	Wessex Teak Renovator Part 2 - 1 Litre
61563	Wessex Teak Renovator Part 2 - 5 Litre

Wessex Bilge Cleaner (Bilgex has now been discontinued)

Wessex Bilge Cleaner lifts off dirt, grime, grease, oil and scale from bilges, pipes and lockers in boats and yachts. It helps combat the growth of limescale, mould and mildew commonly found in boat bilges. Wessex Bilge Cleaner also controls bad odours caused by stagnant water in bilges, holding tanks and traps under showers and sinks.

Ideal for over-wintering to keep tanks free from odour build-up. Safe for use on a variety of hard surfaces including metals, plastics, laminates and ceramics. Avoid spillages on fabrics, including carpets. 100% environmentally friendly and biodegradable.

Part No	Description
61132	Wessex Bilge Cleaner 1 Litre
61133	Wessex Bilge Cleaner 5 Litre

Glass Cleaner

Powerful formulation contains a high alcohol and ammonia content for superior cleaning performance.

Part No	Description
61564	Wessex Glass Cleaner 750ml

Epifanes Seapower Inflatable Boat Cleaner

This product is specially designed for safely cleaning and maintaining all butyl, Hypalon, rubber and vinyl boats and surfaces. It slows down the ageing process considerably, prevents drying out and cracking and removes ingrained dirt, tar, diesel oil, scuff marks etc. Seapower Inflatable Boat Cleaner is also excellent for cleaning fenders. After treatment, they will not become sticky when exposed to sunlight, like other cleaners. It also reduces fender squeaks, familiar to all who lie alongside.

Part No	Description
69330	Seapower Inflatable Boat cleaner 500ml

Pre-Clean - 1 Litre

High strength cleaner and degreaser for pre-cleaning gelcoat and painted surfaces to remove fuel, oil, grease, wax and silicone.

Part No
67130

Wax TecCel - 500ml

High performance liquid wax with TecCel technology, for a long lasting, deep gloss, tough protective finish on gelcoat, painted and varnished surfaces.

Part No
67247

Alu Protect - 500ml

A silicone-free oil, for cleaning and protecting metal rigging and fittings. For cleaning and protecting aluminium masts and booms, steel and stainless steel rigging and fittings. Penetrates into wire ropes and under fittings, ensuring long-term protection.

Part No
67245

Custom Marine Polish - 500ml

Liquid polish which cleans, polishes and protects gelcoat, painted and varnished surfaces. Contains silicone which cures on the surface to create a protective barrier and clear gloss.

Part No
66376

Super Cleaner - 500ml
 A highly concentrated cleaner. Removes wax, oil and contamination effectively. Suitable for hand and high pressure machine washing. Degreases and cleans with no damage to gelcoat or paint work. Always use before waxing diluted or undiluted.

Part No
 68480

Stain Remover - 500ml
 A high strength penetrating gel that quickly and easily removes stains, such as light rusting and yellowing, on GRP and painted surfaces.

Part No
 68482

Marine Polish - 500ml
 An ultrafine grade polish with wax, for use on gelcoat and paintwork. Gives lasting protection and high gloss. For manual and machine polishing (800 - 1000 rpm). Free from silicon oils.

Part No
 68484

Polish and Wax- 500ml
 A cleaner, polish and wax in one product. Used for quick and easy cleaning, polishing and waxing of oxidised gelcoat and painted surfaces. Free from silicon oils. For manual or machine use (800 - 1000 rpm)

Part No
 68486

Teak Oil - 500ml
 A special penetrating oil for protection of teak decks and teak interiors. It produces a protective and easy-clean surface.

Part No
 68489

Boat shampoo - 500ml
 A universal cleaner for fibreglass, wood, metals and painted surfaces. It does not remove wax and can be used regularly without affecting your wax protection.

Part No
 68481

Liquid Rubbing - 500ml
 A liquid polishing product that restores the former shine on gelcoat and painted surfaces. Does not contain wax or silicone. For both manual and machine polishing (800 - 1000 rpm).

Part No
 68483

Marine Wax - 500ml
 Gives lasting protection without abrasives or silicone. Easy to work with and an ideal product for larger surfaces. This product offers a hard, long lasting, full gloss surface and gives protection against saltwater and sunlight. For manual and machine use (800 - 1000 rpm)

Part No
 68485

Teak Restorer - 500ml
 Cleans and restores teak and other hardwoods.

Part No
 68488

Teak Cleaner - 750ml
 A powder for cleaning all teak areas. Especially good for large areas such as decks, and for wood that's turned dark grey. Removes dirt and marks giving a clean surface ready for you to apply Teak Oil.

Part No
 66374

3M

3M Marine Vinyl Cleaner 250ml
3M Marine Vinyl Cleaner is a one-step product that conditions and protects vinyl, plastic and rubber surfaces as it cleans - creating a long-lasting protective barrier that withstands repeated cleaning and

Part No
63691

3M

3M Clear Plastic Restorer 250ml
Safely cleans and removes fine scratches and haziness from most marine plastics. Can also be used on most tinted plastics.

Part No
63696

3M

3M Metal Restorer & Polish 500ml
Designed to restore and polish stainless steel, bronze, copper, chrome, aluminium, and other marine metals by removing surface oxidation, corrosion and tarnish.

Part No
63689

3M

3M General Purpose Adhesive Cleaner 1Ltr
Mild solvent for surface preparation prior to adhesive use. Also use for cleaning up adhesives/sealants and for the removal of silicone polish, wax, grease and oil.

Part No
63807

Brillo Washing Up Liquid
Specially formulated washing up liquid for use in professional kitchens. Contains a concentrated blend of high active grease cutting ingredients that leaves tableware clean and smear free. 5 litres makes up to 7,500L of ready to use dish washing detergent.

Part No
5 Litre
61620

MultiSolve 500ml Aerosol
It is a complete new multi-purpose solvent; for the safe removal of adhesives and sealants. Removes adhesives, sealants, oil, grease, silicon, wax, tar, paraffin, printing ink etc. Leaves no oil film. Fast, thorough and safe degreasing and cleaning. Can be used on painted surfaces, vinyl, glass, rubber and plastics.

Fast drying.
Part No
60516

Mould Stain Remover 500ml
Cleans and bleaches stains caused by mould spores, fungus and algae from most surfaces including grout and the surface of silicone seals and other damp areas. Once cleaned and with regular use it will help prevent re-growth and the reappearance of fungal stains. It has a 360 degrees head for ease of use and gives accurate spray action for interior or exterior use.

Part No
61506

White Spirit
White Spirit is a highly refined solvent meeting the requirements of BS245. Suitable for general cleaning purposes, brush cleaning and paint thinning. It is more suitable for paint thinning than other solvents as it will not affect the drying time of oil based paints.

750ml 2 Ltr
61505 61500

Acetone
Solvent for cleaning up polyester, polyurethane and epoxy resins. Use for cleaning brushes, equipment, blocked spray guns etc.

Part No
1 Ltr 2.5 Ltr
63000 63001

Isopropyl Alcohol
99.9% pure Isopropanol, used widely as a solvent and as a cleaning fluid.

Part No

140mm Fold Down Cleat

A compact and ergonomic design solution. Made of mirror-polished AISI316 stainless steel. Easy to install, no recess fit required.

Mounting With 8x45-mm Ø studs (included). Length 143mm. Width 53mm. Centre distance 92mm. Size 21mm. Breaking load 1200kg.

Part No
96096

6" Stud Mount Folding Cleat

Made from 316 stainless steel these folding cleats require nothing but two holes to fit screws or studs. Where most pop-up cleats need substantial space below deck, these require nothing but a suitable surface to attach them to. Stud mounted with hidden Fastenings.

Part No	Length
96556	6" (152mm)

All models are tapped on the underside so that no fastenings are visible. Made of high-gloss polished stainless steel (AISI 316).

Type MAGNUS (AI)

Heavy duty ocean hatch

MAGNUS hatches have a satin sheen anodised frame profile with a 10 mm thick 'dark smoke' coloured acrylic and are designed for ocean use, design category A, Area I. These hatches can be opened from the inside or outside through 180° with almost no obstructions in the opening. They have a ventilation position and can be locked completely watertight. The cut-out sizes of this type match the market-based dimensions.

Part No	Vetus	Type	External Dimensions A x B (mm)	Cut - out Dimensions C x D (mm)
58540	MAG6363SL	Escape	679 x 679	627 x 627

HHMB

Spare Single Hinge which fits the Magnus style Vetus hinges.

Part No

58497

VETUS handles

Specifications

- The hatch can be opened from the inside or outside
- Can be locked or secured with an air gap for permanent ventilation
- An internal locking mechanism prevents opening from the outside when the boat is unattended
- The low external profiles ensures that ropes cannot get caught under the handles.

OPEN

CLOSED

Type FGH (All)

Stylish flush hatch

The FGH is specifically designed for new boats. The flush hatches are most suitable for new builds because the deck must be recessed to receive the hatch. After fitting, the hatches are completely recessed into the deck, leaving the deck smooth without visible lines. Type FGH is available in four sizes and is made of 12 mm thick 'dark smoke' acrylic with a polished and anodised aluminium frame. Type FGH is suitable for design category A, Area II.

Part No	Vetus	Type	External Dimensions A x B (mm)	Cut - out Dimensions C x D (mm)

58517	FGH6363	Escape Hatch	700 x 700	627 x 627

Portholes Area A1

Heavy duty portholes

These portholes are suitable for use in the hull side. The 10 mm 'smoke' coloured opening pane is set in a satin anodised aluminium frame. Black and white powder coated frames are optional. The clamp fixing ensures that no fasteners are visible from either inside or outside. The portholes can be held open in any position due to the friction type hinges. In closed position knobs ensure water resistance. The porthole can be fitted in a surface with a minimum thickness of 2 mm and a maximum thickness of 18 mm. As standard a mosquito screen is supplied. A fixed version of each opening porthole is also available upon request.

Medium duty portholes

These portholes are suitable for use in the coachroof side. They come with a 10 mm 'smoke' coloured -unframed- opening pane. The clamp type installation ensures that no fasteners are visible from either inside or outside. The portholes can be held open in any position due to the friction type hinges. In the closed position 2 knobs ensure water resistance. They are supplied as standard with a mosquito screen. The porthole can be fitted in a surface with a minimum thickness of 2 mm and a maximum thickness of 18 mm.

CABLES (OCEANFLEX® TINNED COPPER CABLES)

Single Core Tinned 1.0mm², 1.5mm², 2.5mm², 4mm², 6mm² & 10mm²

OCEANFLEX® TINNED COPPER SINGLE CORE CABLES

High temperature, thin wall, low voltage, wiring cables, suitable for use in automotive, marine, and other harsh environments. The tinned copper conductors make this cable more resistant to corrosion.

SPECIFICATIONS

- Cores manufactured to ISO 6722-1:2011 (class B) 105°C.
- Tinned Copper Conductors, PVC Insulated.
- Suitable for use at temperatures from -40°C to 105°C with excursions up to 120°C.
- Twins and multicores PVC sheathed at 70°C.
- Suitable for 12v and 24v systems (maximum 60v).
- Good resistance to petrol, diesel, lubricating oils and diluted acid.
- Very good resistance to moisture.
- PVC insulation saves weight and offers good resistance to abrasion and cut through.
- Cables are printed with the specification on the insulation.

100m reels or cut by the metre.

2 Core Flat 1.5mm - White	70919	2 x 21/0.30	2 x 1.5	3.5 x 5.8	21.0	White	Black, Red
2 Core Flat 1.5mm - Black	70920	2 x 21/0.30	2 x 1.5	3.5 x 5.8	21.0	Black	Black, Red
2 Core Flat 2.5mm - Black	70922	2 x 35/0.30	2 x 2.5	3.9 x 6.7	29.0	Black	Black, Red

OCEANFLEX® 3, 5 & 7 CORE CABLES

High temperature, thin wall, low voltage, wiring cables, suitable for use in automotive, marine, and other harsh environments. The tinned copper conductors make this cable more resistant to corrosion.

SPECIFICATIONS

- Cores manufactured to ISO 6722-1:2011 (class B) 105°C.
- Tinned Copper Conductors, PVC Insulated.
- Suitable for use at temperatures from -40°C to 105°C with excursions up to 120°C.
- Twins and multicores PVC sheathed at 70°C.
- Suitable for 12v and 24v systems (maximum 60v).
- Good resistance to petrol, diesel, lubricating oils and diluted acid.
- Very good resistance to moisture.
- PVC insulation saves weight and offers good resistance to abrasion and cut through.
- Cables are printed with the specification on the insulation.

Three Core Round Tinned 1.5mm² & 2.5mm²

100m reels or cut by the metre.

Description	Part No	Conductor Specification (mm)	Conductor Cross Section (mm ²)	Maximum Overall Diameter (mm)	Nominal Current Rating (Amps)	Sheath Colour	Core Colours
3 Core 1.5mm - White	70959	3 x 21/0.30	3 x 1.5	6.1	21.0	White	Black, Green, Red
3 Core 1.5mm - Black	70960	3 x 21/0.30	3 x 1.5	6.1	21.0	Black	
3 Core 2.5mm - Black	70961	3 x 35/0.30	3 x 2.5	7.4	29.0	Black	

Five Core Round Tinned 1.5mm²

30m reels or cut by the metre.

Description	Part No	Conductor Specification (mm)	Conductor Cross Section (mm ²)	Maximum Overall Diameter (mm)	Sheath Colour	Core Colours
5 Core 1.5mm	70963	5 x 21/0.30	5 x 1.5	8	Black	Black, Green, Red, White, Yellow

Seven Core Round Tinned 1.5mm²

30m reels or cut by the metre.

Description	Part No	Conductor Specification (mm)	Conductor Cross Section (mm ²)	Maximum Overall Diameter (mm)	Sheath Colour	Core Colours
7 Core 1.5mm	70965	7 x 21/0.30	7 x 1.5	8.5	Black	Black, Green, Red, White, Yellow, Brown, Blue

Arctic Blue Cable

100m reels or cut
by the metre.

Flexible annealed copper conductor. PVC insulated. PVC sheathed flexible cords.
Sold by the metre. Maximum length 100m.

Description	Part No	Conductor Cross Section (mm ²)	Maximum Overall Diameter (mm)	Voltage Rating	Sheath Colour	Core Colours
Arctic Cable 3 Core 1.5mm	72168	1.5mm ²	9.2mm	300V 500V	Blue	Blue, Brown, and Green/ Yellow
Arctic Cable 3 Core 2.5mm	72170	2.5mm ²	9.2mm	300V 500V	Blue	
Arctic Cable 3 Core 4mm	72171	4mm ²	9.2mm	300V 500V	Blue	

OCEANFLEX® PVC BATTERY / EXTRA FLEXIBLE CABLES

Single insulated extra flexible battery cables designed for use in tough working environments.
SPECIFICATIONS

- Cores manufactured to ISO 6722-1:2011 (class B) 105°C.
- Tinned Copper Conductors, PVC Insulated.
- Suitable for use at temperatures from -40°C to 105°C with excursions up to 120°C.
- Twins and multicores PVC sheathed at 70°C.
- Suitable for 12v and 24v systems (maximum 60v).
- Good resistance to petrol, diesel, lubricating oils and diluted acid.
- Very good resistance to moisture.
- PVC insulation saves weight and offers good resistance to abrasion and cut through.

Whole reels or cut
by the metre.

Flexible Tinned Battery Cables 16mm², 25mm², 35mm², 50mm², 70mm² & 95mm²

Commoning Posts

Power distribution posts for distributing power around a vehicle or boat.

Material - glass fibre reinforced nylon base, stainless steel stud, nickel plated brass nut.

Part No	Rating (Amps)	Polarity	Base Colour	Stud Size (mm)
70870	150	- VE	Red	8
70871	150	+ VE	Black	8

Waterproof Plugs & Sockets

VTE 8 Point Power Distribution Posts

Used to connect several wires/cables to a central location. These devices can be used to deliver power to a control panel, feed multiple low-current devices, or when grounding wires/cables.

Material: Glass-filled nylon base, stainless steel post, nickel-plated copper alloy conductive disc and tin-plated copper alloy conductive nuts.

Part No	Description	Stud Size	Max Rating (Amps) @12V	Polarity	Colour

Heat Shrink

3:1 Adhesive Heat Shrink sleeving

This is a dual wall adhesive lined heatshrink tubing manufactured from flame retardant cross-linked polyolefin. This tubing may be used in a wide variety of electrical applications and provides excellent waterproofing and moisture protection. Its high shrink ratio makes it ideal for sealing irregular shapes.

Part No	Internal Diameter Before Heating (mm)	Internal Diameter After Heating (mm)	Colour	Lengths Available (Metres)

Shore Power

Wall mounting, 105 x 105 mm. Built-in sizes: D 83 x H 90 x W 83 mm

Part No	Description
70763	Outdoor Plug Male - 230V (Shore Power)
70764	Outdoor Plug Female - 230V (Shore Power)
70766	Wall Mounting Socket White (shore power)

Osculati Cruiser 3 Pin Socket

Marine plug and socket for 16A - 230V shore power cord. Made of PA6, fitted with high energy efficiency contacts and IP67 cover.

The plug has an ergonomic grip design and the rotating ring fastens it tightly to the onboard socket with a watertight closure while the rubber cover ensures an IP44 rating protection when not connected. Simple and compact design for easy installation in any corner of the cockpit In compliance with the IEC 60309-5 European safety standards.

Flip Pro Dual USB Ultra Fast Charging 12V/24V

Flip Pro is FAST! It will charge at 36W on a 12V system or up to 60W on a 24V system. This makes it perfect for charging modern laptops via the USB-C port. It's also 2x faster for charging large tablets and is designed to effortlessly charge both an iPad Pro & iPhone at the same time. USB – C output: 60W max on 24V system 36W max on 12V system USB – A output: 36W max

Part No
72215

ROKK 2 USB Charger

Charge up to 2 devices at a time. Easy install. Click & lock lid. Output current 4.2A (total). Up to 3x faster than standard USB sockets. Waterproof with 1, 2 and even no cables plugged in. Anti-corrosion coating on circuit board. UV resistant. 316 stainless hinge and spring. Ultra low profile: only 29mm high, 94mm long.

Part No
72213

Dual USB Charger Socket

Input 12-24v DC
Output 5v/2.1A DC
Easy Install
Corrosion Resistant materials with protective cap
Overheat Protected
FCC and CE

Part No
76094

Made of nylon and fitted with protection caps to make them waterproof. 12/24V input, 5V USB output.

Part No	Description
76089	Lighter Socket + Double USB Charger 12/24V

Voltmeter + Dual USB Socket
3/30V. 54 x 100mm
Part No
76018

8/32V Digital Voltmeter. Dual USB plug. 2.4 + 2.4A.
Part No
76091

8/32V Digital Voltmeter. 0/10A Digital Ammeter.
Part No
76092

8/32V Digital Voltmeter + Lighter Socket.
Part No
76090

USB 12V Adaptor
Input 12-24V. Output 5V
Max Load 2,1A
Overload Protection on 6,8V
Part No Description
70760 Single
70761 Double

Cigarette Lighter Style Socket
100% water resistant, either with protection cap closed or with lockable plug, equipped with a special watertight collar and a "lock-in" system that locks the plug by turning; designed for plug mounting with back screw nuts or two screw boards; suitable for lighters and cellular phones.

Part No	Description
70762	12V DC Socket

100% water-proof, with either the cap closed or when it is plugged in, fitted with a special watertight collar and a locking system that locks the plug by turning it; the socket can be mounted with a rear screw-nut or with a 2-screw board. Standard socket for lighters, cellular phones; includes a plastic fairing and a base washer, designed for wall or ceiling mounting.

80 x 65 x 43mm
Part No
70768

Plug + fuse and red LED

Made of plastic, stainless steel and brass, easy to mount, fine looking product. Module 50x50mm.

Part No

70767

Dual USB A Port

12/24V

2.1a + 1.0a

49 x 25 x 51mm

Will fit in rocker switch frame.

Part No

76093

Various Rocker Switches

When the on or off is in brackets it indicates that it is a spring loaded momentary switch.

Sealed Rocker Switch

IP67: Waterproof
Non Illuminated
12V 24V
Comes with actuator.

Part No Description

70511 Rocker Switch (on)-off

70512 Rocker Switch (on)-off-(on)

Sealed Single Rocker Switch

IP67: Waterproof
Illuminated
12V 24V
Comes with actuator.

Part No Description

70513 Rocker Switch on-off

70514 Rocker Switch (on)-off

Sealed Double Rocker Switch

IP67: Waterproof
Illuminated
12V 24V
Comes with actuator.

Part No Description

70515 Rocker Switch on-off-on

70516 Rocker Switch (on)-off-on

Sealed Rocker Switch

IP56 Watertight
Illuminated
12/24V
Double Red LED

Part No Description

70517 Rocker Switch on-off

Sealed Single Square Rocker Switch

IP67: Waterproof
Illuminated
12V 24V
Comes with actuator.

Part No Description

70518 Rocker Switch (on)-off

Carling Rocker Switch

Single Pole
Off - On
Red LED
12/24V

Part No Description

69906 Carling Switch Contura II

Label Stickers For Rocker

Part No

70522

Rocker Switch Holder Right/ Left Insert

Only one is supplied.
Can be used as either right or left.
Plastic bezels suitable for making single panels for switches.

Part No Description

70519 Right/Left plastic insert

Rocker Switch Holder Central Insert

Only one is supplied.
Plastic bezels suitable for making single panels for switches.

Part No Description

70520 Central plastic insert

Rocker Switch Locking Frame Plug

Only one is supplied.

Covers the hole in the inserts which are not being used.

Part No Description

70523 Locking Frame Plug

Actuator Removal Tool

Part No

70521

Switches

Momentary Push Button Switch
 Marine plastic with rubber button and silver contacts.
 For 9mm plate.
 12V - 5A

Part No
 70680

Weatherproof Switch
 15A single pole. 2 Terminals.
 Panel aperture: 12mm. Flexible splash proof rubber cover.

Part No
 70674

Carling Toggle Switches
 High tension thermosetting body, silver plated contacts, nickel plated brass lever and sleeve. Capacity of 15 Amp; very sturdy and functional model; "Faston" terminals, pin size 12x10 mm; can be connected to 2 separate circuits.

Part No	Description
70678	2 Position
70679	3 Position

Illuminated Watertight Toggle Switches
 Watertight through its clear silicon cap, which enables light to pass through the lever; fitted with back faston couplings.

15 amp

Part No	Description
96503	ON/OFF/ON 3 terminals (for all services)
96504	ON/OFF/ON with spring recovery to the centre (suitable for horns, flaps, windlasses, anchor, etc.)

Vetus Push Button
 12/24V
 This push button may operate marine horns, with a current consumption of 15 A maximum.
 Cut-out diameter: Ø 31 mm
 Outside dimensions: Ø 38 mm
 Watertight to IP67

Part No
 58290

Waterproof Rocker Switch
 Mounted switch 12V, waterproof IP65. On/off.

Part No	Description
70765	Rocker Switch On/Off

Stainless Steel Switch 12 or 24V
 CNC-machined AISI316 stainless steel case. Amperage: 20A at 12V. IP67 watertight (temporary submersion). LED light crown. Life: 20,000 cycles. A scheme wiring: LED light crown always on. B scheme wiring: LED light crown switched when in ON position.

Part No	Description
96477	On/Off Switch White 12V
96475	On/Off Switch White 24V
96478	On/Off Switch Red 12V
96476	On/Off Switch Red 24V

Aluminium 6 Switch Breaker Panel 12v
 Vertical Aluminium Breaker Panel. 12v DC 37amp Max. Protected by circuit breakers. – 1 x 10amp, 1 x 8amp, 2 x 6amp & 2 x 3amp.
 Dimensions – 165mm x 114mm

Part No
 75999

Switch Panels

Blue Sea 4 Position Waterproof Panel
12/24V

Max Operating (per circuit): 15A @ 12V DC, 9A @ 24V DC, Backlight Operating: 10mA / Illuminated Circuit, Panel Cumulative: 45A, Switch: 15A maximum, Circuit Breaker: 15A

Height : 109.22mm (4.30")
Width: 107.95mm (4.25")
Depth: 88.9mm (3.50")

Part No	Description
69890	4 Way Circuit Breaker Switch Panel

Blue Sea 6 Position Waterproof Panel
12/24V

Max Operating (per circuit): 15A @ 12V DC, 9A @ 24V DC, Backlight Operating: 10mA / Illuminated Circuit, Panel Cumulative: 45A, Switch: 15A maximum, Circuit Breaker: 15A

Height : 152.4mm (6.00")
Width: 107.95mm (4.25")
Depth: 88.9mm (3.50")

Part No	Description
69891	6 Way Circuit Breaker Switch Panel

Blue Sea 6 Way Waterproof Switch Panel
Maximum Amperage 15A @ 12V DC (per circuit).
Panel Cumulative Rating 90A.
Height: 152.4mm x Width 98.55 mm x Depth 63.5 mm
IP67 – protected against immersion up to 1 metre for 30 minutes

Part No	Description
69900	6 Position IP67 Waterproof Panel

Waterproof Switch Panel
Black Injection Moulded Waterproof Switch Panel. IP65 with LED indication.
6 Way, Pre-wired, max 15amps
108mm x 95mm

Part No	Description
76006	Waterproof 6 Way Switch Panel

Wave 4 Way Electric Switch Panel
110 x 100mm
Fuses included 4Ax1 + 6Ax1 + 8Ax1 + 10Ax1.
Made of black plastic, equipped with toggle switches and resettable thermal automatic fuses. Equipped with sticking labels to identify the different uses.

Part No	Description
76015	4 Way Panel

Wave 6 Way Electric Switch Panel
160 x 100mm
Fuses included 5Ax2 + 6Ax2 + 8Ax1 + 10Ax1.
Made of black plastic, equipped with toggle switches and resettable thermal automatic fuses. Equipped with sticking labels to identify the different uses.

Part No	Description
76016	6 Way Panel

Wave 8 Way Electric Switch Panel
210 x 100mm
Fuses included 4Ax1 + 5Ax2 + 6Ax2 + 8Ax2 + 10Ax1
Made of black plastic, equipped with toggle switches and resettable thermal automatic fuses. Equipped with sticking labels to identify the different uses.

Part No	Description
76017	8 Way Panel

Aluminium Vertical Rocker Switch Panel
 Aluminum Vertical Rocker Switch Panel features four 15A 12 VDC illuminated SPST On/Off rocker switches and four 10A 12 VDC fuse holders. Individual circuit 10A max. 37A total. Includes a sheet of 20 preprinted decals to customize to your specific applications. Constructed of stamped anodized aluminium.

Part No	Description
76004	Alu Switch Panel Vertical 4 Gang (127mm x 114mm)

Aluminium Vertical Rocker Switch Panel
 Aluminium Vertical Rocker Switch Panel features six 15A 12 VDC illuminated SPST On/Off rocker switches and six 10A 12 VDC fuse holders. Individual circuit 10A max. 37A total. Includes a sheet of 20 preprinted decals to customize to your specific applications. Constructed of stamped anodized aluminium.

Part No	Description
76000	Alu Switch Panel Vertical 6 Gang (165mm x 114mm)

Aluminium Horizontal Rocker Switch Panel
 Aluminium Horizontal Rocker Switch Panel features six 15A 12 VDC illuminated SPST On/Off rocker switches and six 10A 12 VDC fuse holders. Individual circuit 10A max. 37A total. Includes a sheet of 20 preprinted decals to customize to your specific applications. Constructed of stamped anodized aluminium.

Part No	Description
76002	Alu Switch Panel Horizontal 6 Gang (114 x 165mm)

Nylon Vertical 6 Gang Rocker Switch Panel
 The Vertical 6-Gang Rocker Switch Panel features six 15A 12 VDC illuminated SPST On/Off rocker switches and six fuse holders for use with standard AGC 1/4" x 1-1/4" glass style fuses. Individual circuit 10A max. 37A total. These fire resistant panels are suitable for use in engine room compartments. Includes a sheet of 20 preprinted decals to customize to your specific application. Constructed of injection molded nylon. CE compliant. 12 VDC.

Part No	Description
76008	Moulded Switch Panel Vertical 6 Way 165mm x 114mm

Nylon Horizontal 6 Gang Rocker Switch Panel
 The Horizontal 6-Gang Rocker Switch Panel features six 15A 12 VDC illuminated SPST On/Off rocker switches and six fuse holders for use with standard AGC 1/4" x 1-1/4" glass style fuses. Individual circuit 10A max. 37A total. These fire resistant panels are suitable for use in engine room compartments. Includes a sheet of 20 preprinted decals to customize to your specific application. Constructed of injection molded nylon. CE compliant. 12 VDC.

Part No	Description
76010	Moulded Switch Panel Horizontal 6 Way 114mm x 165mm

Nylon Horizontal 4 Gang Rocker Switch Panel
 The Vertical 4-Gang Rocker Switch Panel features four 15A 12 VDC illuminated SPST On/Off rocker switches and four fuse holders for use with standard AGC 1/4" x 1-1/4" glass style fuses. Individual circuit 10A max. 37A total. These fire resistant panels are suitable for use in engine room compartments. Includes a sheet of 20 preprinted decals to customize to your specific application. Constructed of injection molded nylon. CE compliant. 12 VDC.

Part No	Description
76012	Moulded Switch Panel Vertical 4 Way 127mm x 114mm

Switch Panel 12/24V

This panel is splash proof according to IP 64. It has 8 separate circuits, each provided with a switch, indicator LED and fuse holder and it is suitable for both 12 and 24 Volt D.C. circuits. The panel can be used with conventional automotive (ATO) fuses or with automatic fuses.

- Dimensions 99 x 161 mm
- Built-in depth 45 mm

Part No	Vetus
55946	P8FA

Switch Panel + Circuit Breakers

This panel features 6 on/off switches, 6 monitoring L.E.D.'s and a choice of either 6 automatic fuses, or 6 tubular glass fuses of 10 A.

Specifications:

Available for 12 or 24 Volt D.C. circuits.

Sixty self-adhesive name/symbol plates for different functions are supplied.

Dimensions 94 x 156 mm

Built-in depth 50 mm

Part No	Description	Vetus
55957	P6 12V	P6CB12
55958	P6 24V	P6CB24

Switch Panel Fuses

This panel features 6 on/off switches, 6 monitoring L.E.D.'s and a choice of either 6 automatic fuses, or 6 tubular glass fuses of 10 A.

Specifications:

Available for 12 or 24 Volt D.C. circuits.

Sixty self-adhesive name/symbol plates for different functions are supplied.

Dimensions 94 x 156 mm

Built-in depth 50 mm

Part No	Description	Vetus
55952	P6 12V	P6F12
55953	P6 24V	P6F24

Switch Panel + Circuit Breakers

This panel features 12 on/off switches, 12 monitoring L.E.D.'s and a choice of either 12 automatic fuses or 12 tubular glass fuses of 10 A.

Available for 12 or 24 Volt D.C. circuits. Sixty self-adhesive name/symbol plates for different functions are supplied.

VETUS switch panels are supplied pre-wired. The only work required is to connect the positive and negative feeds of the various services (lights, pumps etc.). These panels are made of synthetic and non-corrosive materials, but are not waterproof.

Specifications

- Dimensions 188 x 156 mm
- Built-in depth 50 mm

Part No	Description	Vetus
55959	P12 12V	P12CB12
55960	P12 24V	P12CB24

Switch Panel Fuses

This panel features 12 on/off switches, 12 monitoring L.E.D.'s and a choice of either 12 automatic fuses or 12 tubular glass fuses of 10 A.

Available for 12 or 24 Volt D.C. circuits. Sixty self-adhesive name/symbol plates for different functions are supplied.

Typically used in auxiliary and accessory circuits in trucks, buses, RV's and marine systems. Sealed for engine compartment and bilge area applications. (Gasket included) Compliances: SAE J1171 (ignition protected), SAE J1625. Ingress Protection: IP67. Voltage: 48Vdc. Interrupt Rating: 3000A @ 30Vdc. Operating Temp: -32°C to 82°C. Storage Temp: -34°C to 149°C. Material: Black UL-rated 94V0 thermoset plastic.

Hydraulic Magnetic Circuit Breaker Switched

Toggle actuator, IAG series, universal 12/220 V, front recess in the panel, 16-mm Ø. Flat flush toggle circuit breaker for horizontal or vertical mounting. Flat actuator with flush toggle, coloured light indicator for OFF position. IEGB series, universal 12/220 V, front recess in the panel 32x19-mm.

Part No	Description
69911	5 Amp Circuit Breaker
69912	10 Amp Circuit Breaker
69913	15 Amp Circuit Breaker
69914	20 Amp Circuit Breaker
69915	50 Amp Circuit Breaker

ETA Circuit Breakers

This neat design combines a thermal circuit breaker and switch all in one unit. Push button on-off and breaker reset. The two colour button provides clear on / off indication. Single hole mounting.

Part No	Description
71790	2.5 Amp
71791	5 Amp
71792	10 Amp
71793	15 Amp

Vetus Watertight Foot Switch Black or White

New Maxwell Compact up and down Windlass Footswitch with Black cover. Designed for use with a solenoid on 12 or 24v systems. Grey activation button is reversible to denote direction and can be operated by hand with the cover in place, or by foot with the cover flipped open.

Part No	Description
55364	Foot Switch Black P104810
55361	Foot Switch White P104809

Carling Circuit Breaker Switches

Compact size and well known for its proven reliability the A-series utilises the hydraulic magnetic principle which provides precise operation and performance even when exposed to extremely hot or cold application environments. A-series circuit breakers will trip on overload even when the actuator is manually held on the ON position.

Part No	Description
69903	Circuit Breaker 15amp
69904	Circuit Breaker 25amp
69905	Circuit Breaker 50amp

Battery Charger - BC12051
 VETUS has introduced a new 12 Volt, 5 Ampere battery charger. This new microprocessor controlled 'switch mode' charger will charge a battery in five separate stages. Thanks to the switch mode technology, batteries are charged 1.5 times faster compared with a conventional battery charger. It is also capable of 'refreshing' and maintaining your battery.

Blue Sea 7610 Automatic Charging Relay 12/24V DC 120A.
 Automatically combines batteries during charging, isolates batteries when discharging and when starting engines This relay protects sensitive electronics by temporary isolation of house loads from engine circuit during engine cranking. Designed for 12 or 24 volt systems .12/24 volt auto ranging voltage input. Hermetically sealed contacts/vaporproof. Ignition protected—safe for installation aboard gasoline powered boats Supports high-output alternators up to 120 Amperes Dual sensing .
 Part No
 69909

Blue Sea 7601 M-Series Automatic Charging Relay 12/24V DC 65A.
 12V / 24V DC / 65A Continuous 115A Intermittent.
 Part No
 69908

Voltage Sensitive Relay 125amp (VSR)
 Nominal Voltage | DC 12V. Combine / Open Voltage | DC 13.3V / 12.8V. Continuous Current Rating | 125A. Intermittent Current Rating | 140A. Power Consumption | 10mA (Standby) / 330mA (Engage) / 0mA (Storage Mode).IP67 / ISO8846 (SAE J1171) Ignition Protected.

P Clips, Crimping Tools & Junction Boxes

JCS P Clips

JCS rubber-lined P-Clips are tough and durable, providing a simple and secure fixing solution for even the most challenging of environments. Available in two accurately sized ranges for 6mm and 10mm bolts in both Zinc plated Mild Steel and 304 Stainless Steel. TPE liners are available for both standard and high temperature applications. The standard P clip is supplied with a TPE rubber liner which prevents chafing or damage to the surface of the item being clamped.

IP67 Stainless Steel Cable Gland

They ensure perfect watertightness (IP67) for cable passing. They allow the cables to pass without disassembling end connectors, if any. Fiberglass-reinforced nylon body with AISI316 stainless steel plug.

Part No	Cable Diameter
70719	3-14mm (straight)
70720	3-8mm (90 degree)

Swan Neck Electrical Cable Gland

Made of polished AISI 316 stainless steel, designed for electrical cables, from mast base to inside cabin.

Part No
70714

The DR1 cable gland can be drilled in the same way as the M Series glands, to accept a variety of cables. Following the instructions provided, simply drill holes of appropriate diameter through the 12.5mm thick diaphragm. However, the diaphragm should not be slit as it is not tapered, (as in the M Series glands) and a perfect seal would therefore not be guaranteed. Stainless steel top. Plastic base.

Dimensions: Height 21mm, Length 94mm, width 44mm
Aperture: 65 X 18.5mm

Part No: 71613

V12 Series Glands 2-8mm cables.

A gland for a single cable, with no connector attached. Three different diameter seals are supplied. Choose the seal whose diameter most closely matches the diameter of the cable to be passed through. The seal sits between the top and the base of the gland and when the two are screwed together, a neat and watertight seal is created.

Dimensions: Width 35mm, Height 12mm

Part No	Type
71614	V12F Aluminium
71615	DG8P Plastic

The DG series of plastic cable glands are made from UV stable nylon. They are available in an aperture range of 8mm to 40mm and have an attractive, low profile shape. The range has passed independent rigorous dust and waterproof testing to IP 68. Each unit is supplied with clear fitting instructions and A4 stainless steel fixings. DG Deck Glands are easy to fit and do not require the removal of fitted connectors when installing. The DG Series aluminium cable glands are made from marine grade anodised aluminium.

Part No	Type	Max Connector Diameter	Dimensions (mm)
71606	DG20A Aluminium	21mm	45 x 21

DS Multi - Aluminium Cable Gland
 Supplied with an undrilled seal allowing you to custom drill holes to match your cable requirement. Designed for multiple cables up to Ø15mm (0.59"), made from marine-grade aluminium with a hard finish to resist impact marks.

Part No
 72210

DS-H6 Horizontal Cable Seal

For cables from 2-6mm (0.08"-0.24"), an aesthetic dome-shaped profile provides a stronger, impact-resistant design and captive nuts in the base make for an easy assembly.

Part No

72211

DS-H10 Horizontal Cable Seal

For cables from 6-10mm (0.24"-0.39") - Perfect for solar panels, light bars, lights and other rooftop electronics.

Part No

72214

6mm Horizon Double Cable Entry Deck Seal

Designed for solar panel installations. Install 2 cables - 5mm (0.19") and 6mm (0.23") in any combination. Compact footprint - just 54mm (W) 63mm (L) 24mm (h). Makes it perfect for installing as close to the solar panel as possible. Easy fit cable routing that cuts down your installation time through wood, metal, and GRP. IP68 watertight seal. Black high impact plastic. Includes 316 stainless steel fixings and a waterproof 3M gasket. Clean and simple design. The low-profile construction is impact-resistant and provides extra protection from water. Captive nuts make for easy assembly and also allow for reliable repeat installations. Our materials have been selected to be UV-stable and hard-wearing. No messy sealant on bungs. Constructed from premium marine-grade materials.

Part No

72216

10mm Horizon Double Cable Entry Deck Seal

Designed for two cables. IP68 watertight seal. Install 2 cables – select any combination: 6mm x 2 7mm x 2 8mm x 2 9mm x 2 10mm x 2 Blank x 2 Compact footprint - just 66.5mm (2.61") W / 75.1mm (2.95") L / 28.5 mm (1.12") H. Easy fit cable routing that cuts down your installation time through wood, metal, and GRP. Black high impact plastic. Includes 316 stainless steel fixings and a waterproof 3M gasket. The low-profile construction is impact-resistant and provides extra protection from water. The materials have been selected to be UV-stable and hard-wearing. No messy sealant on bungs.

Charging Accessories

Flip Pro Fast Charge Dual USB Socket - SC-USB-F1

Flip Pro Dual USB Ultra Fast Charging 12V/24V

Ultra-fast USB charging for the next generation boater. Flip Pro is designed for use with either a 12V or 24V input and features 1x USB-A and 1x USB-C charging port.

Part No

72215

Flip Pro 12V Power Socket - SC-12V-F1

12V Flip Pro Power Cigarette Socket

Flip Pro 12V Power Socket takes onboard power delivery to a new level, featuring a IPX4 spring loaded lid, and an impressive 150W max power on a 12V system. Easy install, using a $\varnothing 32mm$ (1.25") hole saw.

Part No

72218

Flip Pro Dual USB-A & USB-C with 12V Power Socket - SC-MULTI-F2

12V Flip Pro Power Socket + USB-A + USB-C

Combining features of our high-power Flip Pro USB-A / C charger and 12V Power Sockets into a beautiful multi power solution. When not in use, the spring-loaded caps remain tightly closed, protecting the ports from the

The world's first waterproof wireless charging range.

ROKK Wireless Hidden - SC-CW-01E

The world's first waterproof wireless charging range.

ROKK Wireless Surface - SC-CW-02E

ROKK Wireless Hidden Charger

Sub-surface, hidden from view but always ready to charge. Engineered to be installed under the surface and leave the top surface un-cluttered and looking perfect. Simply etch in your logo to identify the charge location. Ideal for GRP or wood, the unit can be installed under tables, cabinets, consoles or worktops. The installation system is simple to install and works with a variety of panel depths and materials.

Part No Description

72220 ROKK Wireless Hidden

ROKK Wireless Surface Flush Mounted Charger

Low-profile, flush-mounted charge pad with an ultra grippy, non-slip surface. Contemporary look with two-tone colour, designed to complement modern interiors and exteriors. Designed to fit to any

Part No Description

Aluminium PowerTower - 150mm / 6" for Starlink - APT-150-SL-01

Aluminium 8° Wedge Mount for Starlink - SC-SL-01

Starlink 150mm Marine Aluminium Power Tower

Install your Starlink with precision on the roof, T-top, flybridge, or radar arch of your powerboat. It guarantees obstacle clearance and positions your Starlink at an ideal 8° angle for optimal connectivity. Designed for the harsh marine environment, it's tailored to fit Starlink High-Performance. Pre-drilled mounting holes allow secure fastening directly to the tower, while the built-in Scanstrut Cable Seal ensures a watertight installation, eliminating the need to remove Starlink connectors during installation. The paint finishes adhere to our exclusive 4-step marine paint system, and it's crafted from premium marine-grade aluminium.

Part No

72227

Starlink Aluminium 8° Wedge Mount

This versatile wedge can serve as a standalone option for mounting Starlink directly onto a boat's roof or deck. Additionally, it functions as an adapter plate, seamlessly integrating with our popular Modular Dual PowerTower range, making it ideal for multi-electronic installations on powerboats. It can also be used as a top plate in conjunction with our SC100 Pole Mount range, designed specifically for transom mounting on sailing boats, ensuring that your Starlink hardware is elevated to an optimal position while optimising space onboard.

Horns

Electric Horns Compact Type

Compact shell horn, stainless steel (AISI316), low pitch, available in 12 Volt, 110 db. Double horn is high & low pitch.

Part No	Description
58273	C12L Single 12Volt (L X H X W) : 83 x 56 x 85 mm
58272	C12D Double 12 Volt (L X H X W): 205 x 56 x 85 mm

Flush Mount Electric Horn

Flush mounted electric horn. Plastic housing, stainless steel (AISI 316) diaphragm. Including white, black and chrome plated ABS cover.

Voltage (V): 12 V

Decibel (dB): 110 dB (A)

Dimensions (height x width) (inches): 2,44 x 5,04

Build-in depth (inches): 3,74

Dimensions (height x width) (mm): 62 x 128

Build-in depth (mm): 95

Part No	Description
58289	12V SS 316 110db (T12)

Eco Friendly Compressed Air Horn

Hand-operated via the plunger on the bottom of the cylinder. Fitted with double nozzle to be also used as inflator for fenders and balls.

Part No	Description
96333	Eco Compressed Air Horn

AFI Horn Compact Dual Trumpet 16" SS 110db

Part No	Description
96433	AFI Horn Dual Trumpet

Electric Horns Long Trumpet Type

Deluxe 12v electric single trumpet horn with an elegant shape. The horn is made of chromium plated brass, mounting bracket and top cover are stainless steel, mechanism base is chromium plated ABS.

Part No	Description
58275	Single 12Volt Low Pitch (H12L)
58276	Single 24Volt Low Pitch (H24L)
58277	Single 12Volt High Pitch (H12H)
58278	Single 24 Volt High Pitch (H24H)
58279	Double 12 Volt High & Low (H12D)
58280	Double 24 Volt High & Low (H24D)

Electric Horns Short Type

Deluxe compact electric horn, made of chromium plated ABS stainless steel. Supplied with relay.

Part No	Description
58283	Single 12Volt Low Pitch (TNA12L)
58284	Single 24Volt Low Pitch (TNA24L)
58285	Single 12Volt High Pitch (TNA12H)
58286	Single 24Volt High Pitch (TNA24H)
58287	Double 12 Volt High & Low (TNA12D)
58288	Double 24 Volt High & Low (TNA24D)
58290	Horn Push Button (HORNPB)

Momentary Push Button Switch

Marine plastic with rubber button and silver contacts. Can be used as a horn push button. For 9mm plate. 12V - 5A

Part No
70680

Dashboard instruments with cream, black or white dials.

Tachometer (revolution counter)

Available in 114mm diameter as 0-4000 r.p.m. version (for most diesel engines) or a 0-5000 r.p.m. version (to suit high speed engines). Dual voltage 12/24V gauges running on DC current are now the new standard. Cut out size 100mm. Overall Diameter 114mm.

Supplied with black and chrome finish bezels.

Part No	Vetus	Description
56092	TACHB4000	Black 4000 rpm tachometer
56093	TACHW4000	White 4000 rpm tachometer
56094	TACHN4000	Cream 4000 rpm tachometer
56095	TACHB5000	Black 5000 rpm tachometer
56096	TACHW5000	White 5000 rpm tachometer
56097	TACHN5000	Cream 5000 rpm tachometer

Exhaust / Gas Temperature Alarm

52mm Cut out size.

63mm Overall Diameter.

Designed for water injected engine systems. Provides a visual and an audible alarm when the temperature inside the exhaust hose or the waterlock exceeds an acceptable level.

A temperature sensor, to be fitted into the exhaust hose or the waterlock must be ordered separately. In case of a twin engine installation two sensors may be connected to one unit if required. One sensor will also operate two alarm units in the case of a second steering position.

Part No	Vetus	Description
56071	XHI12B	Black 12V Audible Alarm
56072	XHI24B	Black 24V Audible Alarm
56073	XHI12W	White 12V Audible Alarm
56074	XHI24W	White 24V Audible Alarm
56075	XHSH	Sensor to fit exhaust hose.
56076	XHSM	Sensor to fit waterlocks: MF/MV/LSG/LSS/MGS/MGL/MGP

Vetus Thermo Contact Exhaust Injection STM2006

Thermo contact 75 deg c exhaust injection bend for DT4.70 DTA4.85/M2.02 M2.04 M2.06 M2.C5 M2.D5/M3.09. This 75 degree c thermo contact is installed in the exhaust injection bend of almost all VETUS engines.

58334

Trim Gauge

52mm Cut out size

63mm Overall Diameter

For connection to the trim sensor of a stern drive or a set of trim tabs. Sensor resistance range: Trim down: 10 Ohm. Trim up: 180 Ohm. Dual voltage 12/24V

Part No	Vetus	Description
56098	TRIMB	Black Trim Gauge.
56099	TRIMN	Cream Trim Gauge.
56100	TRIMW	White Trim Gauge
56101	TRIMWR	Connection Cable

Temperature Gauge

52mm Cut out size

63mm Overall Diameter

Scale calibration: 40-120°C. and 105-250°F.

Temperature sensors are available as optional equipment.

Dual Voltage 12/24V.

Part No	Vetus	Description
56102	TEMPB	Black Temperature Gauge
56103	TEMPN	Cream Temperature Gauge
56104	TEMPW	White Temperature Gauge
56062	TEMPSR120	Single Pole Sender M14 x 1.5
56063	TEMPSR122	Double Pole Sender M14 x 1.5

TEMPSR120

TEMPSR122

Hour Counter Gauge

52mm Cut out size

63mm Overall Diameter

Analogue engine hour counter which connects to the ignition switch. Dual Voltage 12/24V.

Part No	Vetus	Description
56105	HOURCB	Black Hour Counter
56106	HOURCN	Cream Hour Counter
56107	HOURCW	White Hour Counter

Voltmeter Gauge

52mm Cut out size

63mm Overall Diameter

Dual Voltage 12/24V.

12V = 8-16 VDC

24V = 16-32 VDC

Part No	Vetus	Description
56108	VLT12B	Black 12V Voltmeter
56109	VLT24B	Black 24V Voltmeter
56110	VLT12N	Cream 12V Voltmeter
56111	VLT24N	Cream 24V Voltmeter
56112	VLT12W	White 12V Voltmeter
56113	VLT24W	White 24V Voltmeter

Waste Water Gauge

52mm Cut out size

63mm Overall Diameter

Dual Voltage 12/24V.

The waste water can be provided with an interface (EP412326). A warning light can be connected to this interface, which will indicate when the holding tank is full

Part No	Vetus	Description
56123	WASTB	Black Waste Water Gauge
56124	WASTN	Cream Waste Water Gauge
56125	WASTW	White Waste Water Gauge
56126	EP412326	Interface

EP412326

Amp Meter Gauge

52mm Cut out size

63mm Overall Diameter

Dual Voltage 12/24V.

Scale Calibration +/- 50A, 80A or 150A

Part No	Vetus	Description
56114	AMP050B	Black 50A Amp Meter
56115	AMP050N	Cream 50A Amp Meter
56116	AMP050W	White 50A Amp Meter
56117	AMP080B	Black 80A Amp Meter
56118	AMP080N	Cream 80A Amp Meter
56119	AMP080W	White 80A Amp Meter
56120	AMP150B	Black 150A Amp Meter
56121	AMP150N	Cream 150A Amp Meter
56122	AMP150W	White 150A Amp Meter

Oil Pressure Gauge

52mm Cut out size

63mm Overall Diameter

Dual Voltage 12/24V.

Scale calibration 0-8kg/cm² and 0-110 p.s.i. Oil pressure sensors are available as optional equipment.

Part No	Vetus	Description
56127	OILB	Black Oil Pressure Gauge.
56128	OILN	Cream Oil Pressure Gauge.
56129	OILW	White Oil Pressure Guague
56064	OILS	Single Pole M10 x 1K Oil Pressure Sender
56065	OILS2	Double Pole M10 x 1K Oil Pressure Sender

Fuel Gauge

52mm Cut out size

63mm Overall Diameter

Dual Voltage 12/24V.

Part No	Vetus	Description
56130	FUELB	Black Fuel Gauge
56131	FUELN	Cream Fuel Gauge
56132	FUELW	White Fuel Gauge

Fresh Water Gauge

52mm Cut out size

63mm Overall Diameter

Dual Voltage 12/24V.

Part No	Vetus	Description
56133	WATERB	Black Fresh Water Gauge
56134	WATERN	Cream Fresh Water Gauge
56135	WATERW	White Fresh Water Gauge

Rudder 63mm Indicator & Sending Unit

52mm Cut out size

63mm Overall Diameter

Dual Voltage 12/24V.

Part No	Vetus	Description
56136	RUDDB	Black Rudder Indicator
56137	RUDDN	Cream Rudder Indicator
56138	RUDDW	White Rudder Indicator
56146	RUDDS	Rudder position sending unit

Rudder 114mm Indicator & Sending Unit

100mm Cut out size

114mm Overall Diameter

Dual Voltage 12/24V.

Part No	Vetus	Description
56139	RUddb40	114mm Black Rudder Indicator
56140	RUDDN40	114mm Cream Rudder Indicator
56141	RUDDW40	114mm White Rudder Indicator
56142	RUDDSHD	Heavy Duty Rudder position sending unit

Energy consumption gauge / battery monitor

Type BATMONB

The monitor shows you the exact state of charge of a battery or battery bank. The BATMONB has several functions such as voltage, charge or discharge current, scale range of the nominal battery capacity and the time to complete discharge at the present discharge rate.

85mm Cut out size

97mm Overall Diameter

Dual Voltage 12/24V.

Part No	Vetus	Description
56143	BATMONB	Energy Consumption Gauge

Water/Fuel Float Sensor

Universal sender for fresh water, petrol/gasoline and diesel fuel. The Vetus universal tank sender indicates the difference in fluid level in steps of 2.5cm.

Empty 300Ω

Full 10Ω

12/24V

Part No	Length
56080	280mm
56081	320mm
56082	380mm
56083	480mm
56084	580mm
56085	680mm
56086	780mm

Waste Water Sensor
 Easy measurement.
 Simple to fit, reliable waste water tank sensor. The arm length is adjustable between 200mm and 412mm.

Empty 300Ω
 Full 0Ω
 12/24V

WWSENSORA

Part No
 56088

Fuel Tank Float 140/660mm
 Sender for fuel tanks.
 Sender for all rigid petrol and diesel fuel tanks with a depth between 140 and 660mm.

Both the vertical strip and the horizontal float arm are completely adjustable.

Empty 280Ω
 Full 40Ω
 12/24V

FSENSOR

Part No
 56087

The ultrasonic level sensors, SENSORA and SENSORB are contactless and will measure the fluid level in any shape of tank. They are suitable for use with: petrol, diesel fuel, fresh water, black and grey waste water. After installation, the sensor can be calibrated very easily with the aid of a LED and a calibration; no other equipment is required. The sensor may be installed in any shape of tank, regardless of its dimensions, but with a maximum depth of 120cm. Max. tank capacity 5000 litre. Model SENSORA may be connected to all standard VETUS analogue level indicators and also to the VETUS waste water control panel (WWCP). Model SENSORB has a CANbus output and may be connected to the VETUS ultrasonic level display SENSORD. SENSORA and SENSORB are not recommended for use with metal tanks.

Ultrasonic Level Sensor SENSORA

- Can be used with all standard VETUS analogue level indicators.
- 12/24V
- Current consumption: 35 mA
- Tank depth: 120mm
- Accuracy: +/- 5%
- Temperature range: -20°C - 70°C
- Flange: SAE, 5 holes
- Dimensions: ø 77 x 23mm

Part No

56090

Ultrasonic Level Sensor SENSORB

- Only works with SENSORD
- Uses a Bus interface (RS485 bus)
- 12/24V
- Current consumption: 35 mA
- Tank depth: 120mm
- Accuracy: +/- 5%
- Temperature range: -20°C - 70°C
- Flange: SAE, 5 holes
- Dimensions: ø 77 x 23mm

Part No

56091

Ultrasonic Level Display Unit SENSORD

The graphic display instrument model SENSORD can be used to show the contents of up to four different tanks on one screen. A maximum of eight tanks can be monitored with the system.

- Uses a Bus interface (RS485 bus)
- 8 - 32V
- Instrument: 125mA at 12 VDC / 63mA at 24 VDC.
- Current consumption sensor: 35mA
- Max 8 Sensors
- Number of display instruments: max 2
- Operating Temperature range: -0°C - 70°C
- IP66
- Dimensions: 110 x 110mm

Part No

56089

Vetus Gas & Carbon Monoxide Detector 12/24V

The gas detector model GD1000 offers a gas detection system for a range of combustible gases including propane, butane, methane and hydrogen. In addition it will also detect poisonous carbon monoxide.

Maximum relay contact ratings for extractor fan, gas solenoid valve and external alarm: 1A for each function.

Control panel dimensions : 85 x 85mm

Built in depth: 40mm

Sensor 35 x 26 x 62mm

Part No	Vetus	Description
55935	GD1000	12V/24V Detector + Sensor
55936	GSENSOR	Extra Sensor

Vetus Petrol & Carbon Monoxide Detector 12/24V

The gas detector PD1000 detects petrol vapour to prevent the risk of explosion in the engine room, as well as poisonous carbon monoxide (CO).

Maximum relay contact ratings for extractor fan, gas solenoid valve and external alarm: 1A for each function.

Control panel dimensions : 85 x 85mm

Built in depth: 40mm

Sensor 35 x 26 x 62mm

Part No	Vetus	Description
55937	PD1000	12V/24V Detector + Sensor
55938	PSENSOR	Extra Sensor

Waste Water Control Panel 12/24V

This easy to use control panel with security lock can be used manually or automatically to control the full tank pump out and manage the complete waste water system. The WWCP panel is connected to a VETUS level sensor (type WSENSOR or SENSORA) and indicates the content level in the tank using LED's. It will ignore brief maximum level peaks caused by boat movements.

Panel Dimensions: 85 x 85mm

Built in depth 40mm

12/24V

Usage in standby mode 4mA, electric pump 10A max, remotely controlled ball valve 5 A max and external alarm 1A max.

Valve and level sensor are not included

Part No	Vetus	Description
56215	WWCP	Waste Water Control Panel

Windscreen Wiper Control Panel 12/24V

Control panel for up to three windscreen wipers.

This panel will control up to three switched windscreen wipers synchronously and also activate a screen wash system. The wipers can be set to run at high or low speed at one of five interval wipes and will self park when they are switched off. It is possible to connect up to three rain sensors (type MARBO2) for automatic operation of the wipers.

Dual voltage 12/24V

Dimensions control panel 85 x 85mm

Control unit 159 x 90 x 58mm

Built in depth 40mm

Part No	Vetus	Description
55743	RWPANEL2	Windscreen Wiper Control Panel

Windscreen Wiper Controls

12V Screen Washer Kit

Suitable for all VETUS wiper types.

The screen washer is fed by a pressurised, portable water system. The screen washer comes with a hose, solenoid valve and switch, hose pillars, spray nozzles and skin fittings and is easy to install.

Part No	Vetus	Description
55739	HDS12B	12V Screen Washer Kit

Automatic Rain Sensor.

Activates wipers.

Dual voltage 12/24V.

Part No	Vetus	Description
55741	MARBO	Rain Sensor + Switch
55742	MARBO2	Additional Rain Sensor

WPANEL Windscreen Wiper Control Panel

This panel can control up to five wiper motors to run synchronously at high or low speed. Each wiper is individually switched, so you can select which wipers are operational. They also feature a combination switch for screen wash/wipe activation, speed selection and interval wipe delay. The wiper motors to be connected must have a two speed motor and an automatic parking position. It is optional to connect up to three MARBO rain sensors to the control unit. The rain sensor function can be activated by the supplied switch panel and can activate all two wipers simultaneously.

Type WPANEL is supplied with:

One control unit with electronic overload protection (can be DIN rail mounted).

Five wiper motor switches.

One combined switch for wash/wipe and speed selection.

One mounting plate with room for six switches and two blind plates.

Specifications:

Dual voltage 12/24V

Power consumption in stand by mode approx. 10 mA

Maximum power per wiper motor 120W.

Internal fuses 10 A each motor, 5 A for screen wash pump or solenoid valve.

Dimensions control panel 49 x 24 x 37.5mm

Control unit 159 x 90 x 58mm

Part No	Vetus	Description
55740	WPANEL	Windscreen Wiper Control Panel

HDMSW

Three Position Switch

For two speed wiper motors.

Available as rotary or rocker type switch. Suitable for two-speed wiper motors RWS, DIN and HDM. Not suitable for type ORW.

Part No	Vetus	Description
55682	HDMSW	Rotary Type 7mm max panel thickness 20Amp Max switch current
55683	HDMSW2	Rocker Type 6mm max panel thickness 20Amp Max switch current

HDMSW2

Wiper Motors Din Tapered Type + Blades

Wiper Motor with Din Tapered Ends

These high quality marine windscreen wipers feature a powerful electric motor and separate worm wheel transmission. The wiping angle may be adjusted to 8 different settings, which means that the ideal wiping pattern can be found for almost any shape and size of window. This new version is supplied with a tapered and knurled shaft end. This feature provides a stronger connection between the wiper arm and the motor drive shaft, resulting in a longer life span for both parts.

55707	473 - 559mm	DINSX

Stainless 316 Parallel Wiper Arm Set

These arms are made entirely from high-gloss polished stainless steel (AISI 316). Not only are they very strong and durable, but in combination with VETUS polished wiper blades, they will enhance the appearance of any boat.

Part No	Description	Vetus
55703	386 with Din Taper	DINSDX
55704	308 with Din Taper	DINSD

Wiper Motors RW Parallel Type

Wiper Motor with Long or Short Spindles

These high quality marine windscreen wipers feature a powerful electric motor and separate worm wheel transmission. The wiping angle may be adjusted to 8 different settings, which means that the ideal wiping pattern can be found for almost any shape and size of window. Features industry standard straight knurled shaft end (Ø16 mm, 72 teeth) for arm attachment. Can be used with single or pantograph arms.

56295	500watt 230VDC	WHEL22500
56293	1000watt 230VDC	WHEL220
56296	1000watt 120VDC	WHEL110
56294	1500watt 230VDC	WHEL1500

Vetus 12V or 24V Heavy Duty Wiper Motor

The Vetus HDMC wiper motor is a high quality, heavy duty unit for larger windscreens. The wiping angle of this wiper is fully adjustable between 62° and 92°, by virtue of which the optimum wiping surface may be determined for each specific window size. All components of these wipers are made of corrosion-proof materials, thus ensuring long-life and trouble-free service. Specification: Extremely quiet .Voltage 12v D.C. . Power: 75 Watt . Thermal cut-out protected . Wiping angle fully adjustable between 62° and 92° . Self-parking on either side .Two-speed .Suited for panel thickness of up to 70 mm . Weight without arm and blade: 2.5 kg. VETUS windscreen wiper model HDMC is interchangeable with previous models HDM, HDMA and HDMB. The wiper arms (SHDA) which fit the HDMC wiper motors, are supplied as standard in stainless steel (AISI 316). They are available in lengths of 508 or 762 mm. The matching wiper blade (model WB) has a length of 660 mm.

55726	12V Motor	HDM12DL
55727	24V Motor	HDM24DL

Whip Antenna - low windage and ideal for sailing boats.

90cm

YWX WHIPFLEX™
 Stainless steel whip VHF antenna for sail boats.
 Unique solderless watertight masthead connector system for easy installation and dismantling.
 Lightweight - 0.15 kilo with bracket
 Includes 180mm cranked masthead nylon mounting bracket

Part No: 71005	
Cable Included	20m RG58
Connector Included	PL-259 Connector
Antenna Length	0.9m (3ft)
Gain	3 dB
Suitable for: Sailing Boat & Ribs	

90cm

YHK HAWK™
 Stainless steel whip VHF antenna with 'Hawk' windex for sail boats.
 Unique solderless watertight masthead connector system for easy installation and dismantling.
 Lightweight - 0.15 kilo with bracket.
 Includes 180mm flat masthead nylon mounting bracket.

Part No: 71000	
Cable Included	20m RG58
Connector Included	PL-259 Connector
Antenna Length	0.9m (3ft)
Gain	3 dB
Suitable for: Sailing Boat	

90cm

5247-A LIFT 'N' LAY
 Heavy-duty stainless steel whip 'lift and lay' VHF antenna.
 Ideal for sports fishing boats and smaller power boats.
 Simple to set up and lay down, ensuring the antenna does not obstruct when fishing or storing the boat.
 Sealed, tin-plated copper wire coil.
 Stainless steel "L" bracket supplied.

Part No: 71453	
Cable Included	X
Connector Included	SO-239 (UHF) in Base
Antenna Length	0.9m (3ft)
Gain	3 dB
Suitable for: Ribs, Motor Boats & Fishing Boats.	

90cm

5250 SKINNY MINI™
 Compact, lightweight, stainless steel whip VHF antenna.
 Ideal for small power boats.
 Sealed, tin-plated copper wire coil.
 Requires a mount with centre hole for cable.
 Suggested mounts: 4187, 5187, 4188-S or 4190
 Chromed brass ferrule.

Part No: 71455	
Cable Included	4.5m RG58
Connector Included	PL-259 PLUG
Antenna Length	0.9m (3ft)
Gain	3 dB
Suitable for: Ribs & Motor Boats	

90cm

5216
 Lightweight, black stainless steel VHF antenna for short range communications
 Ideal for sports sailing boats
 Gold plated connector
 'L' bracket for mast top mounting

Part No: 71454	
Cable Included	X
Connector Included	Gold Plated Connector
Antenna Length	0.3m (1ft)
Gain	1 dB
Suitable for: Sailing Boats	

Hawk Wind Indicator Kit

90cm Spare Antennas	
Antennas include connector

MD20
Rugged Stainless Steel Whip Antenna.
Stainless steel whip.
Lightweight (0.2kg).
Low windage.
180mm cranked nylon bracket for masthead mounting.
Watertight, strong construction.

Part No: **71025**

Cable Included	20m RG58
Connector Included	PL-259 PLUG
Antenna Length	0.9m (3ft)
Gain	3 dB

Suitable for: Sailing Boats, Ribs, Motor Boats & Fishing Boats

MD20N
Rugged Stainless Steel Whip Antenna.
Stainless steel whip.
Lightweight.
Low windage.
200mm braced aluminium bracket for masthead mounting.
Watertight, strong construction.

Fitted with integral 'N' jack to allow detachable cable.

Part No: **71030**

Cable Included	X
Connector Included	N Type Jack
Antenna Length	0.9m (3ft)
Gain	3 dB

Suitable for: Sailing Boats, Ribs, Motor Boats & Fishing Boats

5215 SQUATTY BODY®
Stainless steel whip VHF antenna for sail boats.
Lightweight and low profile.
Removable whip.
Sealed, tin-plated copper wire coil.

Part No: **71452**

Cable Included	X
Connector Included	SO-239 (UHF) in Base
Antenna Length	0.9m (3ft)
Gain	3 dB

Suitable for: Sailing Boat

Short Range, low profile, Helical VHF Antennas

90cm

5241-R

Heavy duty stainless steel whip VHF antenna.

Ideal for fast sports boats, RIBs and small fishing boats.

Whip is user replaceable.

Requires a mount with centre hole for cable.

Chromed brass ferrule.

Part No: **71456**

Cable Included	4.5m RG58
Connector Included	PL-259 PLUG
Antenna Length	0.9m (3ft)
Gain	3 dB

Suitable for: Ribs & Motor Boats

15cm

HA156C HELIFLEX

Lightweight, low windage, compact helical VHF antenna for short range communications.

A favourite for racing yachts and sports boats.

Integral aluminium masthead mounting bracket.

Part No: **71010**

Cable Included	20m RG58
Connector Included	PL-259 Connector
Antenna Length	0.15m (0.5ft)
Gain	1 dB

Suitable for: Sailing Boat, Ribs & Motor Boats

Dorsal VHF Antenna

The new Shakespeare Dorsal antenna range was designed specifically for greater effectiveness in short range applications. The sealed ABS body ensures a longer life within harsh environments. Suitable for up to 10 miles range.

Part No: **71465**

Cable Included	8m RG58
Connector Included	PL-259 Connector
Antenna Length	4"
Gain	0dB

Suitable for: Sailing Boat, Ribs & Motor Boats

48cm

YRR RIB RAIDER™

Designed specifically for RIBs.

Short helical design to avoid snagging and excessive whip action.

Solderless connector system.

Integral black bracket with mounting holes.

Part No: **71145**

Cable Included	6m RG58
Connector Included	PL-259 PLUG
Antenna Length	0.48m (1.6ft)
Gain	3 dB

Suitable for: Ribs

18cm

5912 RUBBER DUCK

Lightweight, low windage, compact helical VHF antenna for short range communications.

Ideal for emergency or temporary installations and particularly suitable for cabin or console tops.

Attaches and detaches with ease using supplied flush mounting kit.

Part No: **71451**

Cable Included	X
Connector Included	Gold Plated Connectors
Antenna Length	0.18m (0.6ft)
Gain	1 dB

Suitable for: Sailing Boat, Ribs & Motor Boats

Speakers

White Galaxy AIS Antenna 5396 1.2m

Cruise with confidence and communicate reliably over the AIS band using the Galaxy® AIS antennas. Specifically designed and tuned to work with all popular AIS transceivers, this antenna features a commercial-grade fiberglass construction to ensure performance and durability. These benefits combined with the great look of our Galaxy® high-gloss white finish signifies a standard of quality to be admired. Thick brass and copper elements provide greater range, clarity, and efficiency. Stainless steel ferrule prevents rust. 20' RG-8/X low-loss cable plus a solder free screw-on PL-259 connector included for easy installation. High-gloss polyurethane finish prevents yellowing. Antennas come in a single section with a built-in DC connection. VSWR of <math><1.5:1</math> at 162 MHz. 5-year warranty.

Part No: 71176

**WS200-P**

Weatherproof Deck Watch Loud Speaker.

Can be surface or flush mounted.

UV Resistant ABS construction.

Can be used on 4 or 8 ohm systems.

Overall diameter 14cm depth 5cm.

Hole diameter of 11.6cm for flush mounting.

Output 5 watts Impedance 8 ohms.

Weight 0.3 kilo

Blister packed

Part No: 71185

**HS-5**

External Horn Speaker.

12.7cm white plastic horn speaker.

4 ohm speaker, 15 watts (RMS) input.

Part No: 71478

**ES-2**

6cm external speaker with Mylar cone in a compact white housing.

4 ohm speaker, 5 watts (RMS) input.

Ratchet action mounting bracket.

1.8m cable and 3.5mm phono plug.

Part No: 71479

**ES-4**

10cm deluxe speaker with Mylar cone in white plastic case for protection against moisture.

4 ohm speaker, 8 watts (RMS) input.

Swivel mounting bracket.

1.8m cable with 3.5mm phono plug.

Part No: 71480

**4357-S**

VHF to AM/FM converter.

For use with VHF antennas where a separate AM/FM antenna is not practical.

Ideal for sail boat applications.

Does not affect or interfere with the VHF performance.

3m RG-62 cable with Motorola plug (attached) plus 0.9m RG-58 cable for connection to VHF.

Part No: 71080

ACC108 Thru Deck Gland

Thru deck gland for RG-58 and RG-213 cable complete with stainless steel screws.

Blister packed

Part No	71200
---------	-------

RG58 COAXIAL CABLE

8 and 20m packs include solderless cable termination and UHF (PL259) plug.

Description	Part No
8m RG58 with connectors	71430
20m RG58 with connectors	71435
100m RG58 only	71440

6187 S/STEEL LOW PROFILE RATCHET MOUNT

A deck ratchet mount 1"-14tp male from Shakespeare saves boaters time, money and space on board. Through its clever design, this low profile stainless steel mount allows the user to lower, twist, or remove the antenna without the need for additional tools.

Part No: 71086

3187 S/STEEL RATCHET MOUNT

The 3187 stainless steel ratchet mount is a versatile, free-standing mount with a four-way ratchet design. It can be used for mounting to vertical or horizontal surfaces (deck or bulkhead) and adjust to a slanted surface. Standard 1" - 14 threads.

Part No: 71085

4186 NYLON RATCHET MOUNT

4 way swivel mount.

For deck or side mounting.

Quick release lever allows antenna fold-down.

Made from UV resistant white nylon.

Not for use with antennas longer than 2.4m.

Part No: 71090

5187 S/STEEL RATCHET MOUNT

Nutless, streamlined design.

4 way swivel mounting.

Quick release lever allows antenna fold-down.

Highly polished finish.

Suitable for all powerboat antennas.

Part No: 71095

4710 S/STEEL 25MM FLANGE MOUNT

Heavy duty 25mm (1") high mount.

70mm (2 3/4") diameter base.

Ideal for GPS, marine TV and fibreglass antennas up to 1.5m long.

Part No: 71125

4711 NYLON 25MM FLANGE MOUNT

White nylon 25mm (1") high mount.

70mm (2 3/4") diameter base.

Suitable for moderate duty applications.

Part No: 71130

4365 S/STEEL 110MM FLANGE MOUNT

Sturdy, 100mm (4") high mount .

75mm (3") base.

Ideal for fitting to radar arches.

Excellent for GPS and marine TV antennas.

Part No: 71120

4190 RAIL RATCHET MOUNT

Ratchet action for antenna fold down.

Easy installation on 22mm (7/8") and 25mm (1") vertical or horizontal rails.

Not for use with antennas longer than 2.4m.

Part No: 71100

4722 NYLON RAIL MOUNT

Fits 22mm (7/8") and 25mm (1") horizontal rails.

Incorporates slot for cable.

Complete with adaptor, rubber gasket and hexagon key.

Ideal for GPS antennas.

Made from durable white nylon.

Part No: 71115

4721 NYLON RAIL MOUNT

Ratchet action for antenna fold down.

Easy installation on 22mm (7/8") and 25mm (1") vertical or horizontal rails.

Complete with rubber gasket.

Made from durable, white nylon.

Part No: 71105

4720 S/STEEL RAIL MOUNT

Clever design allows a neat fit to 22mm (7/8"), 25mm (1") and 32mm (1 1/4") square or round rails.

For vertical or horizontal rails.

Can also be mounted on flat surfaces.

Complete with nylon adaptors.

Part No: 71110

Shakespeare TV & Cellular Antennas

**SA-HDTV-MAR8 AnyWhere Marine HDTV 8"**

203H x 110W mm (8" x 4.3") Omni Directional HDTV antenna (with built-in LTE filter).

Newly designed using the latest TV technologies.

Compact, lightweight, weatherproof HDTV antenna. Comes with built in high gain, low noise amplifier and LTE filter. Ideal for small power boats and sail boats.

Includes amplifier gain control unit.

10m 75 Ohm RG59 cable with 2 x F connectors + IEC to F connector.

1.5m adapt cable fitted with F plug to IEC •Power 12/24V DC - AC/DC power adaptor (UK/EURO) included.

Receiving range FM/VHF/UHF (VHF:87-230MHz UHF: 470-862).

Gain: 30dB / Noise figure: 3dB.

Max. output level: 110 dBµV / Impedance: 75Ω.

Outputs: x 2 TV's.

Fits to standard 1"-14 threaded mount.

Part No 71474

**Omni Directional HDTV antenna (with built-in LTE filter)**

Newly designed using the latest TV technologies.

Compact, lightweight, white ASA, weatherproof HDTV antenna. Comes with built in high gain, low noise amplifier and LTE filter. Ideal for small power boats and sail boats.

Includes amplifier gain control unit.

25m 75 Ohm RG59 cable with 2 x F connectors + IEC to F connector.

1.5m adapt cable fitted with F plug to IEC.

Power 12/24V DC - AC/DC power adaptor (UK/EURO) included.

Receiving range FM/VHF/UHF (VHF:87-230MHz UHF: 470-862).

Gain: 30dB / Noise figure: 3dB.

Max. output level: 110 dBµV / Impedance: 75Ω.

Outputs: x 2 TV's.

Fits to 1"-14 threaded mount.

71476	SA-HDTV-MAR14 AnyWhere Marine HDTV 14'

**9.25" (.23m) World Band Cellular Antenna**

The Galaxy 5239 antenna is our smallest Galaxy antenna, but don't let the size fool you. This World-band antenna provides coverage for 2G/3G/4G and WLAN systems for Cellular, PCS, AWS and LTE frequencies, as well as 802.11n Wi-Fi. This compact, feature rich antenna is at home on virtually any watercraft, and is fitted with a stainless steel ferrule and N-connector that are compatible with nearly all Shakespeare 1" -14 threaded mounts.

Full Band (698 – 2700 MHz) Broadband

2G/3G/4G and WLAN systems

Wi-Fi 802.11n compatible

Designed for marine use

Omni-directional antenna 3-4 dB Gain

Easy to install

Part No: 71477

Cutlass Bearings

Precision ground inside and outside. Large range of sizes kept in stock. Nitrile Liner. Outstanding abrasion resistance. Excellent for water lubrication. Good noise damping. More tolerant of misalignment. Allow greater deflection
Shell- Brass Shell (standard naval brass)- tough and durable

Short Type

Part No	Description	Inner Diameter Inches	Outer Diameter mm	Length mm
96651	Brass Shell	1"	34	60

A lightweight paper wound Phenolic resin shell avoids the problem of galvanic corrosion and is suitable for metal stern tubes. These bearings do not possess the structural stability of metals and have a shorter operational life. They swell slightly when immersed in water and are therefore machined to tolerances to accommodate this.

prop protector

INSTALL SOME PEACE OF MIND, FIT A PROP PROTECTOR

Suitable for commercial and leisure vessels.

Part No	Description
91590	Slide On 25mm
91591	Clamp On 25mm
91592	Slide On 30mm
91593	Clamp On 30mm

91599	Slide On 1 1/2"
91601	Clamp On 1 1/2"
91600	Clamp On 1 5/8"

The Prop Protector is a simple shaft driven rope cutter, rotating with the shaft and instantly cutting any rope, weed or debris picked up or snagged by the propeller. Manufactured from high grade (316) Stainless Steel, the Prop Protector is easy to install - fully installed in minutes - with your boat out of the water or between tides. The clamp-on version can even be fitted by a diver if underwater installation is required. The **Prop Protector** sits on the shaft, between the propeller hub and the stern bearing, waiting to cut anything that threatens to entangle it. There are no moving parts to fail - just a razor sharp marine grade stainless steel blade - ready to slice through most marine debris. Available to suit shaft sizes 20mm (3/4 in) to 130mm (5 in). Prop Protectors can be fitted to a wide range of boats (yachts, motor cruisers, fishing vessels, barges etc), and are available in two models, the Clamp-On & the Slide-On.

Manufactured from high grade (BS970-316) Stainless Steel.

Vetus ZWBH25 Self Aligning Inner Bearing

ZWBH seals are developed for use with water-lubricated stern gear. This updated monoblock design works in the same way as the trusted ZWB seals, with the addition of one extra lip seal (three in total) for added security. With minimal friction, oil- and grease- resistant and featuring a 10mm vulcanised hose pillar for water injection, the ZWBH is always ready for another round! VETUS advises annual lubrication with silicon grease to keep this sterngear seal in optimal condition. ZWBH seals can withstand temperatures between -15° and + 85° and are suitable for VETUS bronze, steel or GRP stern tubes. The set comes with two stainless steel hose clamps and grease.

Part No	57820
---------	-------

Rope Cutter

Designed to stop ropes jamming between the cutlass bearing and the propeller. The Vetus rope cutter (VRC) is a circular AISI Type 316 stainless steel saw blade positioned behind the propeller. It is made up 2 parts and is suitable for 25mm or 30mm propeller shafts. Includes both halves of the disc and nuts and bolts.

Part No	Vetus	Description
57660	VRC25	25mm Shaft (115 x 25mm Main Dimensions)
57661	VRC30	30mm Shaft (115 x 30mm Main Dimensions)

Stern Gland Packing

Quality yarn impregnated with petroleum jelly and coated with flake graphite.

Sold in 1m cut lengths. The maximum complete length of any one size 8m.

	Part No
Size	1 Metre
1/4" (6mm)	91740
5/16" (8mm)	91741
3/8" (10mm)	91742

Grease

Stern Gland Lubricator

Brass lubricator for stern tubes, rudder bearings etc. Bulkhead or floor mounted.

Capacity: 150ml, Outlet 1/8" BSP.

An accessory kit is also available which contains 2 X 1/8" BSP connectors, 1 X 1/4" BSP connector and 3m of nylon hose.

Part No	Description
91745	Brass Lubricator
91746	Accessory Kit (Tubing & Connectors)

Morris K99 Stern Tube Grease - 500grams

This grease has outstanding water resistant qualities and is designed to form a special seal at the water interface. This grade is a high quality lead-free calcium hydroxide stearate grease with special additives to provide extreme pressure properties, improve oxidation resistance and protect against rust and corrosion. Recommended for grease filled stern tubes. Also suitable for plain and anti-friction bearings operating in very wet conditions.

Part No

91730

Aqua Slip Grease - 500grams

Carlupe Aqua Slip Grease provides high resistance to salt water corrosion and water washout in addition to allowing good shear stability over a wide temperature range. It is suitable for a wide range of marine applications including, trailer wheel bearings, stern tubes/propeller shafts, cables and pulleys etc.

Part No

63076

MPG - 500grams

Universal Marine Grease

MPG is a multi-purpose lithium based grease containing zinc oxide additive to repel moisture making it particularly suitable for use in marine outboard and inboard engines. Also ideal for use in boat trailer hubs and stern tubes.

Part No

91761

Description

MPG Grease 500grm

Vetus Single Lever Surface Mounted Remote Control AISI 316 RCEX

Single lever engine control. High-gloss polished stainless steel (AISI 316) surface mount box and lever. The box can be mounted horizontally or vertically.

Part No

57100

Mechanical engine remote controls

All remote controls (except type AFST) have a neutral safety switch as standard, which prevents the engine from being started when the gearbox is engaged. Controls which are shown with a red knob are also supplied with a black knob as standard.

With stainless steel (AISI 316) handle and housing. Vetus single lever remote control for side mounting. The push-pull cables can be installed horizontally or vertically.

Part No	Vetus	Length (mm)	Width (mm)	Height (mm)	Handle length from centre (mm)	Mechanism depth from centre (mm)
57098	SISCO	142	122	85	200	243

57113	AFSTTOP	154	118	238

Type AFSTZIJ

This side mount engine control can be used with mechanically controlled engines from 12 - 110 hp. The AFSTZIJ should be mounted in reach of the vessel's helm on either port or starboard side.

The mechanical part of the lever is made of painted zinc, finished with a synthetic housing and an ergonomically shaped rubber grip. The AFSTZIJ works with 33c Edge Control Cables and features an integrated safety mechanism to protect the transmission. The gearbox can only be shifted at idling speed. The AFTZIJ is the ideal engine control for sailing boats.

Ultraflex B183 Single Lever Control Box

Single lever / dual action control to operate both throttle and shift.

Suitable for any type of boats with outboard- inboard or I/O power plants.

The lever assembly is made of painted marine aluminium.

Compatible with 33c cables.

Part No	Description
49020	Ultraflex B183 Single Lever Control

Ultraflex B85 Single Lever Control Box

The Ultraflex B85 is a single lever / dual action control to operate both throttle and shift. Suitable for any type of boat with outboard, inboard or I/O engines.

Features on the B85 enable easy and safe shifting by preventing accidental gear engagement unless engine is idling and can be installed horizontally or vertically, on either the starboard or port side of the boat.

The lever assembly is made of painted marine aluminium.

Compatible with 33c cables.

Part No	Description
49021	Ultraflex B85 Single Lever Control

Throttle Control Accessories

Shut-Off Control

Type DC

Type DC is corrosion resistant and easy to install (horizontally or vertically) and can be pushed with 33c control cables. Comes with a 30° mounting bracket.

Part No	Vetus	Description
57122	DC	Cable pull handle type DC

DS-Kit Throttle

Combines the action of the single lever control from either of two command stations and provides a single output to the engine throttle lever. (Only suitable for throttle control by pulling).

Part No	Vetus	Description
57121	DSKITF	Dual Station Kit for Throttle

DS-Unit Gearbox

Combines the action of the single lever control from either of two command stations and provides a single output to the gearbox lever.

BUILT TO LAST

33C EDGE Series Throttle Control Cable

Premium Quality - Ultra flexible Spiral Construction

The Ultimate High Performance 33c type cable.

Capable of extremely tight radius bends and complex cable runs, with no loss of performance or increased friction. Ideal for RIB and dual station cable installations - time-saving and guaranteed smooth performance. Suitable for inboard, outdrive and outboard installations.

Spiral Conduit - enables repeated tight bends.

Unique cable length ID tag for easy reference.

Comparable to - Teleflex Xtreme and Ultra-Flex Mach Zero.

Direct replacement for any 33c type cable.

Conduit: 8.6mm Blue Ribbed design

Inner: 2.75mm Coated Inner

End Thread : 10-32 UNF

Cable bend radius (4" Minimum)

55044	BPA	Adapter plate to replace the old BPS/BPJ panels with the new BPSE2/BPJE2 panels.						

Engine Mounts

Type K25V and K35V

For small engines and generator sets with 1 or 2 cylinders

These flexible mountings contain a special rubber compound with excellent vibration damping properties. They are suitable for marine engines in the power range between 4 and 15 kW (6-20 hp).

Flexible Engine Mounting Type		
Part No	Vetus No	Description
57337	KSTEUN25V	Max Load 25KG
57338	KSTEUN35V	Max Load 30KG

**KSTEUN40A**

Flexible Engine Mounting Type

Part No	Vetus	Description
57339	KSTEUN40A	Max Load 40KG

**KSTEUN50V KSTEUN75V KSTEUN100V****MITSTEUN**

Hydraulic Engine Mounting Type

Part No	Vetus	Description
57345	MITSTEUN	Max Load 67KG

**HY100 HY150 HY230****LMX140 LMX210 LMX340 LMX500**

Flexible Engine Mounting Type

Part No	Vetus	Description
57347	LMX140	Max Load 140KG
57348	LMX210	Max Load 210KG
57349	LMX340	Max Load 340KG
57350	LMX500	Max Load 500KG

Type K40A**For 3-cylinder marine diesel engines**

Type K40 has a relatively soft, rubber compound which fulfils the requirements of light-weight vessels with a modern 3-cylinder marine diesel engine. The rubber elements create an optimum in vibration dampening. Type KSTEUN40 features internal buffers which limit the engine movements when started or stopped. It is also secured against overload and shearing off.

Type K50V K75V K100V**For smaller engines up to ± 60 kW (80 hp)**

This type is suitable for smaller engines up to approximately 60 kW (80 hp).

Flexible Engine Mounting Type

Part No	Vetus	Description
57341	KSTEUN50V	Max Load 50KG
57342	KSTEUN75V	Max Load 75KG
57343	KSTEUN100V	Max Load 100KG

Type MITSTEUN**For marine diesel engines from 18 up to 26 kW (25-35 hp)**

This hydro-damper is a combination of a conventional rubber-metal damper and a hydraulic shock absorber. Its reduction of vibration and noise is truly amazing. The maximum static load per support is 60 kg and the maximum thrust is 50kg.

Type HY**For heavy-weight engines with 4 or more cylinders**

This type is extremely suitable for application with marine diesel engines in the power range between 30 and 125 kW (40-170 hp), by virtue of a low stiffness combined with high stiffness in the longitudinal direction.

Flexible Engine Mounting Type

Part No	Vetus	Description
57352	HY100	Max Load 100KG
57353	HY150	Max Load 150KG
57354	HY230	Max Load 230KG

Type LMX**For marine diesel engines with 70 up to 350 kW (95-480 hp)**

This type has been designed with particular regard to the power to weight ratio of modern diesel engines. The weight of an engine, in comparison to its thrust, has become lower and lower. Type LMX guarantees optimum damping of vibrations, even at idling revs. It has a very high horizontal and aft stiffness which allows the acceptance of considerable thrust. The cushioning of vibrations in horizontal direction athwart-ships is of equal excellence.

Sound Insulation

V Glass Sound Insulation

High quality, professional standard sound insulation with a layer of sound deadening.

60.5cm x 91cm

Premium quality insulation at a great price. Available in 3 sizes.

Part No	Thickness
59900	50mm V Glass Silver
59901	32mm V Glass Silver
59899	18mm V Glass Silver

Maritex Sound Insulation Tape

Suitable for use with V Glass Sound Insulation, a tough fibreglass cloth, with a sealed metallised skin, so it cannot absorb oil. Heavy duty in appearance and fire zero rated, the insulation will not tear or fray.

Part No	Description
59902	50mm x 20M

Sound Deadening Sheet PU130S

Sound deadening sheets type PU130S are ideal for smaller engine installations and have excellent noise and vibration reducing qualities.

Part No
57880

Sonitech Light

Efficient Sound Insulation. A flexible, cost effective 20mm fire retardant sound insulation sheet with a reinforced aluminium foil facing and self adhesive backing. Use when cost or space is the prime concern.

Sheet Size: 1000 x 600mm

Part No	Vetus	Face + Thickness
58335	ST020A	Aluminium 20mm
58336	ST040A	Aluminium 40mm

Sonitech Single

Good Sound Insulation. A step up from the light version, which includes a single damping layer resulting in better sound insulation capabilities. Available in 35 or 45 mm thick sheets and with reinforced aluminium foil or white glass cloth facing. With self-adhesive backing.

Sheet Size: 1000 x 600mm

Part No	Vetus	Face + Thickness
58337	ST135A	Aluminium 35mm
58338	ST145A	Aluminium 45mm
58339	ST135W	White 35mm
58340	ST145W	White 45mm

Prometech Single

Excellent Sound Insulation & Safety. Vetus Prometech Sound Insulation Sheet - full 35mm version for high performance with both high and low frequency engine noise. Fibre reinforced aluminium facing, for durability and radiant heat reflection. Self adhesive backing for simple fitting.

Sheet Size: 1000 x 600mm

Part No	Vetus	Face + Thickness
58341	PT112A	Aluminium 12mm
58342	PT135A	Aluminium 35mm
58343	PT145A	Aluminium 45mm
58344	PT112W	White 12mm
58345	PT135W	White 35mm
58346	PT145W	White 45mm

Prometech Double

Ultimate Sound Insulation & Safety Vetus Prometech Sound Insulation Sheet - ultimate 45mm version for high performance with both high and low frequency engine noise. Flexible Silver glass cloth facing, for extreme strength, durability and a high tech appearance to your engine room. Self adhesive backing for simple fitting.

Sheet Size: 1000 x 600mm

Part No	Vetus	Thickness
58347	PT225S	25mm Silver
58348	PT245S	45mm Silver
58349	PT260S	60mm Silver
58350	PT225W	25mm White
58351	PT245W	45mm White
58352	PT260W	60mm White

Sound Insulation Tape

Self-adhesive tape three colours.

50mm x 30m

Part No	Description
57887	Aluminium (TAPEA30)
57888	Grey (TAPEG30)
57889	White (TAPEW30)

Sound Insulation Fixing Plates

Diameter: 50mm. Pack of 15, screws not supplied.

Part No	Description
57890	Pack of 15 (FIXP)

Ventilation

Type UFO

High gloss polished S/S UFO can't be closed, which ensures permanent ventilation. Incl. mosquito screen and interior finishing ring. Rain/splash proof.

Free Flow Area 31,8 CM²

AISI 316

Part No	Description
56785	200mm UFO Vent

Type UFOTR

High gloss polished S/S UFOTR can't be closed, which ensures permanent ventilation. Incl. mosquito screen and interior finishing ring. Rain/splash proof. Transparent centre.

Free Flow Area 31,8 CM²

AISI 316

Part No	Description
56786	200mm Transparent UFOTR

Type UFO2

UFO2 high gloss polished deck ventilator with integral mushroom ventilator can be made watertight. When opened it ensures ventilation. Rain/splash proof.

Free Flow Area 30 CM²

AISI 316

Part No	Description
56788	200mm Closable UFO2

Type PORTOS1

Stainless steel (AISI 316) mushroom ventilator, polished high-gloss, including mosquito screen and synthetic counterflange. Free flow area 30 cm².

Part No	Description
56797	PORTOS1 117mm

Type ATHOS1

Stainless steel (AISI 316) mushroom ventilator, polished high-gloss, including mosquito screen and synthetic counterflange. Free flow area 45 cm².

Part No	Description
56798	ATHOS1 152MM

Type DARTAGNAN1

Stainless steel (AISI 316) mushroom ventilator, polished high-gloss, including mosquito screen and synthetic counterflange. Free flow area 76 cm².

Part No	Description
56799	DARTAGNAN1 185MM

Electric Ventilators.

Designed especially for boats. Suitable for installation to ceiling or wall. With long-life computer motor. Very low energy consumption and noise level.

Capacity 70 m³/hour

Static Pressure 5 mm H₂O

Part No	Description	Vetus
56792	12 Volt	FAN12
56793	24 Volt	FAN24

Vetus M8 x 40mm Star Knob (KNOP0840)

Part No
56800

Shell Vents
Stamped stainless steel shell (midget) vent. 304 ss.

Part No	Description
76196	41mm x 41mm
76198	57mm x 54mm
76200	25mm height x 90mm width x 93mm length

SolarVent
The latest venting system using solar power. Fitted with mirror polished stainless steel vent diffuser. ON-OFF switch. Equipped with NiMH rechargeable batteries which store energy during the day, ensuring 30 hours of operation without solar light. Equipped with 2 RIGHT/LEFT fans to let air in or out.

Cap Ø mm 217
Practice hole mm 119
External/internal overhang mm 71
Air circulation m3/hour 20

UFO Style Roof Vent
Highly polished Stainless Steel (304). Mounting ring and nipple supplied. Stainless Steel top - height above deck 30mm - cutout 73mm

Part No	Description
96553	UFO Style Roof Vent

Part No	Description
96326	Automatic Solar Vent 217mm

Type TYP75 Shell Ventilator
The outer cover is made of high-gloss polished stainless steel (AISI 316), all other parts of synthetic materials. The unit is suitable for horizontal or vertical use.

Free Flow Area CM² 30
Hose Connection Diameter 75MM

Part No	Description
56817	TYP75

Type TYP100 Shell Ventilator
The outer cover is made of high-gloss polished stainless steel (AISI 316), all other parts of synthetic materials. The unit is suitable for horizontal or vertical use.

Free Flow Area CM² 41
Hose Connection Diameter 100MM

Part No	Description
56818	TYP100

Type SCIROCCO
The SCIROCCO can be screwed directly on to hull or superstructure horizontally/vertically. Incl. plastic base plate, water guard, 76 mm hose connection.

Free Flow Area CM² 38.5
Hose Connection Diameter 76mm

Part No	Description
56820	SCIROCCO

Rule In-Line Blowers

Designed for efficient, high output operation, these blowers feature our exclusive front and rear shaft seals and corrosion resistant motor housings for long life. Compact and easily installed on any flat surface, Rule® in-line blowers provide higher air flow, lower amp draw, and quieter operation than standard blowers.

Part No	Description	Dimensions	Fuse Size	Output
75140	12V - 75mm	130 L x 95 H x 125mm Wide	4 Amp	3.8 cu.m/minute
75141	24V - 75mm	130 L x 95 H x 125mm Wide	2.5 Amp	3.8 cu.m/minute
75142	12V - 100mm	130 L x 120 H x 150mm Wide	7 Amp	6.7 cu.m/minute
75143	24V - 100mm	130 L x 120 H x 150mm Wide	4 Amp	6.7 cu.m/minute

Vetus In-Line Blowers

The purpose of these ignition protected (IP67) extraction ventilators is to extract the heat from the engine room when the engine is not running or, when a petrol/gasoline engine is installed, to extract any possible petrol/gasoline fumes prior to starting the engine(s).

Part No	Description	Dimensions	Voltage (DC) AMP	Capacity (m ³ /min)
57332	TWINLINEA 76mm 12V	128 L x 88.5 H x 76mm Wide	2.8 Amp	5
57328	TWINLINEC 76mm 24V	128 L x 88.5 H x 76mm Wide	1.6 Amp	5
57333	TWINLINEB 102mm 12V	180 L x 116 H x 101.6mm Wide	8 Amp	7
57329	TWINLINED 102mm 24V	180 L x 116 H x 101.6mm Wide	5 Amp	7

Extraction Ventilators

Suitable for bulkhead mounting and receiving air ducting hose. This extraction ventilator is ignition protected (IP67) and complies with the ISO 9097 Marine Standard.

12V = 6 Amps / 12,2m³

24V = 3 Amps/ 12.5m³

Part No	Vetus	Description	Voltage	ID Hose mm
57330	VENT17812A	Extraction ventilator	12V	178
57331	VENT17824A	Extraction ventilator	24V	178

Connection Flange

Spare in-line hose connection flanges for VENT76A and VENT102.

Part No	Vetus	A	B	C	D	E	Ø F	Ø G

Hella 12V Turbo Fan

188mm

Integrated 2 stage rotary switch. Output :
Speed 1: 70Litre/sec. Speed 2: 95Litre/sec.
Power consumption 6.5w. Pre-wired with 1.4m of cable.

Part No	69802 (Black)
Part No	69803 (White)

Ventilation Hose

For shell and extraction ventilators.

Type BLHOSE is made from PVC coated glassfibre with a steel spiral. Temperature resistant between -20° and + 100°C. Sold in 10m lengths.

Part No	Vetus	Internal Ø mm	External Ø mm	Bending Radius	Roll Length
56399	BLHOSE310A	79	85	47	10M
56400	BLHOSE410A	102	108	61	10M

Flexible Ventilation Hose

Very flexible suction or pressure hose.

Flexible TPE ducting hose with steel spiral. Temperature resistant between -30° and + 140°C. Sold in 10m lengths.

Part No	Vetus	Internal Ø mm	External Ø mm	Bending Radius	Roll Length
56401	VHOSE152	152	158	150	10M
56402	VHOSE178	180	186	180	10M

Ventilation Hose

Ducting blower hose sold in 6m lengths

Part No	Description
89940	76mm x 6M
89941	102mm x 6M

Stainless Steel Breather Nipple

The breathing capacity fulfils the CE requirements. Provided with an easily cleaned stainless steel (AISI 316) gauze, which functions as a flame arrester.

Part No	Size	Part No	Size
56448	16mm straight (AB16S)	56452	19mm angled (AB19B)
56449	16mm angled (AB16B)	56453	25mm angled (AB25B)
56450	19mm straight (AB19S)	56454	38mm angled (AB38B)

Tank Vents

Chrome plated brass tank vents with fitted gauze and back nut.

Part No	Hose Dia	Aperture	Type
10260	5/8" (16mm)	3/4" (19mm)	Straight
10265	5/8" (16mm)	3/4" (19mm)	90°
10270	3/4" (19mm)	1" (25mm)	Straight

Air Vent Nipple

Suitable for Ø 16 mm internal diameter hose. In stainless steel (AISI 316).

Part No	Description
56457	Stainless Straight 16mm (ST04S)
56458	Stainless Angled 16mm (ST04HS)

Fuel Breather Vents

Mirror polished AISI 316 stainless steel.

Fitted with flame-proof screen, detachable for easy maintenance. Designed in compliance with the requirements of the UNI EN ISO 21487 regulation.

Part No	Description
10266	19mm Straight
96463	19mm 90 degree bend
96464	16mm 90 degree bend

All fastenings are sold individually or by weight.

Duralac Anti-Corrosive Joining Compound

Duralac is a chromate containing jointing compound designed to inhibit electrolytic decomposition between dissimilar metals – often called galvanic corrosion. It is a single pack, air setting product. Used correctly, Duralac prevents anodic decomposition.

Part No	Description
60702	115ml

Copper Grease 70g

A high performance lead-free anti seize compound which is designed for application to threads of nuts and bolts prior to assembly to ensure easy release without damage, even after long periods in adverse conditions. The product is based on a non-melting grease containing a complex blend of heat resistant solids and low shear metals.

Part No

63074

Tef-Gel Anti Corrosion Gel 28g Syringe

When dismantling equipment for maintenance or repairs, this is the stuff you need. Tef Gel is a PTFE based waterproof lubricant with anti-corrosion and anti-seize properties. Tef Gel does not break down in salt water or detergents.

28 Gram Syringe

60700

Loctite 270 - High Strength

Loctite Stud 'n' Bearing fit is a fast acting high strength threadlocker and bearing retainer that can be used on metal threads, shafts, housings and bearings.

Part No Description

60643 24ml

Loctite 2701 - High Strength

LOCTITE® 2701 is a green, low viscosity, methacrylate-based threadlocking adhesive with high strength, especially for chromated surfaces. Steel fixture time of 10 min, brass 4 min and stainless steel 25 min. Tolerates slight contaminations of industrial oils. Suitable for all metal fasteners. Fluoresces under UV light.

Part No Description

60648 10ml

60647 50ml

Loctite 248 Threadlocker 19g Stick

LOCTITE 248 is a general purpose threadlocker with medium bond strength. This product is available in a convenient stick format. This threadlocker secures and seals bolts, nuts and studs to prevent loosening due to vibration. The product works on all metals, including passive substrates such as stainless steel, aluminium and plated surfaces.

Part No Description

60651 19g Medium Stick

LOCTITE 577 Thread Sealant

This is designed for the locking and sealing of metal pipes and fittings as well as other threaded assemblies. The product provides an instant, low-pressure seal for metal pipes and fittings. It will not creep, shrink or shred. It has excellent chemical and thermal resistance and offers less migration of liquid product after application.

Part No Description

60644 50ml Thread Sealant

5ml Tube Loctite Lock 'N' Seal 243

Fast acting thread and lock sealant. Locks carburettor screws, alternator housings, seals oil pressure switches. Vibration proof.

5ml

60637

Loctite 243 Medium Strength

It is a general purpose threadlocker that provides a medium strength bond. LOCTITE 243 works on all metals, including passive substrates such as stainless steel, aluminium and plated surfaces.

Part No Description

60650 10ml

Stainless Fastenings = 30% standard discount & 60% when you buy 100 or more.

Teroson Up 620 Gelcoat Filler

TEROSON® UP 620 is a gelcoat unsaturated polyester body filler used for restoring the original surface finish to boat hulls and glass fibre panels. It repairs osmosis blisters and minor surface damage. It can be used on glass fibre and gelcoat finishes. Once set, it is waterproof and may be overpainted if required.

Pot Life: 12 mins

Colour: white

Sandable: 20 to 30 mins

Part No	Size
61310	Gelcoat Filler 241g Tin

Teroson Up 610 Marine Filler

TEROSON® UP 610 is the universal unsaturated polyester body filler used for marine applications. It repairs transom/stern damages, stress cracks, keel and rudder surfaces, redundant holes, engine mountings, damaged and pitted propellers, cracks and holes on hulls and superstructures, damages caused by osmosis or crazing, gaps between hull and deck and worn and damaged superstructures.

Pot life: 4 mins

Colour: white

Sandable: 15 to 20 mins

Part No	Size
61290	Marine Filler 341g Tin
61300	Marine Filler 787g Tin

Teroson Up 130 Chemical Metal

TEROSON® UP 130 is the original rock-hard, multi-purpose, unsaturated polyester body filler paste with resistance to water, salt water, oil, fuel and to most weak acids and chemicals. It can repair gasoline tanks, radiators, concrete, housings and castings and many more. Suitable substrates include steel, aluminum, galvanized surfaces, glass fiber, copper and tin.

Pot life: 4:30 mins

Colour: dark grey

Sandable: 15 to 20 mins

High chemical resistance

Part No	Size
61210	Chemical Metal 321g Tin
61230	Chemical Metal 739g Tin

Teroson Up 150 Glassfibre Filler

TEROSON® UP 150 is an unsaturated polyester body filler used for bridging and repairing holes. It can be used on steel, aluminium, galvanized surfaces and glass fibre.

Pot life: 6:30 mins

Colour: blue/green

Sandable: 20 to 30 mins

Part No	Size
61215	Glassfibre Filler 332g
61320	Glassfibre Filler 743g

Teroson Up 230 Light Weight Filler

TEROSON® UP 230 is an easy-to-sand, lightweight unsaturated polyester body filler used for repairing dents, scratches, pinholes, imperfections and for reshaping. It can be used on steel, aluminium, galvanized surfaces and glass fibre.

Pot life: 4:30 mins

Colour: light green

Sandable: 25 to 30 mins

Part No	Size
61355	Teroson Up 230 Light Weight Filler 535g

Osculati Gelcoat Filler 100gram

Single-component gel coat. To be knifed out as a regular filler for a bright white finish that restores the original surface of the chipped or splintered gel coat. It can be coated.

Part No

96251

Osculati Gelcoat Filler 200gram

"4 in 1" high-resistance bicomponent white gelcoat. To be used like a regular filler to be knifed out: the final result is a bright white finish restoring the original chipped, scratched or dented gelcoat surface. It can be coated.

Part No

96250

TEROSON UP 190 spare hardener for fillers and resins.

Part No	Description
61352	Spare Hardener 15g

Epifanes Combi Filler

A traditional one-component knife filler based on alkyd resins. Suitable for levelling of small irregularities in one-component paint systems for wood or steel above the waterline. Apply in thin layers only (max. 1 mm) .

Apply between primer coats or prior to the first finishing topcoat Sandable: After 24 hours at 65°F./18°C. and 1 mm film thickness

Part No	Description
69202	Epifanes Combi Filler Tube 225 Gram
69201	Epifanes Combi Filler Tin 800 Gram

Osculati Epoxy Filler 800gram

Two-component epoxy filler to be knifed out. Excellent to restore broken or missing parts. Good compromise between stiffness and flexibility. Hand or machine processing after 4/5 hours.

Part No	Description
61356	Osculati Epoxy Filler 800Gram

Plastic Filler Card

Plastic universal filler cards used for a wide variety of applications.

Part No	Item
61364	Single spreader (plastic)

Putty Knife

Rigid steel blade for putty and general glazing work. Soft grip handle for comfortable and professional use and a hole for hanging.

Part No
60280

Filling Trowel

Useful for filling in cracks and other small areas. Soft grip handle for comfortable and professional use and a hole for hanging.

Part No
60290

Euro Filling Knives

Includes 50, 80, 100 & 120mm (2, 3, 4 & 5") Blades

Designed for small mixing and filling jobs on walls, ceilings and woodwork. Extra flexible carbon steel blades. 50mm, 80mm, 100mm and 120mm wide blades.

Part No	Item
61365	Set of 4 metal spreaders

Bondafiller

An easy-to-use filler with good sanding properties that gives a smooth, dense surface. Bonds strongly to metal, GRP and wood. Takes all types of paint.

Part No	Size
64450	0.5Kg
64455	1.5Kg

V11 Reinforced Filler - 1Kg

V11 is filled with chopped strands of glass fibre which give the filler great strength. It can be used to bridge larger gaps and holes than is possible with conventional fillers.

Part No	Size
64460	1.0Kg

Bonda Easy Sand Bodyshop Filler - 4kg

Smooth and creamy to apply. Easy sanding. Excellent adhesion. A general purpose bodyshop filler with good thixotropy for deeper filling and high build. Smooth to apply and easy to sand with minimal paper clogging. Working instructions: the surface must be clean, dry and free of oil and paint. Add the hardener in proportion to the required amount of filler (2% by weight) and blend thoroughly.

Part No	Description
64457	4kg Easy Sand Bodyshop Filler

BRUMMER

Brummer Stopping - 225 Grams

Exterior Grade woodfiller available in many wood shades. A waterproof filler for exterior use, excellent for filling holes and cracks in exterior woodwork e.g. windowsills, doors and garden furniture and is ideal for a wide variety of marine applications as it will not shrink or crack and is impervious to sea-water. May also be used on concrete, plaster, fibreglass and stonework.

Part No	Shade
64105	White
64110	Teak
64115	Med. Mahogany
64117	Light Oak

LOCTITE 3463 is a versatile, dual component, easy to use, steel-filled epoxy repair putty. It is applied like a putty and when cured it exhibits high compressive strength and good adhesion to most surfaces. This product stops leaks in pipes and tanks, fills oversized bolt holes, smooths welds, and repairs non-structural defects in castings or holes in tanks. This product is typically used in applications with an operating temperature range of -30 °C to +121 °C.

Part No	Description
60645	114Gram Metal Magic Steel Stick

Red Lead Powder

A bright orange powder with strong preservative properties. When mixed with linseed oil putty, it makes 'red lead putty' for use as stopping in seams below the waterline on wooden craft. Appropriate proportions are 16 parts putty to 1 part red lead powder, with linseed oil added to modify the consistency.

Sold by the kilogram tin.

1 Kg

60490

Bonda Wood Fill is ideal for filling shallow and deep imperfections on wood as well as for skim coating and grain filling. It can be used to build up damaged edges or splits on windows and doorframes or on any type of wooden furniture which needs repairing. This 2 part filler contains rapid hardening properties enabling it to dry and harden very quickly to form a smooth dense surface. It can be sanded, drilled, filed and machined when hard. After it has dried and has been prepared it can be primed and painted using regular paints.

Part No	Description
64580	Teak 500grams
64581	Mahogany 500grams
64582	Oak 500grams

Caulking Cotton

It is useful for caulking seams on traditional wooden boats. 5 strand.

0.5Kg Ball

60475

Oakum

Oakum steeped in Stockholm Tar. Generally used for caulking below the waterline.

4kg Bale

60478

Rustins Natural Danish Oil

A unique formulation developed by Rustins that is suitable for all types of wood. It differs from Teak Oil in that it contains special ingredients to give it a low lustre finish. It is an easy to use wipe on finish, which brings out the beauty of the timber and gives a natural, open grained, soft lustrous finish. Ideal for all woods and is excellent on turned woodwork. Rustins Danish Oil conforms to The Articles in Contact with Food Regulations and to the Toys (Safety) Regulations 1995, BS:EN71 Part 3.

Part No	Description
61521	Danish Oil 500ml
61522	Danish Oil 1L

Raw Linseed Oil

A traditional completely natural oil from the extract of flax seed which penetrates unsealed wood leaving a natural, water resistant finish with a slightly enhanced colour that darkens slightly with age. For use on oak beams, bean canes, cricket bats, and many woodcraft applications and can be used as a lubricant in French Polishing (not suitable for furniture or flooring).

Part No	Description
61515	Raw 500ml
61510	Raw 5 Litre

Boiled Linseed Oil

A natural linseed oil (from the extract of flax seed) blended with driers to improve drying times. Boiled Linseed penetrates unsealed wood leaving a natural, water resistant finish with a slightly enhanced colour that darkens slightly with age. For oiling many types of bare wood mainly for internal use and Woodcare applications. (Not suitable for Oak, furniture or flooring).

A traditional treatment to seal terracotta tiles and other porous substrates. Can be mixed with burnt sand to form a caulking to fill gaps between timber and masonry.

Part No	Description
61520	Boiled 5 Litre

Everbuild Multi Purpose Natural Linseed Oil Putty

Multi-Purpose Putty is specially formulated using only the best grade linseed oil, for glazing single glass into metal, softwood and hardwood window frames. Putty facing, coverage will be between 3 and 5 metres per kg depending on rebate dimensions and frame type. Overpaint when skin has formed, between 7 and 28 days after glazing.

0.5Kg	1Kg	5Kg
60320	60325	60330

Profair

A light weight two-component, epoxy filler, featuring high adhesion and water resistance and when fully cured is easy to sand. Can be applied to a film thickness up to 25 mm without sagging. As a filler and fairing compound, especially suitable for profiling large areas and detailed fairing where structural strength and flexibility is required. It can be used on most primed rigid substrates, above and below the waterline.

1 Litre

67381

Pro Filler

ProFiller is a two-component, lightweight epoxy filler, featuring high adhesion and water resistance. When fully cured it is easy to sand. Can be applied in coats up to 10-12mm for a uniform smooth finish.

5 ltr

66576

Watertite

Watertite is a quick drying epoxy filler which does not shrink and is extremely water resistant, making it suitable for osmosis damage repairs. Fill up to 20mm without sagging. Use above and below the waterline. High strength and adhesion properties. Simple 1:1 mixing ratio for easy measurement of components. Very fast drying. Super-smooth.

Suitable Thinners: None

Coverage: 0.2m² / ltr

Substrates: GRP, Metals & Wood

250ml 1ltr

68406 68407

Interfill 830

A lightweight epoxy profiling fairing compound used for profiling above and below the waterline on steel, aluminium and composite. Interfill 830 is the premium choice of profiling fillers for professional applicators. High expectations and stringent industry requirements have made Interfill 830 one of the most popular fairing compounds in the world. Interfill 830 is available in both fast and standard cure applications.

Type	5ltr
Standard	68623
Fast	68621

Interfill 833

Interfill 833 is a technically advanced, easy sand Epoxy Finishing Fairing Compound for use over Interfill 830 profiling filler, to correct minor surface defects before application of finishing coats. The Interfill 833 is coloured green to contrast with the Interfill 830. This makes it easy to monitor film thickness and sand-through during the application procedure.

Type	5ltr
Standard	68624
Fast	68625

Marine Epoxy Adhesive - 600gsm

A two-part epoxy resin-adhesive with a neutral colour, specifically designed for use with the range of Treadmaster coverings. Gives excellent long term resistance to UV, seawater and continual impact in the harsh marine environment. One pack is sufficient for bonding one sheet of Treadmaster.

Part No	91880
---------	-------

130ml Hempel Epoxy Filler (2pack)

A two component, solvent free, epoxy filler. Use for a variety of filling and fairing jobs both above and below the waterline. Can be applied in thick coats up to approximately 5mm thick without runs or sags. Fair before over coating with relevant primer. Tool Cleaner: Hempel's Degreaser

Part No	66450
---------	-------

Gorilla Epoxy Syringe

The easy-to-use syringe keeps the resin and hardener separate, so it is easy to dispense and won't harden over time. The two-part, gap-filling formula easily bonds steel, aluminium, wood, ceramic, tile and most plastics. Plus, it dries in an ideal, crystal-clear finish that makes projects look spotless. Grip Time: 30 Minutes // Open Time: 5 Minutes Dry Time: 24 Hours // Dry Colour: Clear Full Cure: 24 Hours

Part No	Description
60835	Gorilla Epoxy 25ml

G Flex 655 Thickened Epoxy Adhesive

The West System G/flex 655 is toughened epoxy that makes permanent, waterproof, structural bonds. It absorbs the stresses of expansion, contraction, shock, and vibration. G/flex adheres tenaciously to HDPE, LDPE, ABS, PVC, Polycarbonate and Hypalon plastics. It also bonds metal, glass, masonry, fiberglass, wood.

Part No	60415

WUDCARE

Wood Fillers and adhesives The professional choice

www.wudcare.co.uk

Wudcare Adhesive Fast Grab 5 minute

A strong polyurethane glue that has a fast initial grab time and will expand slightly to increase bite strength. For interior and exterior use.

Fast Grab 5 minute has an initial grab time of 5 to 10 minutes and a firm bond in 4 hours. Full cure will require 24 hours.

After setting, the bond is very stable resisting 'creep', immersion in salt water and exposure to the elements. Use on damp wood, hardwoods, concrete, metal, brick, tarmac, MDF, polystyrene, cork and fibreglass.

Part No	Description
64612	500gram PU Wood Adhesive
64611	1kg PU Wood Adhesive

Collano Wood Glue - 800 Gram Tube

A unique marine wood glue. Collano Semparoc is one of the most versatile glues available. It is economical to use straight from the bottle with little wastage. Collano Semparoc reacts with moisture thus making it ideal for use in wet conditions - 25% moisture in the wood, even at temperatures as low as 5°C. Collano Semparoc regular allows well over one hour assembly time and cures in 3-4 hours.

Part No	Description
64610	Regular (Open Time 1 Hour / Press Time 3-4 Hours at 20 °C)

Gorilla Glue

Water activated, it expands into materials to form an incredibly strong bond to virtually anything. As your solution for almost any project or repair, Gorilla Glue is 100% waterproof, weatherproof, you-name-it-proof. It's safe for indoor and outdoor use and strong enough to stand up to intense heat or cold. Sand it, paint it, stain it. Simply stated, it's the Toughest Glue on Planet Earth.

Grip Time: 1-2 Hours // Open Time: 10-15 Minutes Dry Time: 80% in 1-2 Hours // Dry Colour: Light Tan Full Cure: 24 Hours

60800 Gorilla Glue 115ml

60801 Gorilla Glue 250ml

Gorilla Wood Glue

Gorilla Wood Glue, a PVA glue, offers the benefits of an easy-to use, water-based adhesive, with all the holding power Gorilla is known for. The glue is incredibly water resistant and dries a natural colour that offers an invisible bond line for your projects.

Grip Time: 20-30 Minutes

Open Time: 5-10 Minutes

Dry Time: 80% in 1-2 Hours

Dry Colour: Natural Wood Colour

Full Cure: 24 Hours

60820 Gorilla Wood Glue 118ml

60822 Gorilla Wood Glue 532ml

Cascamite

Cascamite structural wood glue is supplied as a powder, to be mixed with cold water as and when required. Once mixed Cascamite is usable to apply for about 1 hour and sets after 6 hours.

Cascamite is specially formulated for exterior joinery exposed to the weather. The powder system enables extremely good gap filling properties, preventing water penetration into joints and producing stronger bonds; ideal for exterior joinery, windows, doors, boats, gates and bathrooms.

DYN - 185 - Aerodux Resorcinol Resin Kit - 1.2kg & 6kg pack sizes.

Liquid phenol-resorcinol resin adhesive for wood. A two-part system which provides a waterproof, structural bond.

Aerodux 185 is a 2 Pack resorcinol resin adhesive. Totally waterproof, resorcinol resin is recommended for use not only in structural timber applications but also for demanding and critical applications such as fire doors. Used extensively for bonding difficult timbers and can also be used to bond materials such as expanded polystyrene, plastic laminates, natural rubbers and some sheet metals. Can be used if required in hot pressing applications.

Mixed by weight. Ratio of mix 5 parts resin to 1 part powder.

Part No	Description
64403	1.2kg
64405	6kg

Jefferys No 2 Black Marine Glue

This has been the premier choice for traditional deck seaming around the world for decades. Still produced in England from the original formula, it is as reliable today as throughout the last century. It will adhere tenaciously to the seam for many years, remaining flexible in low temperatures and withstanding softening at high temperatures. To apply, once carefully heated to a working temperature of around 370 degrees F (190 degrees C) it can be poured onto the prepared seams. Two applications are needed to ensure that all steam and air are released. Average usage 1kg to 10 metre run.

Part No	Description
60485	12.5kg Jeffery's Marine Glue
60486	25kg Jeffery's Marine Glue

Plexus MA300 Cream

Fast high strength Methacrylate Adhesive. Two-part methacrylate adhesive designed for structural bonding of composite, thermoplastic, and metal assemblies. Plexus MA300 has a working time of 3 to 6 minutes and reaches approximately 500 psi in 12 minutes and 1,000 psi in 15 minutes at 74°F (23°C). Medium open time of 3 – 6 mins Easy to use 1:1 ratio Fast, consistent strength development at room temperature High strength, stiffness and toughened Non-sag thixotropic dispensing

Part No	Description
60413	Plexus MA 300 Cream 400ml Adhesive
60414	Plexus 3592 Nozzle 400ml
60403	Plexus MA 300 50ml Adhesive
60404	Plexus 3590 Nozzle 50ml

Scotch-Weld 10

Scotch-Weld Contact Cement 10 is a liquid, air-drying, adhesive which bonds immediately and permanently upon application of contact pressure. There is no need for clamping or fixturing.

1 Ltr
63773

Marine Epoxy Adhesive - 600grams

This two pack epoxy adhesive is designed to provide the ultimate in bonding performance. Ideal for use on a wide range of deck materials, it provides a bond which is suitable for the most arduous of conditions. Full instructions are on the can. Coverage Approx. 2 Sheets (1200mm x 900mm)

Part No
91880

Loctite EA 3463 Metal Magic 114g Stick

Structural Bonding - 2-component epoxy. Steel-filled kneadable stick for emergency repair. LOCTITE 3463 is a versatile, dual component, easy to use, steel-filled epoxy repair putty. It is applied like a putty and when cured it exhibits high compressive strength and good adhesion to most surfaces. This product stops leaks in pipes and tanks, fills oversized bolt holes, smoothens welds, and repairs non-structural defects in castings or holes in tanks. This product is typically used in applications with an operating temperature range of -30 °C to +121 °C. For the emergency repair of tanks, pipes and castings. Operating temperature range -55 °C to +120 °C.

Part No
60645

3M 74 Foam Fast Spray Adhesive

Ideal for general upholstery foam bonding. Bonds fabric to many surfaces. Non-misting, precise spray control.

500ml Aerosol

63763

3M 77 Super Spray Adhesive

A high-tack, high-coverage, fast-drying, transparent adhesive for permanently attaching foils, carpeting, foam, paper, cardboard, felt, cloth etc. to painted or unpainted metals, hardboards and other base materials.

500ml Aerosol

63764

3M 80 Rubber & Vinyl Spray Adhesive

Neoprene contact adhesive, excellent for attaching vinyl, insulation foam, padding and rubber parts to metal and other surfaces.

500ml Aerosol

63765

3M 90 High Strength Spray Adhesive

Formulated for bonding rigid materials. High bond strength and one minute dry time. Will adhere polyethylene and polypropylene to wood, metal and many other materials.

500ml Aerosol

63766

Wudcare Heavy Duty Spray Adhesive

A long-lasting, multi purpose spray adhesive designed to produce a high bond between a wide variety of materials. For interior and exterior use. Suitable for most surfaces such as: Carpet, Fabrics, Laminates, Plastics, Insulation, Rubber and Foam.

Part No	Description
64613	500ml PU Wudcare Heavy Duty Spray Adhesive

Trim - Fix Adhesive

Trim Fix spray adhesive is a multipurpose, high temperature resistant, heavy duty spray adhesive specially designed for the automotive industry. Ideally suitable for use on any trimming applications including panels, headlining and carpets. High temperature resistant – up to 120 degrees. Easy to apply – heavy duty spray adhesive. Dries clear – white spray

Part No	Description
64615	Trim Fix Adhesive 500ml Aerosol

Loctite 577

This thread Sealant is designed for the locking and sealing of metal pipes and fittings as well as other threaded assemblies. The product provides an instant, low-pressure seal for metal pipes and fittings. It will not creep, shrink or shred. It has excellent chemical and thermal resistance and offers less migration of liquid product after application.

Part No	Description
60644	50ml Thread Sealant

Loctite Hydraulic Seal 542

Medium viscosity
For sealing threaded hydraulic and pneumatic parts. Will not clog valves or fine filters and has a thixotropic quality which prevents migration of the sealant. Impervious to all common hydraulic fluids including fire-resistant synthetics. Resistant to Hydraulic Fluids including Synthetics

-55 /+150 °C

Part No	Description
60646	50ml Thread Sealant
60649	10ml Thread Sealant

Loctite High Strength 2701

LOCTITE® 2701 is a green, low viscosity, methacrylate-based threadlocking adhesive with high strength, especially for chromated surfaces. Steel fixture time of 10 min, brass 4 min and stainless steel 25 min. Tolerates slight contaminations of industrial oils. Suitable for all metal fasteners. Fluoresces under UV light.

Part No	Description
60647	50ml Thread Sealant
60648	10ml Thread Sealant

Gorilla Super Glue

Gorilla Super Glue dries in 10–30 seconds and is reinforced with rubber for increased impact resistance. We call it Impact-Tough® because it stands up to wear and tear unlike any other instant glue. Grip Time: 10-30 Seconds // Open Time: Not Repositionable // Dry Time: Light Handling after 1-5 Minutes // Dry Colour: Translucent Full Cure: 24 Hours

Part No	Description
60840	Gorilla Superglue 15 grams

Loctite Power Flex Gel

Universal instant adhesive glue / rubber infused gel formula, strong and flexible / non drip gel.

Ideal for paper/card/porcelain/china/leather/rubber/wood/metal/craft/hobby/model making/most plastics

Part No	Description
60630	Gel 3gm Tube

Precision Super Glue

The original 'super glue'. Suitable for a variety of surfaces, including metal, china, rubber, wood, leather and most plastics.

Part No	Description
60629	Liquid 5gm Bottle

Instant Gasket

Forms perfect replacement gasket and gasket dressings in minutes. Resistant to water, heat, oil, anti-freeze, transmission and brake fluids. 40ml tube.

Part No	Description
60636	40ml

Stud 'N' Bearing Fit - 270 High Strength

Loctite Stud 'n' Bearing fit is a fast acting high strength threadlocker and bearing retainer that can be used on metal threads, shafts, housings and bearings.

Part No	Description
60643	24ml

Loctite 243 Medium Strength

It is a general purpose threadlocker that provides a medium strength bond. LOCTITE 243 works on all metals, including passive substrates such as stainless steel, aluminium and plated surfaces.

Part No	Description
60650	10ml

Loctite 248 Threadlocker 19g Stick

LOCTITE 248 is a general purpose threadlocker with medium bond strength. This threadlocker secures and seals bolts, nuts and studs to prevent loosening due to vibration. The product works on all metals, including passive substrates such as stainless steel, aluminium and plated surfaces.

Part No	Description
60651	19g Medium Stick

Superfast Adhesive

SUPERFAST PLUS provides an exceptionally strong bond between almost all kinds of materials, with the exception of polyethylene, polypropylene and fluorine containing plastic materials.

Materials which can be bonded: ABS, aluminium, Bakelite, bronze, butyl, celluloid, chloroprene, chrome, Delrin, glass, copper, natural rubber, NBR, neoprene, nitrile, nylon, phenol, polycarbonate, polystyrene, porcelain, hard PVC, stainless steel, steel. For porous materials, use with SUPERFAST PLUS Activator.

Part No	Description
60517	20ml Superfast Adhesive
60518	50ml Superfast Adhesive
60519	150ml Activator

Inflatable Boat Repair Kits

Orange kit for neoprene inflatables containing: 125g glue with catalyser + 2 x 14.5 x 21.5cm neoprene patches + brush + sand paper + user instructions.

White/Grey kit for PVC inflatables containing: 125g glue + PVC cleaning product + 2 x 14.5 x 21.5cm neoprene patches + brush + activator + user instructions.

Part No	Description
96255	Orange Neoprene inflatable repair kit
96256	White PVC inflatable repair kit
96257	Grey PVC inflatable repair kit

Polymarine Inflatable Boat Adhesive

Glue, a PVC Inflatable Boat Adhesive. PLEASE NOTE :- For a complete bond 2903 solvent must be used before the adhesive is applied. * Solvent based polyurethane adhesive giving excellent adhesion to both plasticised and unplasticised PVC * Used in conjunction with A3695B curing agent will bond a wide variety of surfaces including PVC, nylon fabric, polyurethane fabric and foam * Use for repair of all PVC inflatables including Zodiac/ Bombard "Dynalon" and "Strongon" fabrics and Narwhal/Valiant "Hypertex" (see Boat Fabric Type Table) * Easy to mix two part supplied in sets with requisite amount of curing agent * Can be used as a single part for quick temporary repairs * Easy to apply by brush, roller or serrated trowel; contact bonds in 10-15 minutes, full cure 48 hours * Shelf life - 24 months unopened tin; mixed adhesive has pot life of 3-4 hours * Coverage. using 2 coats 1 litre bonds 1 square metre

Part No	Description
60605	Polymarine PVC 2 Part Adhesive 250ml

C-TEC
BUILDING PRODUCT SPECIALISTS

CT1 Sealant & Adhesive 290ml

CT1 is the only product in the market with TRIBRID® Technology, making it 360% stronger than a traditional Hybrid Polymer. With TRIBRID® Technology, it is scientifically proven to have excellent colour retention – white stays white and clear stays clear. CT1 will successfully bond: All metals (including lead) , Glass Mirrors, All woods, MDF, Polystyrene, Fiberglass Tiles, Concrete, Most stones (without staining), Most synthetic materials, Plastics (excluding PP, PE and PTFE).

Part No	Colour
60510	Black 290ml
60511	White 290ml
60512	Clear 290ml
60513	Grey 290ml
60514	Brown 290ml

BT1 Bathroom Sealant & Adhesive 290ml

BT1 is based on our revolutionary TRIBRID® Technology! We have created a unique product upon which bacteria/microbes cannot survive, making it easier to maintain a more hygienic surface which is free of solvents and isocyanates. No more mould and fungal growth!

BT1 will successfully bond:

- Woods
 - Metals
 - Brickwork
 - Concrete
 - Fibreglass
 - Glass
 - Ceramics
 - uPVC
- And most plastics (except PP, PE and PTFE), even in wet conditions.

Part No	Colour
60515	White 290ml

Multisolve Aerosol Degreaser + Cleaner

MultiSolve is a complete new multi-purpose solvent; for the safe removal of adhesives and sealants. Removes adhesives, sealants, oil, grease, silicon, wax, tar, paraffin, printing ink etc. Leaves no oil film. Fast, thorough and safe degreasing and cleaning. Can be used on painted surfaces, vinyl, glass, rubber and plastics. Fast drying.

500ml Aerosol

60516

Arbosil 1096 Black Silicone Sealant 380ml

Arbosil 1096 is a one part Low Modulus Neutral Cure Silicone Sealant which cures on exposure to moisture vapour to form an elastic silicone rubber.

Recommended :

- Glass Wall Assemblies
- Perimeter Seals in Curtain Walls
- Perimeter Sealing of Polyester Powder Coated Frames
- Sealing of Windows in Swimming Pools
- Polycarbonate & Acrylic Sheeting

Not recommended:

- Overpainting
- Natural Stone

Part No	Colour
60399	Black 380ml

3200 Silicone Sealant 280ml

A mildew resistant non-sagging moisture curing rubber sealant. Remains flexible with excellent resistance to the marine environment. Adheres to bare/painted metal, fibreglass, gloss, non-oily woods and many plastics and abraded rubbers.

Part No	Colour
63739	White 280ml
63741	Clear 280ml

Arbomast BR 380ml Grey
One part Butyl Rubber based sealant which only cures on the surface and remains putty like. Can be used as a bedding compound for marine windows and other low movement joints.

Part No	Colour
60397	380ml Grey

Arbomast GP is a one part oil based sealant intended primarily for general pointing and sealing of many joints in traditional forms of construction. It forms a skin, but the bulk of the material remains plastic beneath the skin. Recommended for: Perimeter sealing of painted timber frames. Sealing of preformed concrete panels e.g. Garages

Part No	Colour
60398	380ml Black

Sabatack® 750 XL Sealant & Adhesive 290ml
Extended skin time of approx. 15 minutes
Extended open time of approx. 30 minutes
High end strength, fast drying.
Adhesion without primer.
UV- stable, high temperature resistance.
Can be painted wet-on-wet, hardly any shrinkage.
No blistering, almost odourless.
Free from solvents, isocyanates and silicones.
Certificates: Germanischer Lloyd (WP 0840006 HH), Wheelmark (164.106/1121/WCL MED0326), ISEGA (in connection with HACCP).

Part No	Description
60465	Sabatack 750XL Teak 290ml (RAL8008)
60466	Sabatack 750XL White 290ml
60467	Sabatack 750XL Black 290ml

4000UV Stay White Adhesive Sealant

Resistant to weathering, saltwater, and stresses caused by joint movement. Seals between mechanically fastened joints on wood, fibreglass, metal and most plastics above and below the waterline. 295ml Tube

Part No	Colour
63742	White 295ml

Sikaflex 221 - General Purpose Adhesive

A one component, polyurethane based adhesive and sealant. Excellent adhesion to concrete, metals, wood, epoxy, GRP, paints and varnishes. Good permanent flexibility, making it ideal as a general purpose bedding compound and sealant both above and below the waterline. Fast cure rate - it is tack free after about an hour. Can be sanded and painted. 310ml cartridge.

Part No	Colour
60426	Grey 310ml

5200 Adhesive Sealant - 295ml Tube

High performance, one component polyurethane adhesive/sealant with no shrinkage. The seal is extremely strong, retains its strength above or below the waterline. Stays flexible too - allows for structural movement. Stress caused by shock, vibration, swelling or shrinking is effectively absorbed. Easy to apply with manual caulking gun. Remains workable with trowel or spatula for up to 4 hours after application. Standard cure (7 days). (Fast cure version cures in 24hrs)

Part No	Colour
63731	Black 295ml
63728	White 295ml
63732	White Fast Cure 295ml

4200FC Adhesive Sealant - 295ml Tube

A one part general purpose polyurethane adhesive/sealant. Chemically reacts with moisture to deliver flexible bonds with good adhesion to wood, fibreglass, gel coat, plastics and metals. Paintable and sandable. Forms watertight, weather resistant seals on joints and boat hardware above and below the waterline. NOTE: When very high strength or unremovable bonds are required, use 3M 5200 or 5200FC. Not recommended for sealing wood decks because it may be permanently softened by certain teak cleaners or sealers. Cure time: 1 day

Part No	Colour
63734	Black 295ml
63733	White 295ml

Sikaflex 291i - General Purpose Sealant & Adhesive

One component, polyurethane based adhesive and sealant developed specifically for the marine construction industry. Excellent flexibility and will adhere well to most materials.

Sikaflex 291 has very similar characteristics to 221, but has added UV filters.

Colour	70ml Tube	300ml Cartridge
Black	60405	60423
White	60412	60425

Sikaflex® -295UV Marine Plastic Window Glazing Adhesive

It has been specially developed for the marine industry, where it is used to bond and seal plastic glazing materials in boats and ships. Because of its excellent weatherability this product can also be used to seal joints in areas of severe exposure. Suitable substrates are aluminium (bright or anodized), GRP (polyester resin), stainless steel, timber and plastic glazing materials (PC, PMMA).

Part No	Description
60430	Sika 295 UV 300ml Black
60429	Sika 295 UV 400ml White Sausage

Sikaflex 296 Marine Mineral Glass Glazing Adhesive

Sikaflex 296 is ideal for direct glazing of mineral glass which requires a purpose designed adhesive with the right combination of application properties and performance characteristics. This is a fast curing elastic polyurethane that is suitable for all types of mineral glass.

Part No	Description
60428	Sikaflex 296 600ml Black Sausage

Sikaflex 292i High Strength Marine Adhesive 300ml White

Sikaflex 292i is a super strong Marine Construction Adhesive that's resistant to seawater, is suitable for structural joints that are subject to Extreme Dynamic Stresses. Having roughly twice the sheer strength of Sikaflex 291i it's ideal for bonding and sealing in the toughest of environments. Advantages and Benefits of Sikaflex 292i: High mechanical loadings. Vibration dampening. Wide adhesion range. Hydrolysis resistant. Wide adhesion range. Solvent free. Elastic. Can be overpainted.

Part No	Description
60427	Sikaflex 292i White 300ml

Sikaflex 252 Structural Adhesive 300ml

Sikaflex 252 is a high quality structural adhesive. Suitable for structural joints that will be subjected to dynamic stresses. Suitable substrate materials for use with Sika 252 are: Metals, (particularly aluminium including anodized components) sheet metal, (including phosphated,chromated & zinc-plated components) Timber & Timber Products Metal primers & paint coatings, (2-C systems) ceramic materials & plastics. Advantages & Benefits of Sikaflex 252 - Structural Adhesive: Very High Bond Strength Can be over-painted. Non-corrosive. Electrically non-conductive. Vibration damping. Good gap filling properties.

Part No	Description
60420	Sikaflex 252 Structural Adhesive 300ml

Sikasil SG-20 Black Structural Silicone Adhesive 300ml

As one of the most often specified Structural Glazing Silicone Adhesives, Sikasil SG-20 is a reliable and industrial sealant which is recommended for the bonding of Solar Modules and other high demanding industrial applications. Sika SG-20 has outstanding UV and weathering resistance. Sikasil® SG-20 is ideal for structural glazing and other bonding applications where high mechanical performance with silicone is required. This product is suitable for experienced professional users only. Tests with actual substrates and conditions have to be performed ensuring adhesion and material compatibility.

Part No	Description
60435	Sikasil Black Adhesive 300ml

Sikaflex 290DC Pro Deck Caulking

Sikaflex 290 DC is a one-part UV-resistant polyurethane based joint sealing compound specially formulated for caulking joints in traditional timbermarine decking. The sealing compound cures to form a flexible elastomer which can be sanded.

Excellent resistance to seawater and weathering. 310ml will fill 10m of 5mm X 5mm seam approx.

Colour	300ml Cartridge	600ml Sausage
Black	60445	60446

Sikaflex 290DC Primer

This primer is formulated to remove surface contamination and wood oils prior to the application of Sikaflex 290DC. This is critical, especially when dealing with oily woods such as Teak.

Part No	Description
60454	250ml

3M Fine Line Tape

Highly conformable polypropylene tape which stretches easily for painting smooth curves. Can be used for bond breaker tape.

Part No	Width x Length
63920	3mm x 55m
63921	6mm x 55m
63922	12mm x 55m
63923	19mm x 55m

Sikaflex Marine Multiprimer - 250ml

For use with: Sikaflex 221,291 & 290DC. SIKA Multiprimer Marine is an all purpose and easy to apply primer, for use on most substrates such as wood, metals, plastics and painted substrates. SIKA Multiprimer Marine typically dries in 10 minutes ready for Sikaflex application.

Part No	Description
60453	Sika Multiprimer Marine 250ml

Sika Primer 205 250ml

A solvent cleaner and conditioner which improves adhesion on non-porous surfaces for Sikaflex adhesives.

Part No	Description
60450	Sika Primer 205 250ml

SIS 440 Teak Deck Caulking

TDS Deck Sealant is a one-part neutral cure system which, when exposed to moisture in the air, reacts to form a tough, flexible, solid rubber compound. The sealant is a thixotropic material, which does not sag during cure, and, when cured, has excellent temperature stability and chemical resistance. It is non-corrosive to all substrates and available in black. No priming is required. White and Grey available to order.

Part No	Description
60500	305ml Tube - Black
60501	592ml Sausage - Black

Sika Primer 206 Glass + Metal

Black UV block primer for mineral glass, to be used in conjunction with Sika Activator. Can Also be used on stainless steel as well and two part epoxy/polyurethane paints.

Part No	Description
60455	250ml

Sika Primer 207 100ml

This primer is used to give improved adhesion in adhesive bonding applications on a very broad range of different substrates such as float glass, ceramic-coated glass, plastics, pre coatings, painted surfaces, E-coats and metals. This product is suitable for experienced professional users only.

Part No	Description
60431	Sika Primer 207 100ml

Sika® Aktivator-100 is a solvent-based colorless adhesion promoter, which reacts with moisture and deposits active groups on the substrate. These groups act as a link between substrates and primers or sealants/adhesives. Sika® Aktivator-100 is specifically formulated for the treatment of bond faces prior to application of Sika's elastic adhesives and sealants.

Part No	Description
60451	Sika Activator 100 (250ml)

Sika Primer 215 250ml Special formulation for use on all GRP, wood and some plastic substrates.

Part No	Description
60452	Sika Primer 215 250ml

Caulking Gun
Metal caulking gun fits standard cartridge sizes.

Part No	60470
---------	-------

600ml Professional Caulking Gun
Caulking gun suitable for 400 or 600 ml sausages and 310ml tubes. Aluminium tube 375 mm. Power ratio of 12:1.

Part No	60472
---------	-------

Plexus Manual Applicator Gun 50ml 1:1.

Corrosion Block Grease

It is an anti-corrosion compound developed exclusively to stop existing corrosion and prevent new. It is unique in that it is designed for use in electrics and electronics as well as metals and structures. This makes this product essential for your day-to-day routine maintenance and as a long-term asset protection for your boat/equipment within the harsh marine environment

Part No	Item
91731	Grease 454g Tub
91732	340g Aerosol
91733	14oz Cartridge

Morris K99 Stern Tube Grease 500g

This grease has outstanding water resistant qualities and is designed to form a special seal at the water interface. This grade is a high quality lead-free calcium hydroxide stearate grease with special additives to provide extreme pressure properties, improve oxidation resistance and protect against rust and corrosion. Recommended for grease filled stern tubes. Also suitable for plain and anti-friction bearings operating in very wet conditions.

Part No	Item
91730	K99 Water Resistant Grease 500g

Aqua Slip Grease 500g

Carlube Aqua Slip Grease provides high resistance to salt water corrosion and water washout in addition to allowing good shear stability over a wide temperature range. It is suitable for a wide range of marine applications including; trailer wheel bearings, stern tubes/propeller shafts, cables and pulleys etc.

Part No	Item
63076	Aqua Slip Grease 500g

Blakes Seacock Grease 500g

Formulated for marine use with high adhesion properties and resistance to water wash out. Primarily designed to be used with the Blakes Seacocks, this quality grease can be used for many other similar marine applications on board your boat.

Working temperature range -30°C to +70°C (-70°F to +160°F).

Part No	Item
10673	Blakes Seacock Grease 500g

MPG Universal Marine Grease 500g

MPG is a multi-purpose lithium based grease containing zinc oxide additive to repel moisture, making it particularly suitable for use in marine outboard and inboard engines. Also ideal for use in boat trailer hubs and stern tubes.

Part No	Description
91761	MPG Grease 500g

Copper Grease 70g

A high performance lead-free anti seize compound which is designed for application to threads of nuts and bolts prior to assembly to ensure easy release without damage, even after long periods in adverse conditions. The product is based on a non-melting grease containing a complex blend of heat resistant solids and low shear metals.

Part No	Item
63074	Copper Grease 70g

Loctite Superlube

Superlube with Synolon (PTFE) is a multi-purpose synthetic lubricant, safe to use on anything that slides, swivels, rolls or squeaks. It withstands temperatures within a range of -43C to 232C. This lubricant forms a non-toxic, anti-corrosive shield that prevents rust and is impervious to salt water.

Part No	Description
60639	Superlube Aerosol 375ml
60640	Superlube Grease Tube 85g
60642	Superlube Oiler Pen 7g

3-IN-ONE Multipurpose Drip Oil

3-IN-ONE's original drip oil lubricates, cleans and prevents rust. Its precise, easy-to-use drip spout enables precise lubrication, with no overspray or splatter. It can be used on in-line skates, tools, bicycles, wheels, fans and moving parts.

100ml

63062

WD-40

Stops squeaks, displaces water, cleans and protects, loosens rusted parts and frees stuck mechanisms.

300ml	450ml
61650	61652

Double TT Spray

Penetrates and eases corroded parts. Frees and lubricates locks, hinges etc. Stops squeaks on springs, castors etc. Leaves a protective coating to help prevent rust and corrosion. Removes crayon marks, gum and adhesives. Displaces moisture.

Part No	Size
63050	200ml
63052	400ml
63054	600ml

WD-40 500ml Spray Bottle

An empty spray applicator used with cleaner and lubricant for general purpose and mechanical applications.

28 Gram Syringe

61646

Tef-Gel Anti Corrosion Gel 28g Syringe

When dismantling equipment for maintenance or repairs, this is the stuff you need. Tef Gel is a PTFE based waterproof lubricant with anti-corrosion and anti-seize properties. Tef Gel does not break down in salt water or detergents.

28 Gram Syringe

60700

Multisolve Aerosol Degreaser + Cleaner

MultiSolve is a complete new multi-purpose solvent for the safe removal of adhesives and sealants. Removes adhesives, sealants, oil, grease, silicon, wax, tar, paraffin, printing ink etc. Leaves no oil film. Fast, thorough and safe degreasing and cleaning. Can be used on painted surfaces, vinyl, glass, rubber and plastics. Fast drying.

500ml Aerosol

60516

Duck Oil

A multi purpose service spray. Lubricates, penetrates, displaces water and inhibits corrosion. It is non-conductive and so can be used on all types of electrical equipment without impairing performance. Insulates electrics due to high dielectric strength. It is versatile and can be used on almost any surface. It is also silicone free and so is compatible for use in paint shops.

Part No	Item
61643	500ml Aerosol
61645	5 Litre Tin

Jizer

A specially formulated emulsifiable solvent degreaser. Removes mineral oil, grease, tar, bitumen and waxes from most surfaces with a powerful dissolving action. Rinses off completely with water.

Part No	Item
61630	5 Litre Tin
61635	61635

Team McLube Sailkote Aerosol Dry Lubricant 300ml

Sailkote is typically five times as effective, and lasts much longer than, wax, oil or Teflon® based lubricants. Sailkote is a translucent liquid that sprays or wipes on and completely dries in seconds. So, unlike oils, silicones, and waxes, it will never attract dirt, water and contaminants that eventually degrade lubrication performance.

60690

Team McLube One Drop Ball Bearing Conditioner 14.7ml

Allows ball bearings to roll freely and evenly. Eliminates skidding and sliding of the balls. Conditions and lubricates the surface of the balls. Maintains a clean, smooth ball bearing surface, free from dirt, sand, salt, and grime. Packaged in a unique pinpoint dispenser for clean and easy application.

60691

Duralac Anti-Corrosive Joining Compound

Duralac is a chromate containing jointing compound designed to inhibit electrolytic decomposition between dissimilar metals – often called galvanic corrosion. It is a single pack, air setting product. Used correctly, Duralac prevents anodic decomposition.

Part No	Description
60702	115ml

ACF50 Aerosol 369ml Anti Corrosion Spray

Use on heads, cooling fins, throttle linkages, brake cables, battery terminals, voltage regulator, suspension, engine components, torsion, bars, fuel control units, fuse box, swing arm, relays and connectors, undercarriage, chain, ignition switch, security systems, FOBs and more! ACTIVE which means it keeps on working - doesn't need reapplying after every wash

MP3 Sport Semi Synthetic
2 Stroke Outboard Oil

Rock Oil synthetic blend 2 stroke outboard MP3 Sport is a NMMA TCW-3 certified oil, capable of the lean oil to fuel ratios of modern high performance air and liquid cooled two stroke outboard engines. The advanced additives ensure easy starting and clean running even under continuous use. It is perfectly suited to oil injection systems but can be premixed. Its ease of starting and clean running characteristics, also make MP3 Sport an ideal lubricant for other high performance two stroke applications.

Part No	Description
91750	MP3 Sport 1 Litre
91751	MP3 Sport 5 Litre

MP + Sport
4 Stroke Semi Synthetic Outboard Oil

Rock Oil MP Plus semi-synthetic engine oil is a specially designed NMMA FC-W accredited lubricant for use in all modern 4 stroke outboards. With all-new modern 4 stroke outboards requiring this specification, it can be used with confidence in all 4 strokes outboard application where NMMA FC-W is required. The product is suitable where SAE 10W30, 10 W 40, 15W40 and 25W40 are recommended. It has been blended from the highest quality base oil with state of the art synthetic additives to withstand the rigours of the marine environment. It provides excellent protection from start-up, even in the lowest temperature, to the high operating temperatures of high revving 4 stroke outboard engines. It is suitable for use in both petrol and diesel outboards.

Part No	Description
91754	MP4 + Sport 1 Litre
91755	MP4 + Sport 5 Litre

MP4 Sport 15W-40
4 Stroke Semi Synthetic Inboard Oil

Rock Oil MP4 Sport is a premium grade 4 stroke engine oil designed for standard & high-performance engines. The advanced additive, high detergent formulation ensures maximum engine component protection & superior resistance to deposits and corrosion, resulting in extended engine life & optimum performance under all conditions. Especially suitable for the latest inboard high output marine applications.

Grade: API SL/CI-4, ACEA A3/B4 E5/E7, Volvo VDS-2, VDS-3

Part No	Description
91752	MP4 Sport 1 Litre
91753	MP4 Sport 5 Litre

HLP 32 Hydraulic Oil

Rock Oil HLP32 is a high quality, viscosity grade 32, mineral oil based, hydraulic oil. This oil contains high levels of anti-wear, anti-corrosion, antioxidation and anti-foam additives. This oil is specially suited to hydraulic systems where high levels of anti-wear and protection are required in conjunction with good service life reliability.

Part No	Description
91762	HLP 32 5 Litre

Ultraflex Hydraulic Steering Oil

OL 150 zinc free. Is a high performance oil specific for boat hydraulic steering systems. The anti-wear formulation, high stability and low viscosity, ensures long life and smooth driving with all ULTRAFLEX hydraulic steering systems.

Part No	Description
11795	1 Litre Ultraflex Steering Oil

Super Marine Inhibitor Spray (Fogging Oil)

Super marine inhibitor spray consists of a light mineral oil blended with sophisticated corrosion inhibitors and oxidation stabilisers. In use, it produces a soft, oily film which coats the unexposed internal surfaces. It is ideal, therefore, for applications such as laying up engines. It may also be used on external surfaces where it yields a water repellent, lubricated surface which also prevents rust formation.

Part No	Description
91758	400ml aerosol

80W - 90
Mineral

Hypoid EP 80W-90 Gear Oil

Rock Oil gear oil is developed from the finest base stocks available combined with state-of-the art extreme pressure (EP) additives for use in hypoid axles and gearbox applications. Hypoid EP 80W-90 Gear Oil is blended to the requirements of the API specification GL-4 making it especially suitable for automotive applications where EP oils are recommended. The Hypoid EP 80W-90 Gear Oil meets or exceeds the following specifications: API GL-4 ZF TE ML 01 (Manual, Non-Synchro Transmissions) ZF TE ML 08 (Steering Systems) ZF TE ML 17A (Transmissions for Lift Trucks)

Part No	Description
91756	EP 80W90 500ml
91757	EP 80W90 1 Litre
91759	EP 80W90 5 Litre

Vetus Marine Diesel Engine Oil 15W-40

It is suitable for all modern marine diesel engines and generator sets. It also meets the very high requirements of turbo-charged engines and engines with modern valve technology. This mineral oil provides low oil consumption, excellent rust and internal corrosion protection and detergents to maintain engine cleanliness. As a result, optimal combustion and low exhaust emission values are ensured.

Vetus Marine Diesel Engine Oil 15W-40 exceeds the requirements of: API CI-4, ACEA A3/B3, A3/B4, E7, MB 228.3/229.1, MAN M3275, Volvo VDS-3, Cummins CES 20071 / 20072 / 20076 / 20077, CAT ECF-1.

Part No	Vetus	Description
56742	VMD151	Diesel Oil Sae 15W-40 1 Litre
56743	VMD154	Diesel Oil Sae 15W-40 4 Litre

Vetus Marine Diesel Synthetic Engine Oil 10W-40

This state of the art engine oil is recommended for the new generation marine diesel engines, ensuring low fuel and oil consumption, optimum protection against wear and tear and corrosion and a long service life. The product is ideal for use in diesel engines with very low exhaust gas emissions, in combination with modern low sulphur fuels. Vetus Marine Diesel Synthetic Engine Oil 10W-40 exceeds the requirements of: API CF/SL; ACEA A3/B4, E4, E7; MB 228.5/229.1; MAN M3277CRT; VW 505.00; Volvo VDS-2

Part No	Vetus	Description
56745	VMD101	Synthetic Engine Oil 10W-40 1 Litre
56746	VMD104	Synthetic Engine Oil 10W-40 4 Litre

Vetus Special Gearbox Oil 80W-90

This is recommended for use in bow thruster drive legs, anchor windlass gearboxes and outboard motor drive legs if compliant with the manufacturer's specifications. This oil contains additives which offer full protection against wear and tear, as well as metal to metal contact which may occur under extreme loadings. It has excellent anti-corrosion properties and resistance to ageing. May be mixed with other API GL4 and GL5 oil types. Vetus Special Gearbox Oil exceeds the requirements of: API GL-5, SAE 80W-90

Part No	Vetus	Description
56748	VBT05	Special Gearbox Oil 80W-90 500ml

Vetus Hydraulic Steering Oil HF15

This is a low viscosity oil for hydraulic steering systems with optimum results at all temperatures. This oil has a very low coagulation point and a very high viscosity index. May be mixed with other hydraulic mineral oils.

Specification
 Viscosity: 22 cSt at 20° C.
 Viscosity index: 353
 DIN 51524
 Colour: green

Part No	Vetus	Description
56752	VHS1	Hydraulic Steering Oil 1 Litre

Vetus Transmission Oil 80W-90

This is suitable for all types of marine transmissions which specify Automatic Transmission Fluid (ATF) Dextron IID or ATF Suffix A. This oil contains additives which protect the internal metal parts of the transmission against corrosion and wear, even at high operational temperatures. It is also suitable for hydraulic systems, for which this oil quality is specified. May not be used in applications where API GL4 or GL5 are specified. Vetus Transmission Oil exceeds the requirements of: Dexron IID ZF TE-ML-03D/04D/11A/14A/17C GM Dexron IID
 Colour: red.

Part No	Vetus	Description
56750	VTF1	Transmission Oil 80W-90 1 Litre

Vetus hydraulic oil (HLP ISO-VG46).

Hydraulic oil is an oil for all power hydraulic systems. The product has particularly high EP and corrosion resistance properties.

Part No	Vetus	Description
56754	VHT1	Hydraulic Oil 1 Litre

Marinised Morendo

Diesel 'Bug' Killer & Fuel Treatment additive specifically for marine craft, boats and yachts.

Part No	Description
61554	1 Litre

The FUELSAFE overcomes the risk of fuel theft simply and cheaply by making it impossible to insert a siphon hose into the tank through the filling hose.

55 x 72 Height x Width (mm)
 Internal Hose Diameter (38mm or 51mm)

Part No	Vetus	Description
56326	FUELSAFE	Fuel Antitheft Device

Starbrite PG Anti-Freeze 3.78L

Star brite® -50°F (-46°C) Non-Toxic Antifreeze provides excellent cold weather and corrosion protection for drinking water systems and all engines. Its premium additive package prevents corrosion of aluminium, copper, brass and solder, but will not harm rubber, seals or hose materials. The 3X-dyed bright pink colour provides excellent blow-through visibility. Formulated with virgin, non-toxic USP-grade ingredients. It contains no alcohols. This product is ready-to-use; do not dilute it.

Part No

63059

3M™ Maintenance Sorbent Pad (Sold Individually)

High Capacity, 15 in x 20 in. Oil Absorbent Sheet 40cm X 52cm

For use on most non-aggressive liquids. Highly absorbent, low profile design. Perfect for placing in, under, and around machines. This high capacity sorbent has a scrim on one side to increase strength and help eliminate linting. This conveniently sized pad allows the user to quickly spread sorbent on and in the path of a spill.

11762	8mm Fuel Primer Bulb
11763	10mm Fuel Primer Bulb

Soft Motor Flusher

Rectangular motor flusher with hose adaptor. Moulded rubber PVC on 8mm painted steel handle. Helps extend engine life by preventing corrosion by standing sea water, sand and silt. Designed for outboard engines with side water inlets. No tools required.

Part No Description

76164 Motor Flusher (Soft)

De-ionised Water

De-ionized water is produced by passing feed water over an ion-exchange medium, which electrolytically removes charged contaminants and exchanges them for hydrogen ions and hydroxyl ions, which combine to produce water.

Part No	Description
63056	De-Ionised Water 1 Litre
63058	De-Ionised Water 5 Litre

Blue Star Antifreeze based on mono-ethylene glycol, containing corrosion inhibitors designed to give protection down to -36°C to 50% dilution.

When mixed with water the anti-freeze can be used as a factory fill or a service "top-up" coolant for suitable engine cooling systems, designed for a life of 2 years.

Part No	Description
63060	Anti Freeze 1 Litre
63061	Anti Freeze 2 Litre

Heavy Duty Motor Flusher

Heavy Duty, Twin Sided, Rectangular motor flusher with hose adaptor. Moulded rubber PVC on 8mm painted steel handle. Helps extend engine life by preventing corrosion by standing sea water, sand and silt. Designed for outboard engines with side water inlets. No tools required.

Part No	Description
76154	Motor Flusher (Heavy Duty)

Brass Stern Gland Lubricator

Brass lubricator for stern tubes, rudder bearings etc. Bulkhead or floor mounted. Capacity: 150ml, Outlet 1/8" BSP.

Part No	Description
91745	Stern Gland Lubricator

Stern Gland Lubricator Kit

An accessory kit is also available which contains 2 X 1/8" BSP connectors, 1 X 1/4" BSP connector and 3m of nylon hose

Part No	Description
91746	Stern Gland Lubricator Kit

Part No	Description
76152	Brass Oil Change Pump 300mm long

Jerry Can 5L, 10L , 20L

Specially developed for carriage and storage of drinking water

Strong and lightweight

Rectangle shape with carry handle

Part No	Capacity
91510	5 Litres
91505	10 Litres
91500	20 Litres

Red Fuel Jerrycans

Heavy-duty jerrycan for diesel or petrol which includes a swivelling pouring spout. Don't leave close to heat source. In case of very hot temperature, don't fill the tank more than 3/4.

Part No	Capacity
91718	10 Litres
91719	20 Litres

Draper syphon pump

Manufactured from plastic, the pump is a useful item for transferring a wide variety of inert liquids. Inlet pipe 390mm long; outlet pipe 400mm long. Display packed.

Part No
90558

Heavy Duty Rugged Jerrycans

Very heavy and rugged tanks. The smart nozzle has the following characteristics: - Lid with kid-safe closure. - Nozzle inside the tank when not in use. - Closure valve to overturn the tank and start delivery only when the nozzle is stuck into the deck plug. - Nozzle with vent for regular and spray-free flow.

Part No	Capacity
91511	5 Litres
91512	10 Litres
91513	20 Litres

Bell Tetra Cans

Robust 5 Litre fuel cans with square-sided design.

Comply with S.I. 1982/630.

Part No	Description
91715	5 Litre Red (Petrol)
91716	5 Litre Green (Unleaded)
91717	5 Litre Black (Diesel)

45382	2" X 3" (51 X 76mm)
45392	2 1/2" X 4" (64 X 102mm)

(Sold Each)

Special stainless steel extra strength hinges, mirror polished finish, suitable for engine trunks and heavy duty usage.

Part No	Description
96280	130mm Long x 90mm Wide x 2.5mm Thick

(Sold Each)

Special stainless steel extra strength hinges, mirror polished finish, suitable for engine trunks and heavy duty usage.

Part No	Description
96283	110mm Long x 45mm Wide x 2.5mm Thick

(Sold Each)

Mirror Polished Stainless Steel Rectangular Hinge 60 x 30mm

Part No	Description
96287	60mm Long x 30mm Wide x 1.3mm Thick

Type A

Stainless Steel Top Pin Hinge

High quality cast polished AISI 316 stainless steel.

4mm thickness.

Type A

180° opening.

(Sold Each)

Part No	Description
96290	Hinge A 180° 66 x 66mm

Type B

Stainless Steel Underpin Hinge

High quality cast polished AISI 316 stainless steel.

4mm thickness.

Type B

95° opening.

(Sold Each)

Part No	Description
96291	Hinge B 95° 66 x 66mm

Type C

Stainless Steel Smooth Stud

High quality cast polished AISI 316 stainless steel.

4mm thickness.

Type C

95° opening.

(Sold Each)

Part No	Description
96292	Hinge C 95% 66 x 66mm

152 x 29mm Strap Hinge

Cast hinges "long wing" made of mirror polished stainless steel. 5mm thickness.

Part No

96288

Heavy Duty Cast Hinge – 40 x 64mm

Top Pin, Countersunk – 40mm x 64mm. Top pin (hinge opens 180 deg.),

Part No

96552

70mm x 40mm Hinge AISI 316 Stainless Steel

Made of precision cast mirror polished AISI316 stainless steel, very sturdy, 4mm thickness.

Part No

95990

Type D

Type A

Type B

Stainless Steel Top Pin Stud
 High quality cast polished AISI 316 stainless steel.
 4mm thickness.
 Type D
 180° opening.
 (Sold Each)

Part No	Description
96293	Hinge D 180° 66 x 66mm

Stainless Steel Top Pin Hinge
 High quality cast polished AISI 316 stainless steel.
 4mm thickness.
 Type A
 180° opening.
 (Sold Each)

Part No	Description
96294	Hinge A 180° 76 x 40mm

Stainless Steel Underpin Hinge
 High quality cast polished AISI 316 stainless steel.
 4mm thickness.
 Type B
 95° opening.
 (Sold Each)

Part No	Description
96295	Hinge B 95° 76 x 40mm

Type C

Type D

Type A

Stainless Steel Smooth Stud
 High quality cast polished AISI 316 stainless steel.
 4mm thickness.
 Type C
 95° opening.
 (Sold Each)

Part No	Description
96296	Hinge C 95° 76 x 40mm

Stainless Steel Top Pin Stud
 High quality cast polished AISI 316 stainless steel.
 4mm thickness.
 Type D
 180° opening.
 (Sold Each)

Part No	Description
96297	Hinge D 180° 76 x 40mm

Stainless Steel Top Pin Hinge
 High quality cast polished AISI 316 stainless steel.
 4mm thickness.
 Type A
 180° opening.
 (Sold Each)

Part No	Description
96298	Hinge A 180° 83 x 65mm

Type B

Stainless Steel Top Pin Hinge
 High quality cast polished AISI 316 stainless steel.
 4mm thickness.
 Type B
 95° opening.
 (Sold Each)

Part No	Description
96299	Hinge B 95° 83 x 65mm

Type C

Stainless Steel Top Pin Hinge
 High quality cast polished AISI 316 stainless steel.
 4mm thickness.
 Type C
 95° opening.
 (Sold Each)

Part No	Description
96300	Hinge C 95° 83 x 65mm

Counter Hinge SS AISI 316
Cast mirror-polished AISI316 stainless steel hinges. 5mm Thick.
(Sold Each)

Part No	Description
48090	38 x 74mm Counter Hinge

Skylight Hinge SS AISI 316
Cast mirror-polished AISI316 stainless steel hinges. 5mm Thick.
(Sold Each)

Part No	Description
48092	38 x 100mm Skylight Hinge

Short Side Door Hinge SS AISI 316
Cast mirror-polished AISI316 stainless steel hinges. 5mm Thick.
(Sold Each)

Part No	Description
48094	38 x 57mm Short Side Door Hinge

Short Side Door Hinge SS AISI 316
Cast mirror-polished AISI316 stainless steel hinges. 5mm Thick.
(Sold Each)

Part No	Description
48096	39 x 74mm Short Side Door Hinge

Stainless Steel Backflap Hinges (Sold Each)

Part No	Length X Open Width
45482	38mm X 70mm

Stainless Steel Removable Pin Backflap Hinges

Made in stainless steel, mirror polished, with special grease to guarantee a soft movement.

(Sold Each)

Part No	Description
96284	72mm Long x 38.5mm Wide x 2.5mm Thick

Backflap Hinge (Sold Each)

Reversed Pin

Made of mirror polished stainless steel. Vibration damping by means of a braked central axle. 2mm Thick.

Part No	Description
45494	74 x 37mm

Backflap Hinge (Sold Each)

Central Pin

Made of mirror polished stainless steel. Vibration damping by means of a braked central axle. 2mm Thick.

Part No	Description
45495	74 x 37mm

Stainless Steel Foldable Hinge

Made in stainless steel mirror polished, useful for tables. Casted central part.

(Sold Each)

Part No	Description
96281	76mm long x 38mm Wide

137 x 39mm Stainless Steel Hinge

Made of mirror polished stainless steel. Vibration damping by means of a braked central axle. 2mm thickness. sold each.

Part No

95991

Hidden Hinge

Hinges for built-in doors, 180° opening. Satin finish. Can hold up to 10kg.

Part No	Description
96465	53mm Hidden Hinge Pack of 2

Stainless Steel Foldable Hinge

Made in stainless steel mirror polished, useful for tables. Casted central part.

Part No Description

96282 84mm long x 30mm Wide

Stainless Steel Hinge
2mm thickness
(sold each)

Part No	Description
96286	95mm Long x 39mm Wide

Strap Hinge
(sold each)

Part No	Description
45483	Strap Hinge SS 129mm x 40mm

Skylight Hinge
(sold each)

Part No	Description
45484	Length 180mm x 40mm Width

White Nylon Butt Hinges (Sold Each)

Part No	Length X Open Width
45685	2 1/2" X 1 5/8" (64 X 41mm)
45686	3" X 1 7/8" (76 X 48mm)

Nylon Backflap Hinges (Sold Each)
Made of reinforced nylon.
White Hinge.

Part No	Description
96285	54mm Long x 38mm Wide

Nylon Counter Hinges (Sold Each)
Made of reinforced nylon.
White Hinge.

Part No	Description
96336	65 x 40mm
96337	98 x 65mm

Brass Door Handles
A pull handle which can also be used as a sash handle.

Part No	Length
45468	5" (127mm)

Traditional Chromed Brass Handle 165mm
Made of chromed brass, slender and practical design, 2-screw mounting. 165 x 35 x 45mm

Part No
23040

185mm Streamlined Handle Stainless Steel 316
Made of mirror-polished AISI316 stainless steel. Length 185mm. Height 29mm. Will accept 6mm thread.

Part No
23043

125mm Sierra Drawer Handle
Made of mirror-polished AISI316 stainless steel. Length 125mm. Height 17mm.

Part No
23044

Soft PVC Handle 250mm
Internal part reinforced with stiff plastic. Hidden fastening screws. Length 250mm. Height 60mm. Centre Distance 195mm. Bore Ø 7mm.

Part No	Description
23041	White Soft PVC Handle
23042	Grey Soft PVC Handle

Delux pull handle

The rotary opening system provides a large and ergonomic grip in a reduced space

Deluxe Pull Handle
Small stainless steel handle. The rotary opening system provides a large and ergonomic grip in a reduced space. For recess-fit mounting. Fitted with anti-vibration closing system.

Part No
96563

25/32mm Stainless Steel Spring Clip (sold each).

Suitable for holding boat hooks or fishing poles.

Part No

Battery Powered

NAVISAFE

Navisafe 360 Degree All Round White (Battery Powered)

The Navilight 360° 2NM – US Coast Guard approved for 2 nautical miles it is the most versatile light of Navisafes range of battery operated portable navigation lights and includes a 360° All-round light, 225° Masthead light, 135° Sternlight, Flashing light, Anchoring light and a Cabin light. It uses super bright LED light, is water proof, floats and attaches almost anywhere through its double magnetic mounting system .

Part No

70355

Navisafe Tri Colour Light (Battery Powered)

The Navilight Tricolor 2NM – US Coast Guard approved for 2 nautical miles it includes a green light to be shown at the star-board side and a red light to be shown at the port side. In addition, it includes the white Sternlight, to be used at the stern. It is battery operated, uses super bright LED light, is water proof, floats and attaches almost anywhere through its double magnetic mounting system. The green as well as the red lights show an unbroken light over an arc of the horizon of 112,5 degrees. The white Sternlight shows an unbroken light over an arc of the horizon of 135 degrees. All lights work independently, in a combination of all three or red/green together

Part No

70356

Navisafe Clamp On Rail Mount

Designed to allow secure mounting of the Navi lights with magnetic base to the bow pulpit or stern rail.

Part No

Mycro 400 Lumens Rechargeable Headlamp

The NEBO® Mycro Headlamp & Cap Light is a rechargeable, hands-free, 400 lumen lighting solution. The integrated tilt feature allows you to position the beam exactly where you want it. Mycro Headlamp features dual green and red LED chips, with a direct-to-red feature for stealth viewing. Micro USB to USB charging cable included. Powered by rechargeable battery (included).

Part No

70494

Einstein 1500 Lumens Flex Rechargeable Headlamp

The Einstein™ 1500 FLEX Headlamp by NEBO is a low-profile, compact 1500 lumen headlamp with 5 light modes featuring flex power. Use the included rechargeable battery or 2 x CR123A batteries. Powered by 1x Li-ion 18650 2200mAh 3.7v or 2xCR123A batteries .

Part No

70497

Omni 3000 Lumens Foldable Rechargeable Worklight

The OMNI 3K is the ultimate, omni-directional work light that boasts a powerful 3,000 lumen, Dual C•O•B output with a red hazard feature. The OMNI 3K features an adjustable, magnetic handle to provide convenient carry, magnetic attachment or a sturdy base for hands-free light. Each C•O•B panel rotates to give light everywhere that you need it, and the dimmer controls give you the right amount of light. Completely rechargeable, the OMNI 3K also features a 4000mAh power bank to charge your USB powered devices. Powered by integral rechargeable battery (Recharge time: 2 - 8 hours).

Part No

70495

Compact Sub Extreme Underwater LED Torch

Fitted with high-efficiency white Luxeon LED, it generates a light cone efficient up to 30 metres deep. Two operating modes: full light and SOS flash with built-in safety lock.

Watertight up to 30m. Lumen 240. Range 163m. Duration 4h - full light. Duration 26h - flash. 44x166mm. Battery included 4 AA.

Part No

70491

Luxtreme SL25R Rechargeable Spotlight

The LUXTREME SL25R Spotlight by NEBO is a compact, rugged, rechargeable spotlight with long 1/4 mile beam distance. Ideal for outdoor use where lighting subjects at extreme distances is required. 500 lumen white LED features multiple modes + lockout. Innovative reflector design allows for a simultaneous extraordinary beam distance but also a useful flood pattern at close range. Integrated COB allows for additional wider white flood than with just the center spot and an additional red flood mode. Select dial with trigger allows for easy mode selection with separate button for activation. Smart Power Control allows the product to seamlessly transition through the different light modes. Ergonomic design is comfortable and versatile, with integrated magnetic base, belt clip, tripod mount, and carry lanyard. Features durable IP67, rubber, and aircraft aluminium construction. Rechargeable battery provides long run times.

Part No

70498

Luxtreme SL50 Rechargeable Spotlight

The LUXTREME SL50 Spotlight by NEBO offers extraordinary beam distance and close range flood pattern in an ergonomic and rugged design. In high mode, the LUXTREME SL50 blasts light up to 800 meters or half a mile away! It's USB rechargeable, has an IP67 waterproof rating, a 40-hour run-time, and much more.

Part No

70499

Osculati Extreme Plus Watertight LED Torch

Fit with Cree XRE high-efficiency LEDs, watertight up to 1 m. Three operating modes: full light, low light, flash. Lumen/Candles - Full light 820/87000. Watertight up to 1m. Range 590m - Full light. Range 140m - Half light . Battery 4 C (not included).

Part No

70490

Bremen Halogen Search Light

Watertight, portable searchlight with Morse capability. 12V 50W. On/off switch, 3 metre cable (2 x 0.75mm²). Sealed beam is included.

Part No

70258

Bremen LED Search Light IP68

A high-quality, watertight, hand-held search light with morse capability and on/off switch. Comes LED bulbs suitable for 12v or 24v power supply. Housing: High quality, impact & shock resistant rubber. Non-corrosive. Non-magnetic Electrical: 3m pigtail cable included (2 x 0.75mm²)

Part No

70488

Hella 12/24V Hand Held Search Light 2500 Lumens

Spiral cable with cigarette plug (3.5m). 30W. IP6K9K, IP6K8 (Completely sealed). 83mm lens size. Rugged construction and a new Corosafe coating system is specifically designed for the harsh marine environments so ideal for Coast Guard, fishing vessels, sailing boats and all types of recreational and commercial vessels.

Part No: 69769 Hand Held Search Light

Part No: 69770 Deck Mount

Our best rated antifoulings

hempelyacht.com

Primer Undercoat - Single Part Primer

A single component primer for all substrates (including steel) above the waterline and an undercoat for Brilliant Gloss/ Multicoat/Non Slip Deck Coating. A quick-drying, high-opacity primer and undercoat, that gives excellent durability and surface stability ready for overcoating with single component topcoats.

Suitable Thinners: No. 1 (811)

Coverage: 12m² / L

Colour	750ml	2.5L
Mid Grey	65955	65960
White	66025	66030

Underwater Primer - Antifouling Primer

Use as part of a single component system below the waterline, including keels; and as a tiecoat before antifouling. Can be applied directly onto the hull or primed surface, and between an existing antifouling and a new antifouling. Fast-drying with excellent waterproofing. For use on all substrates.

Suitable Thinners: No. 1 (811) Brush

Coverage: 7.8m² / L

Colour	750ml	2.5L
Grey	66322	66323

Ecopower Prop Aerosol

Biocide free spray paint that keeps propellers, outdrives and sterngear free from fouling and making it very easy to clean.

An advanced binder technology controls the self-renewing effect throughout the season.

Coverage: 1.3m² / L

500ml	Colour
65474	Prop Primer Stone Grey
65475	Ecopower Penta Grey
65480	Ecopower Black

Light Primer - Two Part Epoxy Primer

A two component high performance epoxy primer and undercoat for use both above and below the waterline. Use on glass fibre, wood, steel and aluminium. Superb corrosion, impact and water resistance. Use before Ocean Gloss/Brilliant Gloss topcoat for a long lasting solution. Can also be used for osmosis protection when application is required at low temperatures.

Suitable Thinners: No. 5 (845)

Coverage: 8.2m² / L

Colour	375ml	750ml	2.25L
Off-white	66568	66566	66567
Grey	-	66570	66575

High Protect II

High build, solvent free epoxy coating for the treatment of, and protection against, osmosis. Available in two shades for overcoating accuracy.

Suitable Thinners: No. 5 (845)

Coverage: 6.6m² / L

Colour	750ml	2.5L
Grey	66540	66545
Cream	66550	66555

Hempel's Epoxy Sealer 599

A two component epoxy-polyamide with low viscosity and good penetration ability. For saturation of glass fibre laminate, when gel coat has been removed (repair of osmosis damage). For priming of ferro-cement boats and boats made of wood that can absorb the sealer.

Suitable Thinners: No 5 (845)

Coverage: 10m² / L

750ml

66452

130ml Hempel Epoxy Filler (2pack)

A two component, solvent free, epoxy filler. Use for a variety of filling and fairing jobs both above and below the waterline. Can be applied in thick coats up to approximately 5mm thick without runs or sags. Fair before over coating with relevant primer. Tool Cleaner: Hempel's Degreaser .

Part No

66450

Profair Epoxy Filler

A light weight two-component, epoxy filler, featuring high adhesion and water resistance, which when fully cured is easy to sand. Can be applied to a film thickness up to 25 mm without sagging. As a filler and fairing compound, especially suitable for profiling large areas and detailed fairing where structural strength and flexibility is required. It can be used on most primed rigid substrates, above and below the waterline.

750ml

67381

Pro Filler

ProFiller is a two-component, lightweight epoxy filler, featuring high adhesion and water resistance, When fully cured it is easy to sand. Can be applied in coats up to 10 - 12mm for a uniform smooth finish.

5 L

66576

Hempels Paint Stripper - 2.5 L

Highly effective solvent based paint remover, making it easier to remove old paint and antifouling.

Part No

67051

Brilliant Gloss

Brilliant Gloss is a high gloss alkyd topcoat with excellent colour retention. Flexible and resistant to salt water and pollutants. Easy application ensures an exceptional finish. For exterior and interior use above the waterline.

Suitable Thinners: No. 1

Coverage: 11m² / L

Anti-Slip Pearls 50g Sachet

Anti-Slip Pearls can be added to all types of paint where a non-slip surface is required. Mix with Hempel's topcoats and varnishes to obtain non-slip finishes on decks and surfaces where required.

66250

Hempel Anti Slint

2.5ltr

Hempel's Anti-Slint 67500 is flame dried silica sand of which the average particle size is approximately 0.5 millimetres. To obtain anti-skid properties on decks and other areas where a skid-proof surface is required.

66251

MultiCoat

A single component semi-gloss topcoat and primer. Ideal for all areas above the waterline requiring a semi-gloss durable topcoat. Can be applied directly to most surfaces. Provides excellent durability with good resistance to water and oil. Can also be used as a complete coating system on new or bare wood: 1st coat thinned 20%, 2nd Coat thinned 5-10%, further coats undiluted. Add Anti-Slip granules for a non-slip finish. Suitable Thinners: No. 1

Hempel Alu Prop NCT Aluminium Boat Antifouling

Hempel's Alu Prop NCT is high performance, self-polishing antifouling. Hempel's patented binder technology ensures outstanding fouling protection and colour retention all season. Especially suited for aluminium boats.

Bright, clean colours make it a good choice for ALL below waterline areas including sterngear and propellers. Excellent mechanical strength for superior crack resistance. For use as an antifouling for boats of glass fibre, wood, plywood, steel and aluminium vessels. Ensure aluminium substrates are suitably primed.

Hempel 2.5L Aluxtra White Self Eroding Antifouling

Aluxtra is a selfpolishing antifouling for propellers and stern gear, medium strength, suitable for most substrates including aluminium.

Colour	2.5L
White	67382

Hempel Classic Antifouling Black 5L

Hempel Classic Antifouling 5Ltr is a soft, tin free antifouling which can be used on boats of glass fibre, wood, plywood, steel and ferr-cement with a speed below 15 knots. A high quality antifouling from a brand leader, it's set at a great price, making it a superb budget option. An antifouling of the soluble matrix type, it's highly effective in both cold and temperate waters. Please be aware that changes to final colour after approximately 1 week of exposure to water. Recommended for use with Thinners no. 3 Gives coverage per litre of 11.2m².

Colour	5L
Black	67425

Hempel Mille NCT (DIY)

This antifouling is the new replacement for Hempel Ocean Performer. Mille NCT is a high performance self-polishing antifouling based on Hempel's patented binder technology, where the self-polishing is controlled by sea waters interaction with the binder. The powerful bioactive mixture and self-renewing effect results in a sustained antifouling protection. So it is ideal for areas with high fouling. Suitable for use on all substrates except aluminium.

Suitable thinners: Thinners No. 3
Coverage: 13m² / L

Globic 6000 Rusty Red

A high solids chemically hydrolysing SPC antifouling based on Nano Acrylate Technology. Globic 6000 offers low friction, self-smoothing, and a best-in class instant activation of polishing and performance for optimal performance from day one. The patented microfibres give Globic 6000 a best-in-class mechanical strength to avoid cracking and peeling. For both new builds and maintenance of underwater hull and boottop for up to a 60 months drydocking interval.

Suitable thinners: Thinners No. 08080
Coverage: 5.8m² / L

Colour	20L
Rusty Red	67398

Classic Antifouling - 76110

Hempel's Antifouling Classic 76110 is an antifouling of the "soluble matrix" type.

Use as an antifouling from keel to light load line on ships trading mainly in cold and temperate waters with short idle periods.

Suitable thinners: Thinners No. 08080
Coverage: 11.2m² / L

Colour	5L
Rusty Red	67399

Olympic Antifouling

Olympic 86951 is a high solid, tin-free, self-polishing antifouling. Polishing is based on an ion exchange, resulting in a hydrolysable activated layer. An inorganic fibre content ensures polishing control and mechanical strength.

Use as an economical antifouling for bottom and boottop on deep-sea operating vessels operating at medium to high speed and high activity with short idle periods, and with dry-docking interval of up to 36 months.

Suitable thinners: Thinners No. 08080
Coverage: 11.2m² / L

Colour + Size	Part no
Rusty Red 20 Litre	67396

Paint can be thinned to improve its flow characteristics and to increase its ability to be absorbed. Care should be taken not to exceed the maximum ratio of thinners as this can adversely affect the product you are applying. When paint is thinned, the spreading rate will increase and the paint will be easier to work with. On the other hand, the dry film thickness will be thinner when the solvents have evaporated and it may be necessary to apply another coat to obtain the required film thickness.

It is important that the correct thinner is used for each application - failure to do so will result in a ruined job.

No 1 - Single component primers, topcoats and varnishes

No 2 - Brush application. Two component polyurethane paint and varnish.

No 3 - Antifouling, non slip deck coating and spray thinner for topcoat.

No 5 - Light Primer

No 6 - Spray application. Two component polyurethane paint and varnish.

Degreaser - 750ml

A blend of strong solvents for the cleaning of tools that have been used for mixing or application of two component epoxy products. It has better cleaning properties than epoxy thinners. Recommended use: for cleaning of brushes, paint rollers, spray equipment and other tools which have been used for the mixing or application of Hempel products.

Part No

67050

Pre-Clean - 1 Litre

High strength cleaner and degreaser for pre-cleaning gelcoat and painted surfaces to remove fuel, oil, grease, wax and silicone.

Part No

67130

Favourite Varnish

A single component alkyd based, full bodied, high gloss varnish. For use above the waterline, both inside and outside.

Especially easy to use, giving a tough, durable, long lasting finish, with depth of gloss. Ideal for areas where structural flexibility of the wood is needed.

Suitable Thinners: Thinners No. 1
Coverage: 16m² / L

750ml 2.5L

66489 66494

Classic Varnish

A single component traditional varnish produced from the highest quality materials, including tung oil. Use inside and outside above the waterline. Excellent flow at application, a flexible finish and long term UV filters ensure an uncompromising finish that will last for a long time.

Suitable Thinners: Thinners No. 1
Coverage: 18m² / L

750ml 2.5L

66538 66539

Dura-Gloss Varnish

A single component, urethane modified alkyd with excellent resistance to alcohol and cleaning materials. For inside and outside areas above the waterline requiring a beautiful durable finish.

Quick drying to an extremely hard and durable high gloss surface, highly resistant to wear and abrasion within hours of application.

Suitable Thinners: Thinners No. 1
Coverage: 17m² / L

750ml

66511

Dura-Satin Varnish

A single component, urethane modified alkyd with excellent resistance to alcohol and cleaning materials. For inside and outside areas above the waterline requiring a beautiful durable finish. Quick drying to an extremely hard and durable high satin surface, highly resistant to wear and abrasion within hours of application.

Suitable Thinners: Thinners No. 1
Coverage: 17m² / L

750ml

66536

Teak Oil - 750ml

Unpigmented teak oil with good penetration to protect wood and make it easier to clean. Helps wood resist both water and dirt, and underlines its original structure. Use to overcoat Teak Colour Restorer on areas of high usage. Not suitable for use on painted or varnished surfaces.

Part No

66373

Teak Cleaner - 750ml

A powder for cleaning all teak areas. Especially good for large areas such as decks, and for wood that's turned dark grey. Removes dirt and marks giving a clean surface ready for you to apply Teak Oil.

Part No

66374

Alu Protect - 500ml

A silicone-free oil, for cleaning and protecting metal rigging and fittings. For cleaning and protecting aluminium masts and booms, steel and stainless steel rigging and fittings. Penetrates into wire ropes and under fittings, ensuring long-term protection.

Part No

67245

Wax TecCel - 500ml

High performance liquid wax with TecCel technology, for a long lasting, deep gloss, tough protective finish on gelcoat, painted and varnished surfaces.

Part No

67247

Hempadur 45143 is a two-component, polyamide adduct cured epoxy paint with good wetting properties and low water permeability. It is selfpriming and forms a hard and tough coating which has good resistance against abrasion and impact as well as to seawater, mineral oils, aliphatic hydrocarbons and splashes from petrol and related products. Harmless to grain cargoes. 1. As a high build primer, intermediate and/or finishing coat in (heavy duty) paint systems according to specification. (As a finishing coat where a cosmetic appearance is of less importance). 2. For repair and maintenance work at application temperatures above -10°C/15°F on hatch covers, decks, in cargo holds, etc. 3. As a ballast tank coating. Hempadur 45143 is intended for use in cold/temperate climates, Hempadur 45141 is used for warmer climates.

Hempalin Enamel 52140 is a glossy alkyd enamel which forms a weather resistant coating. It is flexible and resistant to salt water and spillage of mineral oil and other aliphatic hydrocarbons.

A general purpose finishing coat in alkyd systems on exterior and interior steel and woodwork in mildly to moderately corrosive environments. Use as a finishing coat in engine rooms including tank tops, main engines and auxiliary machinery.

Colour	5 L
RAL Colours	67297

Hempathane HS 55810

Hempathane HS 55810 is a two-component polyurethane topcoat, cured with aliphatic isocyanate, with very good gloss and colour retention.

Use as a low VOC finishing coat for protection of structural steel in severely corrosive atmospheric environments.

Suitable thinners: Thinners No. 08080
Coverage: 16.3m² / L

Colour	5L
RAL Colours	67402

Hempinol Bitumen Black Tar Varnish
Narrow Boat Blacking

Hempinol is a physically drying, high-build, bituminous coating and is flexible, water resistant and rust preventing. An economical corrosion protection of interior and exterior steel and concrete substrates in moderately corrosive environments, not exposed to direct sunlight. Well suited for steel and concrete surfaces buried in subsoil conditions.

4L Black Tar Varnish
66430

Hempel's Tool Cleaner 99610
(Gunwash)

A blend of strong solvents for cleaning of tools that have been used for mixing or application of two-component epoxy products. It has better cleaning properties than epoxy thinners. Does not contain chlorinated solvent.

For cleaning of brushes, paint rollers, spray equipment, and other tools which have been used for mixing or application of Hempadur products.

Do not use as thinner for any paint.

Colour	5L
Clear	67401

Epifanes Multi Marine Primer "All-in-one-primer"

A one-part multi purpose tie-coat or sanding and adhesion primer for above the waterline combining all characteristics of separate substrate primers in one.

Suitable Thinners:

Brush - Epifanes Brush Thinner

Spray - Epifanes Spray Thinner

Coverage: 8 -10m² / Litre

Substrates: Wood, fibreglass, steel, stainless steel, aluminium, galvanized metal, copper and most other bare or painted substrates.

Part No	Description
69310	Multi-Marine Primer White 750ml
69311	Multi-Marine Primer White 2 Litre
69312	Multi-Marine Primer Grey 750ml
69313	Multi-Marine Primer Grey 2 Litre
69314	Multi-Marine Primer Red brown 750ml
69315	Multi-Marine Primer Red brown 2 Litre

Epifanes Undercoat

A one-component primer and undercoat based on a urethane/alkyd resin. For use in a one-component paint system above the waterline. Suitable for interior and exterior use. Recoatable with all Epifanes one-component products.

Suitable Thinners:

Brush - Epifanes Brushthinner

Spray - Epifanes Spraythinner

Coverage: 8 -10m² / Litre

Substrates: Fibreglass/ GRP, wood , steel & aluminium

Part No	Description
69320	Undercoat White 750ml
69321	Undercoat White 2 Litre
69322	Undercoat Grey 750ml
69323	Undercoat Grey 2 Litre

Epifanes Woodprimer

A traditional one-component primer based on alkyd resins. For use on bare wood, with good filling, building and covering properties. The appropriate primer for wood in one-component paint systems above the waterline. Recoatable with all Epifanes one-component paints.

Application

Wood: bonding primer on bare wood in a one-component paint system above the waterline.

Suitable Thinners:

Brush - Epifanes Brush Thinner

Spray - Epifanes Spray Thinner

Coverage: 8 -10m² / Litre

Substrates: Wood

Part No	Description
69325	Woodprimer White 750ml
69326	Woodprimer White 2 Litre
69327	Woodprimer Grey 750ml
69328	Woodprimer Grey 2 Litre

Epifanes Washprimer AQ

A water-based adhesion primer. For interior and exterior use above and below the waterline. Can be overcoated with all Epifanes one-and two-component products.

Apply one thin coat. Avoid curtains. May be used on degreased and sanded existing aluminium prior to coating with Epifanes Multi Marine Primer.

Coverage: 16m² / Litre

Thinner: Do not thin. Cleaning tools: water

Recoatibility: After 2 hours at 65°F./18°C

Colour: Off white, dries fully transparent

Substrates: Aluminium, zinc coated and galvanized steel surfaces, non-ferrous metals, glass and ceramics.

Part No	Description
69316	Washprimer AQ 500ml
69317	Washprimer AQ 1 Litre

Epifanes HB Coat

High Build Epoxy Primer

Two component high-build epoxy coating based on epoxy resins, used for the maintenance and protection of de-rusted steel, aluminium, wood and properly cleaned and degreased fibreglass.

Suitable Thinners: Epoxythinner D-601

Coverage: 9m² / Litre

Substrates: Fibreglass/GRP, steel, plywood, aluminium.

Part No	Description
69355	High Build Epoxy Light Grey Primer 750ml

Epifanes Polyurethane Primer

A hard two-part semi gloss poly-urethane undercoat. Provides an extremely smooth, pinhole-free surface prior to topcoating with Epifanes high gloss polyurethane. Good flowing properties, very quick drying, medium filling and easy sanding.

Suitable Thinners:

Brush - Epifanes Polyurethane Brush Thinner
Spray - Epifanes Polyurethane Spray Thinner

Coverage: 9m²/ Litre

Substrates: Fibreglass

Part No	Description
69356	Polyurethane White Primer 750grams
69357	Polyurethane Grey Primer 750grams

Epifanes Combi Filler

A traditional one-component knifing filler based on alkyd resins. Suitable for levelling of small irregularities in one-component paint systems for wood or steel above the waterline. Apply in thin layers only (max. 1 mm)

Sandable: After 24 hours at 65°F./18°C. and 1 mm film thickness

Part No	Description
69202	Epifanes Combi Filler Tube 225 Gram
69201	Epifanes Combi Filler Tin 800 Gram

Epifanes Polyurethane Yacht Coating 750grams

A high gloss, two-component, polyester saturated, aliphatic urethane coating. Scratch resistant, excellent outdoor durability and weather resistance. The finish provides a perfect flow and easy application by brush, roller or spray.

Suitable Thinners:

Brush - Epifanes Polyurethane Brush Thinner
Spray - Epifanes Polyurethane Spray Thinner

Coverage: 10m²/ Litre

Substrates: Fibreglass/GRP, steel, wood & aluminium.

Epifanes Nautiforte Yacht Paint

A high gloss one-component finish based on siliconized alkyd resins. This finish provides outstanding weather durability, long lasting gloss retention, rapid wet film drying, minimal dirt retention and is non-yellowing.

Suitable Thinners:

Brush - Epifanes Brush Thinner
Spray - Epifanes Spray Thinner

Coverage: 14m² / Litre

Substrates: Fibreglass, steel, wood & aluminium:

Part No	Description
69300	Nautiforte White 750ml
69301	Nautiforte White 2 Litre
69302	Nautiforte 24 Light Oyster 750ml
69303	Nautiforte 25 Alpine White 750ml

Epifanes Yacht Enamel

A high gloss, one-component, alkyd-based, traditional marine finish. This enamel has very good flowing and covering properties and provides long lasting gloss retention and excellent weather durability.

Suitable Thinners:

Brush - Epifanes Brushthinner

Spray - Epifanes Spraythinner

Coverage: 1 Litre = 15m²

Substrates: Fibreglass/GRP, steel, wood and aluminium.

Epifanes Satin Finish White 750ml

A quick drying one-component semi gloss yacht paint. Provides beautiful semi gloss surface, excellent flow, abrasion resistance and is resistant to alcohol and household chemicals.

Substrates: GRP - Steel - Wood - Aluminium: for interior use with the appropriate Epifanes primers. For exterior use above the waterline, as a semi gloss finish on a high gloss paint system. Also suited as a semi gloss maintenance coat on intact, well-degreased and sanded one- and two- component paint systems.

Suitable Thinners:

Brush - Epifanes Brush Thinner

Recoatibility: After 24 hours at 65°F./18°C

Coverage: 13m² / Litre

Part No	Description
69299	Satin Finish White 750ml

Epifanes Rubbed Effect Varnish

A quick drying, clear interior satin finish, based on urethane/alkyd resin. The interior finish gives superior protection against alcohol and other aggressive household chemicals. Apply as a finish coat over several build-up coats of Epifanes clear gloss varnish or woodfinish gloss.

Suitable Thinners:

Brush - Epifanes Brushthinner

Spray - Epifanes Spraythinner

Coverage: 1 Litre = 13m²

Substrates: Wood

Part No	Description
69192	Epifanes Rubbed Effect Varnish 500ml
69193	Epifanes Rubbed Effect Varnish 1 Litre

Epifanes Clear Varnish UV

A clear, high gloss, traditional yacht varnish based on tung oil, phenol and alkyd resin. Unique flow characteristics, high build capacity and excellent outdoor durability. Contains an extra UV filter protecting the wood against discolouration. Its flexibility prevents cracking on working wood. This varnish is famous for its high gloss retention and long lasting properties, even in tropical climates.

Suitable Thinners:

Brush - Epifanes Brushthinner

Spray - Epifanes Spraythinner

Coverage: 1 Litre = 14m²

Substrates Wood.

Part No	Description
69198	Epifanes High Gloss Clear Varnish 250ml
69199	Epifanes High Gloss Clear Varnish 500ml
69200	Epifanes High Gloss Clear Varnish 1 Litre

Epifanes Woodfinish Gloss UV

A clear, high gloss varnish-like finish, based on alkyd and phenolic resins. Excellent adhesion to degreased and sanded new teak and other exotic woods. For use where a glossy, varnished look is desired. Its microscopic porosity allows the wood to breathe. The UV filter protects the wood against discoloration. Water and weather resistant and excellent outdoor durability. Sanding between coats is not required if the next coat is applied within 72 hours.

Suitable Thinners:

Brush - Epifanes Brushthinner

Spray - Epifanes Spraythinner

Coverage: 1 Litre = 12m²

Substrates Wood.

Part No	Description
69197	Woodfinish Gloss 1 Litre

Epifanes Polyurethane Clear Satin

Polyurethane Clear Satin offers the ultimate in hard, rich satin sheen. Its a two-component clear finish based on unsaturated polyesters. Its recommended for interior use and as a finishing coat over Epifanes Polyurethane Clear Gloss Varnish. Polyurethane Clear Satin has superior flow, gloss and durability. It has excellent resistance to abrasion, weathering, chemicals and loss of gloss. The outstanding flow characteristics make this two-component varnish highly suitable for both brush and spray applications. Application: Brush, Roll (phenolic core) or Spray Dry time at 65F: Dry in 24 hours, recoatable in 24 hours

Suitable Thinners:

Brush - Epifanes Polyurethane Brushthinner
 Spray - Epifanes Polyurethane Spraythinner
 Coverage: 750ml = 10m²
 Substrates Wood.

Part No	Description
69188	Polyurethane Clear Satin 750ml

Epifanes Rapidclear Semigloss/Matt Varnish

A UV semi-gloss or matte wood finish based on modified alkyd/ urethane resins. The answer for a quick and easy alternative to conventional varnish. For long term protection and enhancement of all interior and exterior marine and household woods above the waterline. It bonds extremely well to teak and other oily woods, preventing discoloration and emphasizes the natural grain of the wood. Quick drying, excellent breathing properties, flexibility, maximum durability and longevity.

Suitable Thinners:

Brush - Epifanes Brushthinner
 Spray - Epifanes Spraythinner

Coverage: 750ml = 10m²

Substrates Wood.

Part No	Description
69189	Rapidclear Matt 750ml
69190	Rapidclear Semigloss750ml

Epifanes Polyurethane Clear Gloss UV

A high gloss, two-component polyester saturated, aliphatic urethane finish with excellent outdoor durability. Resistant to weathering, chemicals, scratching and loss of gloss. Outstanding flow characteristics for both brush and spray applications. The UV filter protects the wood from discoloration. Mixing ratio by weight 2 parts component A to 1 part component B. Allow to activate for 10-15mins before use.

Suitable Thinners:

Brush - Epifanes Polyurethane Brushthinner
 Spray - Epifanes Polyurethane Spraythinner

Coverage: 750ml = 10m²

Substrates Wood.

Part No	Description
69191	Polyurethane Clear Gloss 750ml

Epifanes PP Varnish Extra UV

A professional, quick drying, high gloss build up varnish for all types of wood, based on alkyd resin and isocyanate. Recommended sealer for oily wood such as teak and iroco. Resistant to water, alcohol and various household chemicals. Excellent flow and abrasion resistance, superior grain filling and rapid build up. Offers sufficient flexibility for application on working wood (masts). The varnish contains a high quality UV filter, however for exterior use it is advised to overcoat with 2-3 coats Epifanes Polyurethane clear gloss or Epifanes clear gloss varnish for extra UV protection.

Suitable Thinners:

Brush - Epifanes Thinner for PP Varnish Extra or Epifanes PU Brushthinner

Spray - Epifanes Thinner for PP Varnish Extra

Coverage: 1 Litre = 14m²

Substrates: Wood

Part No	Description
69180	Epifanes PP Varnish Extra Fast Dry 10 Litres
69181	Epifanes PP Varnish Extra Fast Dry 2 Litres

Epifanes Woodfinish Matte UV

A clear, satin finish, based on urethane/alkyd resin and tung oil. Provides a beautiful, rich, matte finish for all fine woodworks, like teak and iroco, giving years of protection against alcohol and other aggressive household chemicals,

Suitable Thinners:

Brush - Epifanes Brushthinner

Spray - Epifanes Spraythinner

Coverage: 1 Litre = 12m²

Substrates Wood.

Part No	Description
69196	Woodfinish Gloss Matt 1 Litre

Epifanes Teak Oil Sealer

A traditional impregnating oil, based on linseed oil and alkyd resin. Protects teakwood from discoloration caused by weather or pollutants. Ideal for the maintenance of teak decks. May be applied wet on wet. Degrease wood with Epifanes spraythinner for paint & varnish or denatured alcohol and allow to evaporate. Apply with a wide brush, polybrush or lint free cloth until surface is saturated.

Remove excess material. Attention: due to the possible risk of self ignition, after use always keep cloths soaked in water.

Suitable Thinners: Do not thin.

Coverage: 1 Litre = 7m²

Substrates Teak Wood.

Part No	Description
69195	Teak Oil Sealer 1 Litre

Epifanes Through Drying Agent

A specially formulated, solvent based additive to speed up the through drying of Epifanes traditional one-component paints and varnishes when applied at low temperatures, allowing sanding the next day. Suitable for use with all Epifanes traditional one-component paints, primers and varnishes.

Recommended additions. Application and drying at 8°C. : max. 12% Application and drying at 10°C. : max. 10% Application and drying at 15°C. : max. 5%

Part No	Description
69215	500ml Through Drying Agent

Epifanes Brush thinner for Paint & Varnish

A high quality thinner for brushing or rolling most one-component primers, paints and varnishes. The double distillation of this thinner provides maximum purity.

Part No	Description
69205	Brush Thinner Single Pack 500ml
69206	Brush Thinner Single Pack 1 Litre

Epifanes Poly-urethane Spray thinner

Fast evaporating thinner for spray applications of Epifanes Polyurethane Yacht coatings.

Part No	Description
69211	Polyurethane Spraythinner 1 Litre

Epifanes Spray thinner for Paint & Varnish

Thinner for spray applications of one-component primers, paints and varnishes. Also highly suited for degreasing wood and existing paint and varnish layers.

Part No	Description
69207	Spray Thinner Single Pack 1 Litre

Epifanes Thinner for PP Varnish Extra

Fast evaporating thinner for Epifanes PP Varnish Extra. Also suited for degreasing teak wood.

Part No	Description
69212	PP Varnish Extra Thinners 1 Litre

Epifanes Poly-urethane Brush thinner

A slow evaporating thinner for brushing and rolling Epifanes Poly-urethane Yacht coatings.

Part No	Description
69208	Polyurethane Brushthinner 500ml
69209	Polyurethane Brushthinner 1 Litre

Epifanes Accelerator for Paint & Varnish

A resin based additive for use in traditional one-component, half-synthetic paints and varnishes to speed up the curing process. For interior use, e.g., on chairs, tables, etc., this product can be added up to 50% to Epifanes Clear Gloss Varnish for a harder, more scratch-resistant finish. Do not use with Epi-

Part No	Description
69213	Epifanes Accelerator 500ml
69214	Epifanes Accelerator 1 Litre

AWLGRIP®

Awlgrip Awlwood MA Clear Primer 0.946L Quart

Awlwood MA is an exterior clear system that is made up of a Primer and Clear Finish. By combining the Primer and Clear together, the synergistic effect results in an outstanding performing system that adheres and bonds directly to the wood cellular structure giving extended performance and retaining the same gloss, DOI and natural appearance as first application.

Part No	Description
69352	Awlgrip Awlwood MA Clear Primer 0.946L Quart

Awlgrip Awlwood Gloss MA

Awlgrip Awlwood MA is an exceptional quality single pack exterior wood system consisting of a Primer and Clear Finish. By combining the Primer and Clear together, the synergistic effect results in an outstanding performing system that adheres and bonds directly to the wood cellular structure, giving extended performance and retaining the same gloss, DOI (definition of image) and natural appearance as first application. For exterior, above water-line use only. Professional application using appropriate vapour mask is advised. Features and Benefits High building, fast curing formulation allowing multiple applications per day reducing work time Applicable over a wide range of temperatures and humidity by various methods so the same great result every time Remains highly flexible throughout lifetime of system which allows natural substrate movement whilst giving excellent toughness and abrasion resistance Reducing (Thinning) Brushing: Not usually required. Up to 10% max by volume with T0201 Brushing Reducer if necessary. Spray Up to 10% by volume with T0202 Spray Reducer Intended Use: Professional Use Only

Part No	Description
69350	Awlgrip Awlwood Gloss 0.946L Quart
69351	Awlgrip Awlwood Gloss MA 3.785L Gallon

Awlwood MA Spraying Reducer Quart
T0202 Spray Reducer is a fast evaporating thinner formulated to assist in spray application by reducing the viscosity of Awlwood MA, especially in cold conditions. It can also be used for rinsing OT0200 Brush Cleaner from brushes prior to use with the Awlwood MA products, for rinsing brushes that have become stiff with part cured Awlwood MA and as a surface cleaner between coats if contamination problems occur.

Part No	Description
69353	Awlwood MA Spray Reducer Quart

Awlwood MA Brushing Reducer Quart
Awlwood MA Wood Finish is an exterior coating system for wood that consists of a primer and a clear topcoat, which is available as satin or gloss. The time to job completion is reduced due to the high-build topcoat formula, which allows multiple applications per day. Performance is outstanding, due to the primer's ability to bond directly to the wood cellular structure, which results in extended durability and gloss retention.

Part No	Description
69354	Awlwood MA Brushing Reducer Quart

MARINE PAINTS

NAUTIX

Nautix A3 Yachting Self Polishing Antifouling

A3 Yachting is an ablative antifouling recommended for both sailboats and motorboats travelling at speeds of up to 30 knots. Its formula, optimised for yachting, gives it a high level of effectiveness against fouling. This antifouling is compatible with other products on the market, provided they are in good condition.

Thinner / Cleaner Nautix DA

Coverage 10m²/L per layer

Substrates Polyester, Wood & Steel.

Nautix PO Osmosis Preventive Primer

PO is a high-end osmosis preventive primer, formulated with Desmodur™ resin catalysing by reaction with moisture in the air. The PO primer has strong adhesion and protection capabilities on any substrate. Easy to use, it is recommended for the adhesion of antifoulings in 1 coat or as an osmosis preventative in 5 coats. PO is particularly suited to difficult climatic conditions: cold and damp. It is easy to apply, dries quickly and does not require sanding between 2 coats.

Thinner / Cleaner Nautix DP

Coverage 12m²/L per layer

Substrates Polyester & GRP

Part No	Description
69390	Nautix PO Primer Grey 750ml
69391	Nautix PO Primer Grey 2.5L

Nautix P1 Primer - Universal Primer

P1 is a fast-drying, single-component primer that can be applied to any type of substrate. P1 provides simple adhesion to gelcoat or wood. Easy to use, it can also be used as an interface if there are any doubts about compatibility with your old antifouling. Applied first, primers play an essential role in adhesion or protection through their hardness or barrier effect.

COVERAGE 10m²/L per layer

Thinner / Cleaner DP

Substrates Polyester, Wood & Steel & GRP

Part No	Description
69392	Nautix P1 Primer Grey 750ml
69393	Nautix P1 Primer Grey 2.5L

Nautix DA Antifouling Thinners

DA Thinner can be used with all antifoulings. This product is particularly recommended to facilitate their application and to clean the tools.

DA can be used with all Nautix antifoulings but also the non-slip Deck Grip.

Brush / Roller • 5 to 10% dilution.

Airmix Spray • 15 to 25% dilution

Airless Spray • No dilution or 5% maximum

Part No	Description
69394	Nautix DA Thinner 750ml
69395	Nautix DA Thinner 2.5L

Nautix DP Two Component Thinners

DP Thinner can be used with all two-component topcoats. This product is particularly recommended to facilitate their application and to clean the tools. DP is used in particular with L2 topcoat, VA2 varnish, Nautix Grip anti-slip but also White T.SPEED. It can also be combined with PO, P1, PA and IA primers

Brush / Roller • 5 to 10% dilution.

Airmix Spray • 15 to 25% dilution

Airless Spray • No dilution or 5% maximum

Part No	Description
69396	Nautix DP Thinner 750ml
69397	Nautix DP Thinner 2.5L

VC-Tar2

Osmosis defence for GRP and anticorrosion barrier for metal. Advanced self-levelling formulation requires no sanding between coats. Smooth surface - ideal primer base for antifoulings.

Suitable Thinners: VC General Thinners

Coverage: 12.6m² / L

Substrates: Aluminium, GRP/FRP, Lead, Steel, Carbon Fibre & Cast Iron.

Colour	1L	2.5L
Black	68545	68546
Off White	68547	-

Interprotect

Quick drying, easy to apply, two part epoxy primer. Offers excellent anti-corrosive protection. Can be used as an antifouling tie-coat over existing epoxy primers.

Suitable Thinners: No. 7

Coverage: 9.1m² / L

Substrates: Aluminium, Steel & Wood

Colour	750ml	2.5L
White	68390	68391
Grey	68392	68393

Interprime 820

High performance 2-component epoxy primer containing inert pigments and extenders. Excellent anticorrosive properties. Easy Sanding. Two colours for overcoating Identification.

Thinners: 910

Coverage: 3.6m² / L

Substrates: Aluminium & Steel

Colour	5L	20L
White	68604	68606
Grey	68608	68610

One Up Primer

Replaces Yacht Primer and Pre-Kote whilst still delivering the same levels of adhesion and protection

One UP is a single pack primer/undercoat for use above the waterline with International one-pack finishes and deck paints. Simple yet effective, making painting easier for DIY customers without compromising on aesthetic appearance or substrate protection.

Suitable Thinners: No. 1

Coverage: 10m² / L

Substrates: Aluminium, GRP/FRP, Steel, Wood & Carbon Fibre

Colour	375ml	750ml	2.5L
White	68320	68321	68322
Blue/Grey	-	68323	-

Primocon

Conventional one-part primer for use below water. Quick drying, with anticorrosive properties. Can be used under all major antifouling or as a conversion coat over incompatible or unknown antifouling.

Suitable Thinners: No. 3

Coverage: 8.33m² / L

Substrates: Aluminium, GRP/FRP, Lead, Steel, Wood, Carbon Fibre & Cast Iron.

Colour	750ml	2.5L
Grey	68381	68382

Gelshield 200

A quick drying, easy to apply, epoxy primer for protection of GRP against osmosis. Provides protection against osmosis in five coats (250 µm). Usable down to 5°C. Fast drying allows multiple coat application in a single day.

Suitable Thinners: No. 1

Coverage: 9.1m² / L

Substrates: GRP/FRP

Colour	750ml	2.5L
Grey	68412	68413
Green	68414	68415

Gelshield Plus

A high build, solventless epoxy primer. Available in two colours to aid self-onself application. Contains no harmful solvents to migrate into the hull and cause reblistering.

Colour	2.25 L
Green	68630
Blue	68631

Watertite Epoxy Filler

Watertite is a quick drying epoxy filler which does not shrink and is extremely water resistant, making it suitable for osmosis damage repairs. Fill up to 20mm without sagging. Use above and below the waterline. High strength and adhesion properties. Simple 1:1 mixing ratio for easy measurement of components. Very fast drying. Super-smooth.

Suitable Thinners: None

Coverage: 0.2m² / ltr

Substrates: GRP, Metals & Wood

68435	68436

Interfill 830

A lightweight epoxy profiling fairing compound used for profiling above and below the waterline on steel, aluminium and composite. Interfill 830 is the premium choice of profiling fillers for professional applicators. High expectations and stringent industry requirements have made Interfill 830 one of the most popular fairing compounds in the world. Interfill 830 is available in both fast and standard cure applications.

Type	5 L
Standard	68623
Fast	68621

Interfill 833

Interfill 833 is a technically advanced, easy sand Epoxy finishing fairing compound for use over Interfill 830 profiling filler, to correct minor surface defects before the application of finishing coats. The Interfill 833 is coloured green to contrast with the Interfill 830. This makes it easy to monitor film thickness and sand-through during the application procedure.

Type	5 L
Standard	68624
Fast	68625

Non-Slip Additive

For addition to Yacht enamel, Toplac or Perfection to provide a non-slip surface. Non-slip additive is effectively colourless when mixed into paint, so no change in shade should be observed.

20g
68340

Toplac Plus

Toplac Plus is a silicone alkyd premium gloss yacht enamel for all substrates above the waterline. It is easy to apply by roller without the need for tipping. Toplac Plus contains UV filters for increased durability.

Suitable Thinners: No. 100
Coverage: 13.33m² / L
Substrates: Aluminium, GRP/FRP, Lead, Steel, Wood, Carbon Fibre and Cast Iron.

It's what's under the surface that counts

Our fouling control products not only protect your hull from fouling, they're also designed to protect against the spread of invasive species, safeguarding local waters when exploring new regions, helping you to make a difference in looking after the waters that provide you with enjoyment and peace of mind.

In each and every can you'll find over 140 years of cutting-edge science, technology and expertise, delivering relentless performance and protection.

Like you, we have a passion for boating; providing owners, captains, and builders, the hull protection they deserve. You can expect only the best from every International® yacht paint product, which not only safeguards your boat, but also provides you with peace of mind and confidence to explore your world.

Relentless performance for every yacht, everywhere, every time.

Original Varnish

Traditional, general purpose gloss varnish. Good flow, flexibility and gloss retention. High clarity finish for light colour woods. Use on interior, exterior and over existing varnish.

Suitable Thinners: No. 1

Coverage: 13m² / L

Substrates: Wood

375ml	750ml	2.5L
68355	68356	68357

Woodskin

This is a flexible wood oil/varnish hybrid that acts like a skin for your wood. Microporous properties allow woodskin to breath with your wood; tiny holes let the paint film expand and contract but are small enough to repel water - the cause of mould and mildew. Woodskin is very easy to apply; no need to thin or sand between coats. With good flow and levelling, Woodskin dries to a subtle, translucent sheen. Woodskin penetrates deep into your wood, leaving a thin surface film that will not crack or flake. Minimal maintenance requirements - simply clean and reapply season after season. The Natural Teak colour of Woodskin will showcase the beauty of any wood. Woodskin is suitable for use on all types of wood, including oily woods such as teak and iroko.

Suitable Thinners: No. 1

Coverage: 10m² / L

750ml

68309

Schooner

Schooner is a traditional tung-oil based gloss yacht varnish for classic yachts, suitable for all internal and external wood. It contains UV filters to screen the sun's damaging rays for remarkable durability. Easy application. Deep, rich gloss. Warm golden colour. Excellent UV protection. For interior and exterior use. Schooner has excellent water resistance, silky application and superior self-levelling properties.

Suitable Thinners: No. 1

Coverage: 14m² / L

Substrates: Wood

375ml	750ml	2.5L
68345	68346	68347

Compass Varnish

Tough, durable polyurethane finish; resistant to scratches and surface abrasion, oil, mild acid/alkali and alcohol spills. Fast-dry formulation; minimises dust contamination. Reduces work time: apply 2 coats per day, sanding only after every 2nd or 3rd coat. Contains HALS and UV absorbers; protecting your wood from sunlight degradation and increasing the lifespan of the coating. Superior flow and application characteristics ensure a smooth, professional finish. Light amber colour. Suitable for all internal and external woods; including oily timbers such as Teak and Iroko.

Suitable Thinners: No. 1

Coverage: 14.3m² / L

Substrates: Wood

375ml	750ml	2.5 L
68351	68352	68353

Goldspar Satin Varnish

A satin finish polyurethane varnish for interior use. Resistant to hot water, mild acids and alkalis. Fast-dry formulation minimises dust contamination.

Suitable Thinners: No. 1

Coverage: 11.5m² / L

Substrates: Wood

375ml	750ml	2.5 L
68360	68361	68359

Clear Wood Sealer Fast

Fast-drying, high-build, clear, surface primer. Use under International 1 and 2 part varnishes and finishes. Apply up to 4 coats per day, reducing overall project time. Low viscosity, chemically cured 2-part product; penetrates deep into the wood. Fills the woodgrain, sealing the surface. Provides a perfectly smooth, impact, scratch and wear-resistant surface, ready for overcoating. Crystal clear polyurethane formulation. Increases scheme durability and improves final aesthetics. 1:1 mix ratio. Easy to measure and mix.

Suitable Thinners: No. 10

Coverage: 11m² / L

Rustins Wood Hardener

For rotted wood. Suitable for interior and exterior use.

It is a solvent based moisture curing polymer solution designed to penetrate deeply and harden rotten or decayed wood. Once fully dried, it strengthens and reinforces the deteriorated wood to support the use of wood filler and provide a seal against further moisture penetration. It is designed to extend the life of rotted wood, therefore being a cost effective alternative to wood replacement. Can dry in 2 hours to allow rapid completion of repair work.

500ml

64541

Rustins Danish Oil

A unique formulation developed by Rustins that is suitable for all types of wood. It differs from Teak Oil in that it contains special ingredients to give it a low lustre finish. It is an easy to use wipe on finish, which brings out the beauty of the timber and gives a natural, open grained, soft lustrous finish. Ideal for all woods and is excellent on turned woodwork. Rustins Danish Oil conforms to The Articles in Contact with Food Regulations and to the Toys (Safety) Regulations 1995, BS:EN71 Part 3.

Part No	Description
61521	500ml Danish Oil
61522	1L Danish Oil

Rustins Advanced Wood Preserver

Advanced Wood Preserver is a low odour, non-flammable product based on micro emulsion nanotechnology. The ultra-fine particle size allows deep penetration of the preserver to take place so the performance of the product is much greater than standard wood preservation products. It is quick drying and can be applied to wet or dry timbers. For use against wood rotting fungi within domestic, commercial, institutional and industrial premises.

5 L

61124

Owatrol Paint Conditioner & Rust Inhibitor

Improves finish, eases application and beats paint drag when added to any oil based paints, varnishes or stains. Reduces brush marks and improves coverage. Fortifies the paint - increasing penetration and adhesion. A longer lasting finish that resists flaking and peeling. Combats rust by filling rust pores with oil. Coverage (when used neat) 5 - 8m² per litre for wood and 8 - 12m² per litre for rusted surface. Overnight drying time for wood and 24 hours for metal.

Part No	Description
60591	500ml
60592	1 L

Deks Olje D1 is a saturating wood oil which feeds the wood to replace lost oils. It drives out any moisture and air present in the wood and fills the pores with oil.

Part No	Description

Zingaspray (500ml aerosol)

This has all the advantages of the original Zinga in an easy-to-use spray can. One coat of Zingaspray will dry at approximately 20-25 microns. Therefore a minimum of two coats is recommended. Zingaspray can be used for repairing galvanised steel or products previously treated with Zinga.

Part No
11400

Zinga 1KG Zinc Galvanising System

Zinga is a one-component anti-corrosion zinc coating system which contains a minimum of 96% zinc in the dry film. Its unique formula provides environmentally safe cathodic protection to steel comparable with hot-dip galvanising, with the added advantage that it can be applied as though it were a paint.

Part No

3M VHB Tape Primer 94 for VHB Tape 236ml

Bond 3M VHB Tapes to a wide range of substrates Get a durable adhesion promoter Clean contaminated with a 50/50 mix of isopropyl alcohol and water mixture before application Priming, adhesion promoting Bond 3M VHB Tapes to different surfaces with 3M Tape Primer 94. Our tape primer is a durable adhesion promoter that supports adhesion of 3M tapes to polyethylene, polypropylene, ABS, PET/PBT blends, concrete, wood, glass, metal and painted metal surfaces. Use 3M Tape Primer 94 to bond 3M tapes to a wide range of substrates. Our tape primer is a durable adhesion promoter that supports adhesion of VHB Tapes to polyethylene, polypropylene, ABS, PET/PBT blends, concrete, wood, glass, metal and painted metal surfaces. Bonding surfaces must be almost clean and dry before the tape primer is used. Contaminated surfaces should be cleaned with a 50/50 mix of isopropyl alcohol and water mixture, and a clean lint free cloth should be used for wiping the surface.

10kg Bale of mixed Colour Rags
Mixture of rags for cleaning.
Part No
60291

Prep - Heavy Duty Trade Wipes (Tub of 80)
Safe Guard wipes are tough, fast, safe and convenient wipes designed to remove a wide range of soils such as paint, silicones, mastics, inks, adhesives, oils, greases and general dirt. They are ideal for cleaning the hands, work tools and hard surfaces.

Part No
60292

Universal Paint Sprayer Kit & Extra Power Unit

Universal portable paint sprayer kit. Included in the kit is : 2 gases, 1 glass bottle and 1 trigger. Sprays all thinned paints, solvent or water. Especially handy for paints that cannot be got in aerosols e.g. 2 pack. Each gas contains enough propellant to spray 1/2 litre of thinned material. Refills available. Top tip: Thin the paint more than normal (usually double the amount of thinners) – this aids the pick up flow.

Part No

60315

Anza 2 Handed Wire Brush

Two-handed wire brush with extended, curved profile head, for optimal use. Includes ergonomic soft-grip handle.

Part No Description

62182 Anza 2 Handed Wire Brush

62183 Anza Extension Pole 44-61cm

Pack of 3 Abrasive Brushes

An assorted abrasive brush set. Nylon, brass and wire filing. Suitable for a multitude of cleaning jobs

Part No Description

60293 Pack of 3

4 Row Wire Brushes

Steel: for removing rust or scale and generally preparing rough exterior surfaces prior to painting.

Brass: for cleaning carvings, mouldings or stone.

Part No Description

60295 Steel 4 Row Wire Brush

60294 Brass 4 Row Wire Brush

HAMILTON®

ANZA

Anza Precision Scraper

Ergonomic soft-grip handle. Supplied with a tungsten carbide blade fitted and three blades in the cartridge.

Replacement blades sold separately in a combination pack with 1 pear and 2 triangular shaped blades.

Part No Description

60390 Scraper, Blades and Holdall

60391 Spare Blades (Pack of 3)

Prestige Heavy Duty Scraper

Reversible tungsten carbide blade that stays sharp and productive up to 100 times longer than conventional blades.

Handle shaped to do the job more efficiently and with ease.

Almost identical to the popular Sandvik scraper.

Part No Description

60392 Scraper

60393 Spare Blade

Anza Scrapers

High quality scrapers with replaceable blades.

56436	102mm	2.0

Exhaust Hose also known as SLANG

Type SLANG exhaust hose is the most flexible hose because of the increased spiral reinforcement and the extremely supple rubber. The completely smooth inside of the hose will reduce back pressure in the engine. Exhaust hoses with an internal diameter up to Ø152mm have a bending radius of more than 1.5 X the diameter. Exhaust hoses with an internal diameter of more than Ø152mm have a bending radius of twice the diameter.

30 - 50 = 4 Bar Max Pressure

57 - 75 = 3.3 Bar Max Pressure

90 - 203 = 2 Bar Max Pressure

Type SLANG is Lloyd's Registered and meets the requirements of the SAE J2006 R2 standard.

Rubber Exhaust Hose SLANG

Temperature resistant between -30° + 100°C with brief temperatures of 115°C.

MIKALOR

Mikalor Stainless steel heavy duty hose clamps

The Supra W4 clamp complies fully with the RoHs directive EU 20032/95/EC dated 1st July 2006. The stainless steel bolt together with the captive nut and spacer system allow you to clamp the most demanding of hose assemblies. Supra W4 is a full stainless steel clamp, destined for demanding applications where high corrosion resistance is vital. This top of the range heavy-duty clamp is ideal for marine applications and the foodstuffs industry, as well as for countless industrial applications where AISI-304 stainless steel is specified.

90203	45-65mm		

JCS Hi-Grip general purpose worm drive hose clips are widely regarded for their quality, durability and ability to withstand a great deal of abuse. They are manufactured to exceed BS5315, which has the highest requirements of any of the international standards and tests sealing ability, clamping force and torque. Also has BSI Kitemark and NATO approval, and exceeds all operational requirements of the relevant DIN and SAE standards. 304 STAINLESS STEEL (A2) Hi-Grip stainless steel worm drive hose clips have become the industry standard for demanding applications throughout the world due to their exceptional quality and performance. Made entirely from 18/8 marine quality stainless steel and with Lloyds Register Approval, they are ideal for salt water and other corrosive environments.

Flexible Drive Screwdriver

Screw driver with a hexagon socket head specifically designed to fit JCS hose clips. This tool has a flexible shaft to aid access to awkwardly positioned hose clips.

Part No	Description
90155	Flexible Drive Screwdriver

JCS Zinc Mini-Clips

They are an economical and reliable solution for many low pressure applications where a larger adjustment range is not required. They are especially suitable for petrol and LPG gas hoses.

Band - Mild Steel, Zinc Coated.

Screw and Nut - Mild Steel, Zinc plated and passivated

Part No	Size	Diameter
89990	9	7-9mm
89991	10	8-10mm
89992	11	9-11mm

JCS P Clips

JCS rubber-lined P-Clips are tough and durable, providing a simple and secure fixing solution for even the most challenging of environments. Available in two accurately sized ranges for 6mm and 10mm bolts in both Zinc plated Mild Steel and 304 Stainless Steel. TPE liners are available for both standard and high temperature applications. The standard P clip is supplied with a TPE rubber liner which prevents chafing or damage to the surface of the item being clamped.

Loctite 577

This thread Sealant is designed for the locking and sealing of metal pipes and fittings as well as other threaded assemblies. The product provides an instant, low-pressure seal for metal pipes and fittings. It will not creep, shrink or shred. It has excellent chemical and thermal resistance and offers less migration of liquid product after application.

Part No	Description
60644	50ml Thread Sealant

Loctite Hydraulic Seal 542

Medium viscosity
For sealing threaded hydraulic and pneumatic parts. Will not clog valves or fine filters and has a thixotropic quality which prevents migration of the sealant. Impervious to all common hydraulic fluids including fire-resistant synthetics. Resistant to Hydraulic Fluids including Synthetics

-55 /+150 °C

Part No	Description
60646	50ml Thread Sealant
60649	10ml Thread Sealant

Loctite High Strength 2701

LOCTITE® 2701 is a green, low viscosity, methacrylate-based thread-locking adhesive with high strength, especially for chromated surfaces. Steel fixture time of 10 min, brass 4 min and stainless steel 25 min. Tolerates slight contaminations of industrial oils. Suitable for all metal fasteners. Fluoresces under UV light.

Part No	Description
60647	50ml Thread Sealant
60648	10ml Thread Sealant

PTFE Tape

Thread sealing tape for pipe connection and general on board plumbing. 12mm X 12m

Part No	Colour
93135	White

Leak Stop

For emergency or permanent repair, Leak Stop will repair a pipe leak in under thirty minutes and contain pressure up to 20 bar and temperatures up to 500°F. Quick and easy to use on virtually any material, it is also suitable as corrosion protection and electrical insulation to 16,000 volts.

Part No	Size
93002	50mm x 1.5m
93003	75mm x 2.7m

Silicone Tape

Our Self Fusing Silicone tape provides a reliable solution to leaks in water or exhaust pipes and a multitude of containing and sealing applications. Effective between -50°C and +260°C, it can also insulate to 8000v per upstretched layer. The tensile strength has been tested in excess of 700psi and will effectively seal leaks up to 85Psi (6 bar). It also has good resistance to mild acids, fuels, oils, solvents, salt water, ozone, UV light, and flames. Available Colours: White, Black & Blue

Sizes: 25mm x 3m Roll

The brand new Full Bronze Ball Valve is available in sizes from 1/2" to 2" BSP and features a polymer ball. All other components that are in contact with saltwater are made from Bronze (body, coupling, stem and gland). The handle can be repositioned to invert the direction of movement, solving installation issues. The valve will also be available with position sensors and flange mounting.

Titan Fuel Hose Assemblies
BS EN ISO 7840 CLASS A1
These hoses completely meet the EC Recreational Craft Directive, which is a rarity being tested by B.S.I. and given an EC type examination certificate by Lloyds register in order to totally comply with the regulation, unlike many marketed. In most cases 'TITAN' greatly exceeded the test requirements.

Specification:
Special nitrile rubber inner metal braided and then sleeved to show specification. The ends have heavy copper extension spigots swaged in brass with hexagon collar for securing when fitting to compression fittings.

Part No	Spigot Size	Length

Boston Whaler Style Expandable Drain Plug
Made of stainless steel with neoprene rubber seal. For all types of bushings. Locking system by means of beam rotation. Preferable to be used in confined spaces or where a slower but more secure locking is required, 22-mm Ø.

Part No
76077

Universal Drain Plugs
A universally applicable lens plug that can be turned or plugged in easily in the opening and by switching the handle it expands and thereby seals.

Part No	Description
10781	Universal Drainplug Set 1/2" 5/8" 3/4"
10782	Universal Drainplug 1"
10783	Universal Drainplug 1 1/4"

Softwood Safety Plugs
Different sizes for plugging hull or skin fitting. 8-38 mm.
Package: 10 pcs.
Wooden bungs.

Part No
90510

Wooden Drain Plugs/Bungs
Wooden set of drain plugs 5-28mm (Set of 10 pieces).

Part No
90511

Nylon White Fuel /Water Fillers

Flange 88mm

Neck Length 65mm

Neck 50mm

Part No	Description
10242	Fuel Filler Red 2"
10245	Fuel Filler Green 1 1/2"
10250	Water Filler Blue 1 1/2"

Locking Fuel Fillers

316 Stainless Steel, fitted with corrosion resistant, stainless cylinder lock. When locked the threads are disengaged and the cap will rotate freely but cannot be removed. Extra security to protect your fuel.

Part No	Description
76364	Locking Deck Fill Petrol 1 1/2"
76366	Locking Deck Fill Diesel 2"
76368	Locking Deck Fill Petrol 2"

Chrome Plated Filler Caps

Part No	Vetus	Description
56676	FCAPWATER	Water 38mm

56678	FCAPDF50	Fuel 51mm
56679	CAPWC38	WC Waste Extraction 38mm

Vetus Stainless Steel Filler Caps

Stainless steel (AISI 316) deck entries .
Cap size 86.5 mm

With high-gloss polished watertight cover.

Deck entry key for slotted deck entries. Also suitable for deck entries with an octagonal recess.

Part No	Vetus	Description
56661	CAPW38S	Water 38mm
56662	CAPG38S	Unleaded Petrol 38mm
56663	CAPF38S	Diesel 38mm
56664	CAPF51S	Diesel 51mm
56665	CAPWC38S	WC Waste Extraction 38mm
56666	KEY1	Key

Overflowing fuel or foam collector.

The fuel splash-stop is connected right under the deck filler plate to ensure that overflowing fuel or foam cannot flood onto the deck. The excess diesel or petrol fuel is collected in a parallel hose which functions as a reservoir, returning the fuel back into the tank. Capacity: 2 ltr p/mtr

Strum Boxes	
Stops bilge debris from entering suction hoses and incorporates a non-return valve to prevent drain-back. Available in either top entry or side entry versions. Suitable for 25mm (1") or 38mm (1 1/2") hose.	
Part No	Description
73031	Top Entry Strum Box
73030	Side Entry Strum Box

Stepped Non Return Valve
 One Way Hose Connector made from sturdy polypropylene. A built in rubber flap allows water to flow in one direction only. Each section can be cut down to size of hose barb required.

Part No	Description
76186	1/2 - 3/4 - 1"
76188	1 - 1 1/4 - 1 1/2"

Stepped Y Piece
 This is a new Water Manifold which has been carefully designed to reduce the weight and cost associated with traditionally fabricated water system manifolds. The complete Y-Piece operates with hose sizes of 3/4", 1" and 1 1/2" and is designed to simply cut it down to size

Part No	Description
76190	Y Piece Water Manifold 3/4-1-1 1/2"

Non-Return Valve
 A simple way to stop flow back in a suction or discharge line. Designed to fit in-line and is suitable for 19mm (3/4"), 25mm (1") and 38mm (1 1/2") hose. Can be used with both electric and manual pumps.

Part No	Description
73038	19mm (3/4") Valve
73034	25 / 38mm (1" / 1 1/2") Valve

Diverter Valve
 Allows one pump to draw from two locations. Features smooth Teflon lubricated lever operation and precision machining to prevent seepage and odour problems.

Part No	Description
73033	25mm (1") Valve
73032	38mm (1 1/2") Valve

Plastic Y Connector - Y3C
 Does not come with hose connectors.

Part No	Description
56271	Plastic Y Connector

Neat plastic one-way valve for use in freshwater systems to help stop flow back. Especially useful with electric pumps. To fit 1/2" (12mm) hose.

Part No	Description
73155	1/2" Non-Return Valve

Plastic in-line non return valve YNRE
 Does not come with hose

Part No	Description
56272	Plastic Non Return Valve

Plastic Hose Connectors for 3 Way Valve, Plastic Y Connector & plastic non return valve

Part No	Description
56273	19mm pack of 1
56274	19mm pack of 2

10677	Fixing strainer plate + bolts for 3/4" Blakes seacock
10674	Fixing plate + bolts for 1 1/2" Blakes seacock

Blakes Seacock Grease

Formulated for marine use with high adhesion properties and resistance to water wash out. Primarily designed to be used with the Blakes Seacocks, this quality grease can be used for many other similar marine applications on board your boat. Working temperature range -30°C to +70°C (-70°F to +160°F).

Part No	Description
10673	500g Blakes Grease

Bilge Water/Oil Separator

The filter element is replaceable and has a capacity of 320 grams, which is the average quantity of oil in 8.000 litres of bilge water. It will remove 95% of oil in the bilge water, with a maximum contamination level of 300 mg/l (p.p.m.) The bilge pump to be used in combination may have a maximum capacity of 25 litres/ minute. It has Ø 19 mm hose connections.

Petrol & Diesel Filters

The WS180 water separator / fuel filter is suitable for both petrol and diesel fuels. These filters must be installed in a vertical position as close to the fuel tank as possible.

Max capacity In L/Hour (G/Hour) = 720 (158).

Recommended capacity in L/Hour (G/Hour) 440 (97).

Connections M18 x 1.5 with 15mm compression fitting.

Dimensions (mm) Height 215 x Width 174 x Depth 85mm.

Replacement Filter 40 µm. WS180FE.

Replace after 200 service hours or annually.

Fire resistant ISO 10088.

Part No Description

57212 WS720 Water Separator Fuel Filter

57213 WS180FE Spare Filter Element for WS180 & WS720

Vetus Water Separator Fuel Filter for Diesel Fuel

Single spin on filters without bleed pump.

Max capacity In L/Hour (G/Hour) = 360 (79).

Connections M16 x 1.5 with 2 x 10 mm hose barbs and 3 blanking plugs.

Dimensions (mm) Height 205 x Width 120 x Depth 120mm.

Replacement Filter 10µm. VT33EB.

Replace as a minimum annually.

Certification CE and ABYC.

Part No Description

57210 330VTEB Water Separator Fuel Filter

57209 VT33EB Replacement Filter Element

Vetus Water Separator Fuel Filter for Diesel Fuel

Double spin on filters without bleed pump.

Max capacity In L/Hour (G/Hour) = 360 (79).

Both filters are in use: L/Hour (G/Hour) = 380 (84).

Connections 1/2" BSP.

Dimensions (mm) Height 305 x Width 310 x Depth 167mm.

Replacement Filter 10µm. 2 x VT33EB.

Replacement advice: When vacuum gauge indicates between -0.2 and -0.38 kg/cm², or annually.

Certification CE and ABYC.

Part No Description

57224 75330VTEB Water Separator Fuel Filter Separator

57209 VT33EB Replacement Filter Element

Vetus Water Separator Fuel Filter for Diesel Fuel

Double spin on filters without bleed pump.
Max capacity In L/Hour (G/Hour) = 620 (136).

Both filters are in use: L/Hour (G/Hour) = 760 (168).

Connections 1/2" BSP.

Dimensions (mm) Height 365 x Width 310 x Depth 167mm.

Replacement Filter 10µm. 2 x VT34EB.

Replacement advice: When vacuum gauge indicates between -0.2 amd -0.38 kg/cm², or annually.

Certification CE and ABYC.

Part No	Description
57225	75340VTEB Water Separator Fuel Filter Separator

Vetus Water Separator Fuel Filter for Diesel Fuel

Double spin on filters without bleed pump.

Max capacity In L/Hour (G/Hour) = 800 (176).

Both filters are in use: L/Hour (G/Hour) = 920 (204).

Connections 1/2" BSP.

Dimensions (mm) Height 425 x Width 310 x Depth 167mm.

Replacement Filter 10µm. 2 x VT35EB.

Replacement advice: When vacuum gauge indicates between -0.2 amd -0.38 kg/cm², or annually.

Certification CE and ABYC.

Part No	Description
57226	75350VTEB Water Separator Fuel Filter Separator

Vetus WS250

A VETUS fuel filter/water separator fitted between the tank and the fuel lift pump will prevent damage to the engine and ensure easy starting and smooth running.
Connection for 9/16" - 18 UNF female thread.

Connection nipples for Ø10mm 3/8" (cutting ring or flare type) can be ordered separately.

Weight 2.27Kg. Filter element can be renewed after 500hrs of use, or one a year. Max capacity: 250l/hr. Recommended max input 150l/hr. Complete with heat deflection shield. Capacity of receiver bowl: ca 270cm³. specially developed for marine use.

Part No	Description
57215	WS250 Water Separator Fuel Filter
57216	Connection Kit Pipe Connections
57217	Connection Kit Flare Connections

Vetus WS750

WS750: connection: 7/8" - 14 UNF female thread. connection nipples for 15mm diameter tubing (cutting ring or flare type) can be supplied. weight: 5.4kg. Filter element to be renewed after 1000 hours of use, or once a year. Maximum capacity: 750 litres/hour. Recommended maximum input: 450 litres/hour. In the case of a rotating fuel injection pump, e.g. as installed on the Vetus Deutz marine diesel engines the recommended maximum input is increased to 640 litres/hour. Complete with heat deflecting shield capacity of receiver bowl: ca. 800cm³. Specially developed for marine use.

Part No	Description
57223	WS750FE Spare Filter Element

Vetus Spare Oil Filter

Vetus on engine Oil filter for the M2, M3 and M4 Series Yellow engines. Supplied with sealing O Ring. Should be replaced at 200hr running intervals, or once a year.

Part No	Vetus
58330	STM0051

Vetus FTANK25

Vetus diesel fuel tanks are made from high-grade linear polythene, which is both rust free and less prone to condensation compared with metal tanks. The construction of the tank is seamless and therefore, can never leak. The fuel level can be seen from the outside.

The FTANK25 is supplied complete with a fitting kit:

- Ø 50mm moulded inlet,
- Ø 8mm rotating fuel connectors
- Ø 19mm rotating breather connector
- 2 mounting straps

Part No	Description	Vetus
56300	Vetus 25ltr Fuel Tank	FTANK25
56301	Spare connection Kit	FKIT25

All-purpose 100 litre tank, suitable for diesel-, waste- or potable water.

Made out of high-grade polyethylene.

Dimensions: 1010 mm x 390 mm x 315 mm

Overall thickness 8 mm.

Large inspection hole to meet ISO21487 requirements.

38 mm connection for interconnection purpose or draining.

ILT-ready.

Flange in ring cap for easy opening.

Part No	Description	Vetus
56316	100 Litre All Purpose Tank	APT100

Vetus All Purpose Tanks

Multiple purpose - material ideal for diesel fuel, fresh water and waste water.

These tanks are made of thick walled (5-7mm) high grade polyethylene which is both rust free and less prone to condensation compared with metal tanks. Due to the construction of the tanks, leakage is impossible. Fittings can be installed wherever you choose and can be ordered separately. Tanks are supplied with diesel, fresh water and waste water labels.

Tanks are in accordance within the ISO 21487 standard when inspection lid ILY is installed and the supplied diesel sticker is used.

Suitable for diesel (up to 100°C)

Part No	Description	Vetus
56302	42 Litre	ATANK042
56303	61 Litre	ATANK061
56304	88 Litre	ATANK088
56305	110 Litre	ATANK110
56306	137 Litre	ATANK137

56310	390 Litre	ATANK390

Fuel

Waste

Water

Fuel Connection Kit

This fuel connection disc will take care of all fuel related connections Ø 38 mm fuel fill connection.

Ø 8 / 10 mm fuel suction connection.

Ø 8 / 10 mm fuel return connection.

Ventilation connection Ø 16 mm.

5 hole SAE flange tank level sensor connection.

Ø 8 mm suction connection for marine diesel heaters.

Connects using the ILT120B inspection port.

Part No	Description	Vetus
56311	Fuel Kit	ILTCONF38

Waste Connection Kit

Ø 38 mm connection for discharge (ability to make this a suction connector by mounting a standard Ø 40 mm PVC pipe).

Ø 38 mm inlet connection.

Ø 25 mm inlet connection.

Ø 19 mm inlet connection.

Ventilation connection Ø 19 mm.

5 hole SAE flange tank level sensor connection (suitable for SENSORA, SENSORB and WWSENSORA).

Connects using the ILT120B inspection port.

Part No	Description	Vetus
56312	Waste Kit	ILTCONW

Water Connection Kit

Ø 38 mm fresh water fill connection.

Ø 13 mm fresh water suction connection.

Ventilation connection Ø 16.

5 hole SAE flange tank level sensor connection.

Connects using the ILT120B inspection port.

Part No	Description	Vetus
56313	Water Kit	ILTCOND

Vetus ILT120B 120mm Inspection Port

A large inspection port for (bio) diesel fuel, fresh water and waste water tanks. Internal aperture: 120mm diameter. Cut-out dimensions: 159mm diameter

Part No	Description	Vetus
56263	120mm Port	ILT120B

Vetus ILT120X 120mm Inspection Port (Petrol)

By improving the design of the lid and reinforcing the material with glassfibre, this model now meet the ISO 21487 standards in addition to ISO 10088! . Internal aperture: 120mm diameter. Cut-out dimensions: 159mm diameter

Part No	Description	Vetus
56269	120mm Port	ILT120X

Hole Saw 159mm

Hole saw for plastic, G.R.P. or stainless steel tanks with Ø 159 (6 1/4")

Part No	Description	Vetus
56314	Hole Saw 159mm	VSAW159

Vetus ILTCON 90 Elbow

Ø 38 mm 90-degree filler elbow for ILT connection kit

Part No	Description	Vetus
56317	90 degree elbow	ILTCON90

Vetus ILT Inspection Lid Opener

Well-designed lid opener to facilitate the motion of sometimes stubborn lids. Made with glass-reinforced polyamide and stainless-steel bolt and nut Handy – make opening and closing lids as uncomplicated and comfortable as possible Even distribution of force and precise grip for effortless turns Durable and affordable Compatible with ILT120B, ILT120X, and ILT120F even when a connection kit such as ILTCONW, ILTCOND or ILTCONF38 is installed.

Part No	Description	Vetus
56319	Lid Opener	WRILT

Vetus ILTSET2

Cover including gasket for inspection lid.

Part No	Description	Vetus
56258	Spare Cover	ILTSET2

Vetus Fuel Connection Kits

Hose connection for filling Ø 38 or 51 mm and a 16 mm tank ventilation connection

Fuel suction pipe according to model selected

Ø8 mm, max. tank depth 440 mm

Ø10 mm, max. tank depth 850 mm

Ø15mm, max. tank depth 970 mm

Fuel return for Ø8, 10, 15 mm hose

Mounting flange for tank level sensors (connection is suitable for sensors with a 5-hole SAE flange)

Terminal tag 6.3 mm for ground wire

2 mounting straps to secure tank

Part No	Description	Vetus
56297	Fuel Connection Kit 38mm / 8mm	FTL3808B
56298	Fuel Connection Kit 38mm / 10mm	FTL3810B
56299	Fuel Connection Kit 51mm / 8mm	FTL5108B
58315	FTL001 Expansion Rubber	
58316	FTL021 Expansion Rubber	

Vetus FTLDB

Interconnection kits for two tanks.

The FTLD connection kit links two fuel tanks. The dimensions of the skin fitting are G 3/4. Two brass skin fittings 3/4" and a coupling are supplied to connect the tanks. Includes two lashing straps to secure the tank.

Part No	Description	Vetus
56315	Interconnection Kit	FTLDB

The WTKIT kit includes inspection lid, right angle connection RT38B for filling hose/RT16B for ventilation/RT16B to water pump, 2 mounting straps, T-joint.

Part No	Description	Vetus
56259	Installation Kit	WTKIT

Inspection Lid

For (waste) water tanks only!

- Overall diameter ø 156mm
- Cut out diameter ø 115mm
- Not suitable for fuel tanks.
- Ideal for metal tanks.

Part No	Description	Vetus
56261	Lid Only	WTK02

Suction Pipe

Fitted to the top of fixed tanks.

This suction pipe can be fitted to the top of most of the fixed tanks with a maximum depth of 410mm and suitable for ø 13mm fresh water systems.

Part No	Vetus
56260	WTS44513B

Extraction Pipe For Waste Tanks

Part No	Description	Vetus
56203	780mm Straight	WTS78038S
56206	780mm Right Angle	WTS78038B

The FUELSAFE overcomes the risk of fuel theft simply and cheaply by making it impossible to insert a siphon hose into the tank through the filling hose.

Part No	Description	Vetus
56326	Anti Fuel Theft device	FUELSAFE

Inspection Lid Kit

Complete with gasket, counter flange and fastenings.

Overall diameter ø 156mm

Cut out diameter ø 115mm

Not suitable for fuel tanks.

Part No	Description	Vetus
56262	Lid & Gasket	WTIKIT

Waste Water installation Kit

Consisting of one inspection lid counter-flange and fastenings, two securing straps, and one wrench for angled fittings.

Overall diameter \varnothing 156mm

Cut out diameter \varnothing 115mm

Part No	Description	Vetus
56200	Waste Water Installation Kit	BTKIT

Vacuum Operated Valve 56mm

This valve is an indispensable safety factor for emptying a waste water tank via shore based pump-out station.

Part No	Description	Vetus
56230	Vacuum Operated	VRF56A

Tank Spares

Part No	Description	Vetus
56238	Rubber gasket	RT001
56264	Drinking Tank O Ring	WTK002
56265	Large Gasket	WTK005
56266	Spare Tank Cap	UNICAP

Fixed connectors 38 mm for filling and 16 mm for the breather line. Rotating hose and suction connectors 8mm.

Basic tank type WTANKC

With easy screw down inspection lid

in the moulding together with 5 blind bolt holes.

Specifications

- Tank capacities of 40, 60 and 80 litres
- Hose connectors for filling line \varnothing 38 mm and breather line \varnothing 16 mm
- Rotating hose connector \varnothing 13 mm with pick-up pipe for water suction
- Supplied with installed screw down inspection lid

Rigid Diesel Fuel Tanks

This range of rigid VETUS tanks are made of high-grade polyethylene. The centre point for a SAE flange gauge sender is incorporated together with five blind bolt holes. The gauge sender should be ordered separately. Tanks are in accordance with the ISO 21487 standard.

Part No	Description	Vetus
56267	40 Litre Tank	FTANK40A
56268	60 Litre Tank	FTANK60A

Synthetic Drinking Water Tank

Part No	Description	Vetus
56255	40L	WTANK40C
56256	60L	WTANK60C
56257	80L	WTANK80C

Basic tank including connectors type BTANKC

These tanks are made of odour impermeable synthetic see-through material so the content level can be seen from the outside. The tanks are supplied with connectors, a screw down inspection lid and 2 securing straps. The inlet fitting (type RT..B) should be ordered separately matching the inlet hose diameter.

Waste Water Tank

Part No	Description	Vetus
56195	25 Litre	BTANK25C
56196	40 Litre	BTANK40C
56197	60 Litre	BTANK60C

GREAT VALUE!

Exhaust Waterlock Muffler

Made of high density polyethylene. Suitable for exhaust hose 40/45/50 \varnothing mm. Capacity 6L. Operating pressure max 0,3 BAR. Length 370mm / 440mm with joints. Width 150mm. Height 190mm / 230mm with joints

Part No	Description
10271	Exhaust Muffler 40/45/50mm

GREAT VALUE!

Gooseneck Downwards Waterlock

40/45/50mm
Siphon with inlet turned downwards. Size 480 x 110mm. Suitable for exhaust hoses 40/45/50mm.

Part No	Description
10272	Gooseneck Waterlock 40/45/50mm

GREAT VALUE!

Horizontal Waterlock Muffler

Available in 3 sizes.

Part No	Description
10273	40mm Horizontal Muffler
10274	45mm Horizontal Muffler
10275	50mm Horizontal Muffler

Type WLOCKLP

Suitable for exhaust hose with an internal diameter of 30mm. Provided with a plug for draining during winter time. Capacity 2.3 litres.

WLOCKLP30	
Part No	Description
57443	Fixed 30mm

Type WLOCKLR

Waterlock with Rotating Inlet

360° revolving inlet connection which greatly facilitates the installation. Provided with a plug for draining during winter time. Capacity 4.3 litres.

Part No	Description
57445	40mm (WLOCKL40R)
57446	45mm (WLOCKL45R)
57447	50mm (WLOCKL50R)

Spare Hose Tails	
Part No	Description
58320	40mm
58321	45mm
58322	50mm
58323	Spare O Ring

Type WLOCKLS and WLOCKLP

Waterlock for use with long exhaust hoses (4 metres and longer). Provided with a plug for draining during winter time. Capacity 10.5 litres

Part No	Description
57449	50mm Super (WLOCKL50S)
57450	60mm (WLOCKLP60)
57451	75mm (WLOCKLP75)
57452	90mm (WLOCKLP90)

Type LSSA

Waterlock for boats sailing in rough waters. Capacity 5,7 Litres With rotating inlet/outlet for easy installation. Securing strap supplied as standard.

Part No	Description
57460	40mm (LSS40A)
57461	45mm (LSS45A)
57462	50mm (LSS50A)

Type LSL

Extra large waterlock designed for long, relatively straight exhaust runs. Capacity 16 Litres. With fixed (non-rotating) inlet and outlet connections.

Part No	Description
57456	60mm (LSL60)
57457	75mm (LSL75)
57458	90mm (LSL90)

Type LSG

Extra large waterlock for boats sailing in rough waters. Capacity 17 Litres with no return valve and rotating inlet/outlet for easy installation.

Part No	Description
57465	75mm (LSG75)
57466	90mm (LSG90)

NLP40, 45, 50.

NLP50S, 60, 75, 90.

Type NLP

Waterlock/muffler with dual stage construction. Superior silencing of exhaust noise with minimal back pressure. 360° rotatable top chamber and connectors.

DEMPMP100.

Type LGS

The VETUS gas / water separator has a double function. It separates the injected raw cooling water from the exhaust gases and also functions as a gooseneck. Particularly important for generator sets, the separator reduces the exhaust noise and drains the cooling water below the waterline, thus preventing the characteristic splashing sound. Specifications 360° rotating hose connections for 40mm internal hose diameters Cooling water drain of 38mm Comes with stainless steel (AISI 316) mounting bracket with synthetic straps .

Part No	Description	Vetus
57493	40mm	LGS4038

Type LT

Plastic gooseneck for marine exhaust systems with water injection. Supplied with stainless steel fastening brackets.

Rule Mate Automatic Bilge Pumps

The Rule-Mate series of automated bilge pumps feature a pump and a non-mercury float switch in a single, compact housing. When the float rises, the pump turns on. There is no on/off cycling and, therefore, no power use until the pump comes on. The pump remains on until the float drops and the pump senses no load against the impeller.

Rule Automatic Bilge Pumps

Electronic operation on the principle of impeller resistance. Float switches are not required. The pump will turn on every 2 1/2 minutes for about one second to sense for water. If water is present, the pump will sense resistance and continue to run until all water is removed. Thereafter, it will check for water every 2 1/2 minutes. Power use in the checking mode is minimal.

Whale Automatic Electric Field Sensor Switch

Automatic Switch with Electric Field Sensor Technology with 30 second time delay. Electric field sensor automatically senses water levels and switches on the bilge pumps. Nylon material - withstands high temperatures. Automatically switches on when 51mm (2") of water is sensed and turns off when water drops below 13mm (1/2")

- BE9006 model - built in 30 second off delay for efficient operation, prevents cycle in small sump installations or enables lower drain than 13mm (1/2").

Part No	75261
---------	-------

Attwood Float Switch 6-32V

With protective cover. For use with pumps drawing less than 10 amps 6-32V.

Part No	75080
---------	-------

Attwood 3 Way Bilge Switch

3 positions: Auto/ Off/ Manual.

6 - 32V, 10 amp Max.

Part No	75100

Orca Non Automatic Bilge Pumps

These tough and compact pumps combine high performance with low current draw. They are also easy to install and maintain. As well as the standard mechanical float switch, there is also an electric field sensor switch available. It is suitable for 12 and 24 volt bilge pumps with up to 20 amp switching capacity. It senses water level and automatically controls the pump. No toxic mercury. No moving parts.

Jabco Par Max Freshwater Delivery Pumps

Jabco's updated and improved lineup of freshwater supply pumps are designed to provide years of satisfactory service in applications both large and small.

Standard models provide good performance in an economical footprint. These configurations are available in 1-3 GPM, perfect for vessels with 1-3 outlets. A plastic housing protects the motors on these units from corrosion.

HD (Heavy Duty) models include a wider diameter motor with a powder coated shell, cast aluminum endbells and lower housing to improve pressure capability and life. Available in configurations up to 6 GPM (23 LPM) and 60 PSI (4.1 BAR), these pumps deliver exceptional performance.

Jabsco Self-priming diaphragm pump 12 volt d.c.
(Shower Drain Pump)

Connections for 19mm (3/4") bore hose

Dimensions: 294 mm long, 159mm wide, 132mm high

Fuse Size: 10(amp)

Maximum Current: 8(amps)

Output: up to 16 litres/minute (3.5 gallons/minute). Maximum recommended total head 6m

Robust, quiet single diaphragm design

No strainer required

Single diaphragm design allows extended dry running

Self-priming up to 3m (9.5ft) vertical lift

Multi-positional ports for easy mounting

Rated for up to 30 minutes continuous running

Part No	Description
75249	Self Priming 12V Diaphragm Pump

Gulper 220 Shower Drain & Waste Water Pump

Specially designed to pump waste water at up to 14 litres per minute with low power consumption and minimal noise. Has a large single diaphragm and virtually unblockable valves. It is self-priming up to 3m, will run dry without damage and will pump a mixture of air and water. Can be mounted almost anywhere and is easy to install in confined places.

Part No	73092	73093
Voltage	12V	24V
Fuse Size	5A	2.5A
Weight	1.75Kg	
Hose Connections	19mm (3/4")	
Max Head	3m	
Max Lift	3m	
Ltr/min @ 0m Lift, 1m Head	13.4 ltr / 3.5 amps	13.4 ltr / 1.75 amps
Ltr/min @ 1m Lift, 1m Head	12.6 ltr / 4 amps	12.6 ltr / 2 amps

Gulper 220 Service Kit AK1550

6 x screw No.6 x 1/2" (valve plates), 1 x body, 1 x inlet valve, 1 x outlet valve, 1 x diaphragm, 1 x nut nylon M5, 1 x screw M5 x 16 (clamping plate), 1 x outlet valve tricuspid, 1 x Inlet valve plate.

Part No	Description
73142	Service Kit AK1550

Attwood Sahara Shower Sump Systems

Designed to centralize all drains (showers, sinks, kitchens, bathrooms, etc). Fitted with check valve to prevent bad odours. Quick inspection snap cover.

Part No	Description	Current Draw	Max Flow Litres Min	Max Head	Dimensions
75090	12V Sump Waste Tank	2.5 Amps	41	3M	330mm x 186mm x 111mm h
75091	24V Sump Waste Tank	1.3 Amps	41	3M	330mm x 186mm x 111mm h

Grey Waste Tank

Designed to collect waste water from showers, sinks, ice-makers etc and, in conjunction with a Gulper 220 pump, automatically discharges the water through a single skinfitting. The tank contains a relay protected float switch to activate the pump when it fills with water. 4 inlet spigots each with two different dimensions to enable a variety of different hose sizes to be connected.

Part No	73077
Inlet hose connections	13mm (1/2") x 1, 19mm (3/4") x 3 25mm (1") x 3, 38mm (1 1/2") x 1
Outlet hose connection	19mm (3/4") x 1
Dimensions	330mm X 250mm X 170mm
Capacity	9 Litres
Float Switch	Max current: 15A. 6 - 32V only

AK1005 Service Kit

Whale Grey Waste Tank Lid Replacement With Sensor.

Accumulator Tank Bracket Kit

Fit 2 litre, 5 litre and 8 litre tanks

Part No	Description
75244	Accumulator Bracket Kit

0.6L Jabsco Accumulator Tank

Connections: for 13mm (1/2") bore hose or threaded ports.

Dimensions: 214mm long, 119mm wide, 110mm deep.

Output: volume nominal 0.6 litre, working capacity up to approximately 0.3 litres.

Plastic vessel with internal membrane. May be mounted in any attitude. Compact size for small pressure systems (typically 1 - 2 outlets). Supplied with 2 snap-in connectors for 13mm (1/2") bore hose.

Part No	Description
75240	Accumulator Tank 0.6L

1L Jabsco Accumulator Tank

Connections for 13mm (1/2") bore hose or threaded ports.

Dimensions: 340mm long, 120mm wide, 110mm deep.

Output: volume nominal 1 litre, working capacity up to approximately 0.5 litres

Plastic vessel with internal membrane. May be mounted in any attitude. Compact size for small pressure systems (typically 1 - 2 outlets). Supplied with 2 snap-in connectors for 13mm (1/2") bore hose

Part No	Description
75241	Accumulator Tank 1L

2L Jabsco Accumulator Tank

Connections: 1/2" BSP external threaded.

Dimensions: 230mm high, 125mm diameter.

Output: nominal 2 litres, working capacity up to approximately 1 litre. Enamelled steel vessel with stainless steel flange and internal rubber membrane. For small to medium-sized pressure systems. May be mounted in any attitude. Stainless steel and rubber wetted parts. Maximum Recommended Working Pressure - 4 bar (60psi)

Maximum Recommended Working Pressure - 4 bar (60psi)

Part No	Description
75243	Accumulator Tank 2L

8L Jabsco Accumulator Tank

Connections: - 3/4" BSP external threaded.

Dimensions: - 330mm high, 205mm diameter.

Output: - nominal 8 litres, working capacity up to approximately 4 litres. Enamelled steel vessel with stainless steel flange and internal rubber membrane. For small to medium-sized pressure systems. May be mounted in any attitude. Stainless steel and rubber wetted parts. Optional bracket kit for mounting on any flat surface. Maximum Recommended Working Pressure - 4 bar (60psi)

Maximum Recommended Working Pressure - 4 bar (60psi)

75251	Accumulator Tank 8L

Vetus TMWBS Flush Wall Switch

Build-in depth (mm) 40. Height (mm) 47. Width (mm) 78. All controls when correctly installed are watertight according to IP65. It has two functions; fill bowl and empty bowl.

Part No	Description
56173	Wall Switch

VETUS HF2408 Pressurized Water System 24V 8L Tank

This VETUS pressurized water system provides a constant flow in the fresh water circuit of the boat. It is comparable with a piped water system at home. The pressurized tank, with a rubber diaphragm inside, prevents the pump motor being started each time a supply of water is required. The diaphragm is suitable for fresh water and can be replaced. This system ensures a constant water flow, saving energy and minimizing noise. Supplied with: Self-priming pump Inlet water strainer Pressure switch Mounting bracket.

Part No	Description
56190	24V 8Litre Pressurized Tank

Vetus Pressurized Water System 24V 19L Tank HYDRF2419

Type HYDRF works the same as the type HF basic pressurized water system, but has an adjustable pressure switch, a manometer (pressure gauge) and an additional non-return valve. Both VETUS pressurized water systems meet the EMC requirements. For more information about this pressurized water system, see type HF.

Part No	Description
56191	24V 19Litre Pressurized Tank

Vetus TMWBP Toilet Control Panel

This panel is easy to operate with just four functions. It has an eco (± 1.2 lt) and normal flush (± 2.2 lt) button and a fill or empty bowl button. Using a marine toilet was never this easy, just touch the button!

Part No	Description
56172	Touch Control Panel

Vetus 12V Marine Toilet TMW12Q

Very competitively priced and comfortable toilet. A welcome alternative to manually-operated hand-pumped toilets. Operated by a simple rocker switch or control panel, which must be ordered separately.

Soft close and quick release seat / lid. Easy to clean porcelain bowl / simple maintenance. Powerful macerator with full stainless steel (AISI 316) blades and high capacity discharge pump (60dB). Comes with three discharge hose adapters, 19, 25 and 38mm diameter and a 700mm long water inlet hose. Very low water consumption. External discharge (mm) 19,25,38. Power consumption (A) 25 A. Control type 0. Water inlet connection Female G3/4.

Part No	Description
56170	12V Marine Toilet

Vetus 24V Marine Toilet TMW24Q

Very competitively priced and comfortable toilet. A welcome alternative to manually-operated hand-pumped toilets. Operated by a simple rocker switch or control panel, which must be ordered separately.

Soft close and quick release seat / lid. Easy to clean porcelain bowl / simple maintenance. Powerful macerator with full stainless steel (AISI 316) blades and high capacity discharge pump (60dB). Comes with three discharge hose adapters, 19, 25 and 38mm diameter and a 700mm long water inlet hose. Very low water consumption. External discharge (mm) 19,25,38. Power consumption (A) 12.5. Control type 0. Water inlet connection Female G3/4.

Part No	Description
73141	Service Kit AK1557

Gulper 320 High Capacity Waste Water Pump

High capacity pump (24ltr /min) for fast drainage in grey waste systems. The gulper 320 incorporates non-choke valves with the capability to pump an air / water mixture and to run dry without suffering damage. Installation is easy, thanks to a new three foot design and the 'Ezi-clamp' locking ring which allows the head to be quickly twisted into the desired position. There are also new barbed connections for connection to either 1" (25mm) or 3/4" (19mm) hoses.

Part No	73069	73070

Part No	Description
73071	Gulper 320 Service Kit

Whale IC Grey Water Two Way Manifold WM1982B

Two way manifold with Whale Intelligent Control built in. The IC manifold can be used with a Whale Gulper pump to create a grey water disposal system. The manifold accepts two waste inputs and senses water through the wall. This relays information to the Gulper IC pump to turn on and pump the waste water.

This Whale WM1982B IC manifold is supplied with 2 metres of cable and has 19mm ports.

Part No	Description
75262	Whale IC Grey Water Two Way Manifold

Teak Toilet Paper Holder
Traditional, stylish and practical.

96404	400 x 400mm
96410	800 x 800mm

Flow capacity	3.7 gpm (14 lpm)
Max Pressure	60 psi (4.3 bar)
Height	9" (228.6mm)
Max Diameter	4" (101.6mm)
Depth inc ports	5 1/2" (139.7mm)
Hose Connections	1/2" (13mm)

Aqua Filta Water Filter

Aqua Filta is an activated carbon water filter that removes chlorine, unpleasant smells, tastes and colours from marine water systems and uses specially silver-impregnated carbon to inhibit bacterial growth in the filter bed. Aqua Filta absorbs dissolved impurities but retains beneficial mineral salts, thus freshening and cleansing water to make it natural tasting, sweet smelling and crystal clear. The filter head is permanently fixed and the replaceable cartridges can be changed quickly and easily. The inlet / outlet ports can be rotated through 180° to allow installation in confined spaces.

Part No	Description
74300	Aqua Filta
74301	Replacement Cartridge

Aqua Midi Water Purification Tablets

Rapid dissolving effervescent tablets for treating stored water. Each tablet purifies 25 lts of water. Tablets are foil wrapped to remain stable for 5 years or more. The formulation contains dichloroisocyanurate, an organic chlorine donor with superior disinfection capacity. Manufactured to strict specifications to ensure an accurate dose. Convenient, simple to use method of purifying stored water.

Part No	Description
74302	Pack of 32 water purification tablets

Aqua-Source Clean In-Line Filter

An easy to install in-line water filter designed to remove unpleasant tastes and odours. Contains silver to inhibit bacterial growth. The filter is slim, compact and will last one full season or 4500 Litres. Suitable for use with pressures of up to 4 bar (60psi). Available to fit 3/8" hose or 15mm Quick Connect.

Part No	Description
73156	Aquasource Water Filter 12mm
73157	Aquasource Water Filter 15mm

Tuckaway and Telescopic Faucets / Taps

Simple, lightweight faucets suitable for use with Whale foot or electric pumps. Not suitable for pressurised water systems. 13mm (1/2") hose connections.

Tuckaway Faucet

Telescopic Faucet

Flipper Pump Tap MK 4

A self-priming freshwater pump with swivelling outlet and light 'to and fro' pumping action. Ideal for use with two sinks. Output of 7 litres per minute. 5 year warranty.

Part No	Description	Whale No
73082	Flipper Pump	GP0418
73083	Service Kit MK3/MK4	AK0405

V Pump Tap Mk 6

Vertical, self-priming freshwater and saltwater pump with angled spout and adjustable height. Ideal where space is limited. Narrow base allows installation between two sinks. Delivers a smooth discharge on each stroke.

Part No	Description	Whale No
73080	V Pump Mk 6	GP0650

Whale Service Kit V Pump Mk5/6 AK0618. Service kit with complete set of serviceable parts for V Pump Mk5 and Mk6 AK0618 Serviceable Parts Kit for V-Pump Mk 5 and Mk 6. Qty Containing 1 Handle buffer Mk 51 Cup packing 1 Buffer 1 Valve 1 Valve stem 1 O-ring plunger cup seat 1 Grand U packing 1 O-ring base 1 O-ring head

Part No	Description
73081	Whale MK 6 V Pump Kit

Babyfoot Pump Mk 2

Compact, low-cost, self-priming freshwater foot pump. Easy to install and useful in restricted spaces. Angled foot operation for more comfortable pumping. Can be used to prime Whale in-line booster pumps.

Part No	Description	Whale
73088	Babyfoot Pump Mk 2	GP4618
73089	Service Kit	AK4615

Gusher Galley Pump Mk 3

Self-priming galley pump with smooth, double action. Multi-directional inlet and outlet nozzles. 16 litres per minute. Can be used to prime Whale in-line booster pumps.

Part No	Description	Whale
73084	Galley Pump Mk 3	GP0550
73085	Service Kit	AK0553

Tip-Toe Pump Mk 4

Self-priming freshwater foot pump designed for neat thru-floor mounting. The plunger locks down flush with the floor when not in use. Comfortable for bare foot use and has an easy, smooth action.

Part No	Description
73086	Tip-Toe Pump Mk 4 GP1309
73087	Service Kit AK1304

Top Entry

Side Entry

Strum Boxes

Stops bilge debris from entering suction hoses and incorporates a non-return valve to prevent drain-back. Available in either top entry or side entry versions. Suitable for 25mm (1") or 38mm (1 1/2") hose.

Part No	Description
73031	Top Entry Strum Box SB5865
73030	Side Entry Strum Box SB4222

Manual Siphon Pump

This siphon pump easily transfers any liquid (water, diesel, petrol, etc.) from a container to another preventing dirt and fatigue. Place the pump into the container with the liquid and the end of its hose into the transfer container; take care to place the second container at a slightly lower level. Stir the pump in the liquid to let it rise up to the hose gooseneck and make it fall into the other container. Disconnect the pump from the hose to stop the flow. Made of copper and supplied with 1.7-m hose. No electricity required, fast, safe and clean. minimum Ø hose mm 14. Tube Ø 15mm. Flow 10 l/min.

Part No	Description
90559	Manual Siphon Pump

Pipe Connectors

Elbows are designed to fit onto pump spigots to allow a hose to connect to the pump at 90°. The Y connector enables two pumps to discharge through a single line.

Part No	Description
73037	25mm (1") Elbow (EB3364)
73036	38mm (1 1/2") Elbow (EB3488)
73035	38mm (1 1/2") 'Y' Piece (YP6114)

Whale Easy Bailer Pumps

Whale's hand held pump for easy bail out on board small boats. Portable light weight design. Suitable for bilge water or diesel transfer. Easy to use pump action handle. Flexible hose can be easily directed to hard to reach bilge areas.

Part No	Description
73062	Short Pump (470mm) Easy Bailer 35
73063	Long Pump (673mm) Easy Bailer 55

Prep - Heavy Duty Trade Wipes

Safe Guard wipes are tough, fast, safe and convenient wipes designed to remove a wide range of soils such as paint, silicones, mastics, inks, adhesives, oils, greases and general dirt. They are ideal for cleaning the hands, work tools and hard surfaces.

Contains ingredients to moisturise hands and prevent dryness. Enhanced formulation has anti-bacterial action and will remove bacteria from hands and surfaces. Effective against MRSA, Salmonella, Listeria and E-Coli. Tested by an independent laboratory to PrEN:12054 & BS 1276 standards.

Part No	Description
60292	Heavy Duty Trade Wipes (Tub of 80)

Loctite 7850 Hand Cleaner

Made from citrus rinds. Biodegradable and contains no synthetic solvents, mineral oil or petroleum distillate. Contains fine pumice for deep cleaning. Leaves hands smelling fresh and natural.

400ml
60625

Loctite 7855 Hand Cleaner

Removes paints, resins, enamels, silicones, adhesives and sealants. Contains no harmful solvents. Aloe, Jojoba and vitamin E moisturise the skin and prevent irritation.

400ml
60622

3M AURA 9312 (FFP1)

The 3M™ Aura™ 9300+ Series Disposable Respirator 06910+ provides lightweight, comfortable and effective protection against dust and mist. The convex shape, twin strap design, nose foam and nose clip ensure comfortable wear over a range of face sizes.

Sold each or in boxes of 20.

Part No

63980

3M 8822 Dust/Mist

Respirator With Valve (FFP2)

Valved Particulate Respirator designed with a soft Comfortable inner face-piece, featuring a patented exhalation valve that prevents heat and moisture build-up. Protects against: fine dusts, fibres, oil and water based mist. Approved to EN149:2001 FFP2. Nominal protection factor 12. Assigned protection factor 10. Sold each or in boxes of 10.

Part No

63986

3M 9322 Three-Panel

Dust/Mist Respirator With Valve (FFP2)

Valved Dust/Mist Respirator, for use in hot and humid areas where FFP2 protection is required. The 9322 has a unique 3 panel construction that offers the user increased comfort and is an individually wrapped foldable product. Also features the 3M cool flow valve. Approved to EN149:2001 FFP2. Nominal protection factor 12. Assigned protection factor 10. Sold individually or in packs of 10.

Part No

63989

3M 8825 Dust/Mist/Metal Fumes Respirator (FFP2)

This valved respirator protects against fine dust, oil based mists and particulate metal fumes. Approved to EN149:2001 FFP2D. Nominal protection factor 12. Assigned protection factor 10.

Sold each or in boxes of 5.

Part No

63992

3M 9332 Dust/Mist/Metal Fumes

Respirator With Valve (FFP3)

- Provides comfort and style without compromising performance
 - Extensive European field trials have proved the superiority of this range over more traditional respirators
 - Three-panel design for improved comfort, fit and communication
 - Reliable, effective protection against fine particulates
 - 3M Cool Flow valve reduces heat build-up to offer comfortable protection, particularly in hot and humid conditions
 - Individually packed, foldable design prevent contamination before use and allows easy storage
 - Even-tensioned straps relieve pressure for a comfortable and secure fit
 - Red colour coded straps denoting FFP3 protection level.
- Maximum use level: Assigned Protection Factor: 20 x WEL
(Nominal Protection Factor 50 x WEL)

Part No

63993

The **HIGHER** the number, the **GREATER** the protection.

FFP1 reduces the wearer's exposure to airborne particles by a **FACTOR OF 4**

FFP2 reduces the wearer's exposure to airborne particles by a **FACTOR OF 10**

FFP3 reduces the wearer's exposure to airborne particles by a **FACTOR OF 20**

3M 4251 Respirator FFA1P2R D

Re-Usable 4000 Series Half Mask Respirators. These masks are available in two grades and are designed to give protection against fine dusts, oil, water based mists and organic vapours. Bonded carbon allows the gas/vapour filter to be moulded around the face to improve vision and balance. Textured face seal to provide a more comfortable fit. Parabolic exhalation valve gives easier breathing and reduces heat build up.

The 4251 mask is approved to EN 405:2002 FFA1P2D. Assigned protection factor for Gases & Vapours: 10 or 1000ppm whichever ever is the lower. Assigned protection factor for Particulates: 10

Part No

63994

3M 4255 Respirator FFA2P3D

Re-Usable 4000 Series Half Mask Respirators. These masks are available in two grades and are designed to give protection against fine dusts, oil, water based mists and organic vapours. Bonded carbon allows the gas/vapour filter to be moulded around the face to improve vision and balance. Textured face seal to provide a more comfortable fit. Parabolic exhalation valve gives easier breathing and reduces heat build up.

The 4255 mask is approved to EN 405:2002 FFA2P3D. Assigned protection factor for Gases & Vapours: 10 or 5000ppm whichever ever is the lower. Assigned protection factor for Particulates: 20.

Part No

63995

3M 6000 Half-Mask Respirators

A low-maintenance, comfortable, reusable respirator which can be used with 2000, 5000 and 6000 series cartridges, filters, adaptors and retainers.

These masks are light-weight and feature a soft, contouring face piece. The 6-point head strap system can be easily disassembled and cleaned.

Filters must be purchased separately. (See next page)

Part No	Size
63997	Small Half Mask
63998	Medium Half Mask
63999	Large Half Mask

3M 6000 Soft Fit Half-Mask Respirators

With a Ready-to-Use Respiratory kit you have a safe solution for Painting. This ready to use kit contains a medium size reusable half mask with a set of A2P2 R filters to protect against organic vapours and particulates. Soft silicone face piece for comfort and durability with Cool Flow valve for reduced heat and moisture build up. Low profile, twin filter design half mask for a balanced secure fit.

Part No	Size
64000	Medium (6782)
64001	Large (6783)

3M 6000 Full Mask Respirators

A low-maintenance, comfortable, reusable respirator which can be used with 2000, 5000 and 6000 series cartridges, filters, adaptors and retainers.

These masks are light-weight (450g) and feature a soft, contouring hypo-allergenic face-piece.

The polycarbonate lens is scratch and impact resistant to EN166:B and offers a wide field of vision.

Filters must be purchased separately.

Part No	Size
64003	Large (6900)
64004	Medium (6800)
63985	Spare Face Shield Cover

3M 2125 P2 Particulate Filters Pack of 2

Versatility: can be used on all 3M 6000, 7000 and 7500 Series Half Masks and Full Face Masks
Maximum use concentration: 10xWEL
Standard: EN143

Part No

64007

3M 6051 A1 Filters Pack of 2

3M 6051 A1 Filters protect against organic gases and vapours.

Filters are specially designed and shaped to give "swept-back" position to enable excellent field of vision and balance. Class 1

Standard: EN14387

Part No

64006

3M 6059 ABEK1 Filters Pack of 2

Compatible with 3M 6000 & 7500 series full and half face masks
EN Standard - EN141
Hazard - Organic Vapours, Inorganic, Acid gases and Ammonia.

Part No

64013

3M 2135 P3 Particulate Filters Pack of 2

Versatility: can be used on all 3M 6000, 7000 and 7500 Series Half Masks and Full Face Masks
Maximum use concentration: 20xWEL (half mask) or 40xWEL (full face mask)
Standard: EN143

Part No

64014

3M 06915 Organic Vapours/ Gas Filters A2 Pack of 2

The 06915 has a filter type of A1 which will protect against organic vapours. Each filter is lightweight for optimal weight distribution, the unique shape gives unobstructed field of vision. Class 2

Part No

64005

3M 501 Filter Retainer Pack of 2

These retainers fit over the 6000 Series gas and vapour filters to provide a combination dust and gas filter
The 501 Retainer is needed to hold the 5000 series filter on the front of the 6000 series filter

Part No

64012

3M 6035 (P3) Pack of 2

Solid top design reduces chance of premature clogging. Unique easy to check seal promotes enhanced respirator fit. High temperature cover protects filter media from heat, sparks or physical damage. Bayonet fitting ensures precise & safer locking

Part No

64015

3M 5925 (P2) Pack of 2

The 3M™ 5925 is a soft, lightweight filter pack, which is designed for use with the 6000 series cartridges and the 3M 501 retainer. They provide the user with a high protection from contaminated environments and a wide range of industrial contaminants. With a filter type of P2, it can protect you against solid, liquid particles and gases with effective filtration efficiency.

Part No

64010

3M 5935 (P3) Pack of 2

3M™ Particulate Filter 5935 offers P3 R protection against solid and liquid particles, they can be used with 6000 series filters for combined gas and particulate protection in conjunction with a 501 filter retainer .

Part No

64011

Maxwell Up/Down Remote Panel
 Push button type. AWPanels / P102983

Easy to use, panel-mounted Up/Down switches for remote windlass operation from the helm, fly bridge or cockpit. Suitable for use with dual-directional solenoids. Manufactured from marine-grade materials.

Splash proof

Suitable for 12 and 24 Volt DC use.

Part No	Description
55377	Up/Down Remote Panel

Maxwell Up/Down Anchor Windlass Switch P102938

Easy to use, panel-mounted Up/Down switches for remote windlass operation from the helm, fly bridge or cockpit. Suitable for use with dual-directional solenoids. Manufactured from marine-grade materials.

Splash proof

Suitable for 12 and 24 Volt DC use.

Part No	Description
55420	Up/Down Anchor Switch

Maxwell Circuit Breaker / Isolator Panel

Used primarily for windlasses and capstans. For protection of the main conductor circuit. Allows battery to be isolated when winch is not in use. Can be used with 12V or 24V systems.

Part No	Description
55421	40 Amp P100789
55422	70 Amp P102903
55423	80 Amp P100790
55424	135 Amp P100791

Vetus Watertight Foot Switch Black or White

New Maxwell Compact up and down Windlass Footswitch with Black cover. Designed for use with a solenoid on 12 or 24v systems. Grey activation button is reversible to denote direction and can be operated by hand with the cover in place, or by foot with the cover flipped open.

Part No	Description
55364	Foot Switch Black P104810
55361	Foot Switch White P104809

Maxwell AA710 Wireless Windlass Control P102981

This kit contains a wireless hand held remote windlass controller and rode counter. 2.4GHz ISM band. Hand held controller displays rode count plus signal strength and battery level. Water resistant to IP67. Console requires two AA batteries. Rubber moulding for grip and non slip protection. Ergonomic shape with wrist strap connector. Console holder and protective cover. Shockproof. EEE 802.15.4 compliant.

Part No	Description
55425	Maxwell Wireless Control Panel

Vetus RECON Hand Held Remote Control

This electric remote control consists of: a rocker switch with a capacity of 20 A, suitable for 12 and 24 Volt D.C., and a three-core spiralled wire of 3.5 metres in length, complete with watertight plug and socket. This remote control comes in handy for the operation of: bow and stern thrusters, anchor windlasses, remote controlled gangways, electric cranes, hydraulic steering systems, etc. A stainless steel hanger loop is fitted on the back.

Part No	Description
55383	Hand Held Remote Control

Talamex Winch Handle Holder

Talamex winch handle holder in white plastic. Equipped with 4 mounting holes on the back. Also 4 openings on the side for attachment by band of max. 25 mm wide.

Hxwx: 250x90x55mm

Part No	Description
25201	Winch Handle Holder

Talamex Winch Handle

All-round plastic winch handle with lock-in mechanism and ball bearing-mounted grip. Light in weight and floats!

Length 250 mm

Chain Stopper

The chain stopper device prevents the anchor chain releasing prematurely while the boat is in use. It also prevents shock/abnormal loading of the windlass while the boat is at anchor. The Chain Stopper can be disengaged with a simple movement.

Part No	Chain Ø mm	Base mm	Overhang mm
30170	6/8	60 x 50	47
30171	10/12	80 x 70	63

Anchor Swivelling Connector AISI 316

Made of precision-cast AISI 316 stainless steel without protrusions, used to connect the chain to the anchor. It lets the anchor chain slide smoothly through the bow roller and avoids entangling of the shackle. New reinforced model with additional finish, exclusively made by Osculati.

Part No	Chain Ø mm	B mm	C mm	G mm	H mm	L mm	P mm
30182	6/8	10	7	21	95	16	9
30183	9/10	12	11	28	120	21	11

Twist Chain/Anchor Swivel Connector

Made of mirror-polished AISI 316 stainless steel. With the latest asymmetric anchors (Bruce, Delta, Trefoil® etc.), when the anchor is raised, it most probably turns the wrong side. The Twist swivelling connector turns the anchor correctly and it reeves into the roller or hawsehole. A shackle connects the fixed eye to the anchor.

Part No	Chain Ø mm	A mm	B mm	C mm
30185	6/8	120	60	28

Chain Pipe 90° AISI316

Monel Seizing Wire

Part No	Description
33870	0.9mm x 10m Spool

Allen Key Dee Shackles

Made of AISI 316 stainless steel, it enables the anchor to fit into the bow rollers without getting tangled.

Part No	Diameter	Length	Jaw Width
30377	8mm	32mm	16mm
30378	10mm	40mm	20mm

Anchors

Rocna Anchor Galvanised

The roll-bar ensures that the anchor always arrives at the ideal angle for penetration, and the setting skids guide the fluke tip which acts as a sharp chisel cutting into the seabed. With a third of the anchor's weight on its fluke tip, an instant reliable set is ensured with every use.

Part No	Weight (Kg)	Length (mm)	Fluke Area cm ²
30006	6kg	630	590
30007	10kg	724	795

53822	3.5M Orange
53824	5M Green

Stainless Steel Cam Buckle
For multiple applications: awnings, cushions, belt adjustment, etc. With spring lock.

Part No
96329

Stainless Steel Flat Eye Strap AISI316

Part No	Description	Dimensions	Centres
96317	30mm Flat Eye Strap	48 x 15mm	38mm
96318	50mm Flat Eye Strap	68.5 x 15mm	55mm

3 slit AISI 304 buckle

Part No	Description
96319	For straps up to 30mm
96320	For straps up to 50mm

30mm Plastic Buckle Screw Mounting

For multiple purposes: awnings, cushions, belt adjustment, etc.

Part No
96330

White Nylon Eye Strap

Part No	Description
96340	30mm Wide
96341	40mm Wide
96342	50mm Wide

These fenders use a specially designed Majoni adaptor to inflate with a bicycle pump or car pump. The recommended pressure is 0.2 bar / 2.p psi which allows you to give a little visible pressure to the fender with your flat hand.

Star Fender White

Easy to inflate by ball-valve.
Strong eyes.

Part No	Description	Length	Diameter
34200	Star Fender Star 1 White	45cm	12cm
34201	Star Fender Star 2 White	58cm	15cm
34202	Star Fender Star 3 White	62cm	21cm
34203	Star Fender Star 4 White	72cm	24cm
34204	Star Fender Star 5 White	90cm	30cm

Star Fender Navy

Easy to inflate by ball-valve.
Strong eyes.

Part No	Description	Length	Diameter
34209	Star Fender Star 1 Navy	45cm	12cm
34210	Star Fender Star 2 Navy	58cm	15cm
34211	Star Fender Star 3 Navy	62cm	21cm
34212	Star Fender Star 4 Navy	72cm	24cm
34213	Star Fender Star 5 Navy	90cm	30cm

Star Fender Socks

- Pulled over the fender to prevent scratching of the hull.
- Made of 100% acrylic, washable
- UV resistant
- Suits all Majoni "STAR" and "DROP" fenders.

Part No	Description
34215	Navy Fender Sock Fits Star 1 Navy
34216	Navy Fender Sock Fits Star 2 Navy
34217	Navy Fender Sock Fits Star 3 Navy
34218	Navy Fender Sock Fits Star 4 Navy
34219	Navy Fender Sock Fits Star 5 Navy

Heavy Duty Fender White

Extra strong heavy duty fenders with black head and ball valve. Head of the fender is massive so that they can be extra loaded.

Part No	Description	Length	Diameter
34224	Heavy Duty Fender 1 White	54cm	13cm
34225	Heavy Duty Fender 2 White	65cm	15cm
34226	Heavy Duty Fender 3 White	75cm	20cm
34227	Heavy Duty Fender 4 White	85cm	25cm

Heavy Duty Fender Navy

Extra strong heavy duty fenders with black head and ball valve. Head of the fender is massive so that they can be extra loaded.

Part No	Description	Length	Diameter
34233	Heavy Duty Fender 1 Navy	54cm	13cm
34234	Heavy Duty Fender 2 Navy	65cm	15cm
34235	Heavy Duty Fender 3 Navy	75cm	20cm
34236	Heavy Duty Fender 4 Navy	85cm	25cm

Mega Fender

The Talamex Mega Fender by Majoni is a tough, double ended marine fender for vertical or horizontal use in two extra large sizes

Part No	Description	Length	Diameter
34359	Mega Fender White	110cm	35cm
34360	Mega Fender White	140cm	45cm
34361	Mega Fender Blue	110cm	35cm
34362	Mega Fender Blue	140cm	45cm

Pick Up Buoy

Anchor Marine Pick Up Buoy
Well designed mooring buoys, which are easy to grab by hand or with a boathook. The thimble eye at the bottom ensures a strong line attachment. Signal Orange.

Part No	Description
34400	8" Signal Orange Pick Up Buoy
34401	12" Signal Orange Pick Up Buoy

Pick Up Fender

Part No	Description	Length	Diameter
34328	Pick Up Fender Orange	35cm	15cm

Dock Fenders

In strong winds and strong currents safe and secure docking. Inflatable dock fender, UV resistible PVC. 6-screw attachment .
W x H x D cm
110 x 24 x 24

Part No	Description
34383	White Dock Fender
34384	Navy Dock Fender

Dock Corner Fenders Bow

For corners and roundings. Bendable till 90°
Inflatable, UV resistible PVC. 3-screw attachment

W x H x D cm
100 x 19 x 19

Part No	Description
34385	White Dock Fender
34386	Navy Dock Fender

Flexible White Dock Fender

Special fender for swimming and jetties. Inflatable fender is foldable in two positions. Therefore it is also suitable for corners. 8 screw attachment system.

W x H x D cm
100 x 12 x 7

Part No	Description
34382	White Flexible Dock Fender

Flat fenders

Made of an EVA 100+PE 30 sandwich (closed cell materials). They are floating and oil-resistant. Very sturdy and elastic, they can be used as emergency cushions or floating aids

Part No	Description
96070	Flat Fender 48 x 18 x 5cm
96071	Flat Fender 65 x 31 x 8cm
96072	Flat Fender 95 x 31 x 8cm

Mooring Compensator 750kg

For boats 17-20 tons. Breaking load kg 20.000. Stroke 120mm. Elasticity 750kg.

Part No
96495

Adaptor Valve Majoni

Part No	Description
34375	Adaptor Valve

Spare Valve Majoni

Part No	Description
34374	Spare Valve

Aluminium Alloy Boathooks

High quality aluminium boathooks available in fixed lengths of 4ft and 6ft and also in a telescopic design with a variable reach from 3ft to 8ft.

Part No	Description
90581	4ft Fixed
90582	6ft Fixed
90580	3 - 8ft Telescopic

Fixed type

Kevlar Scissors

These compact shears are designed to cut Kevlar and other tough materials. With a carbon steel blade, the scissors deliver a strong and precise cut. The compact design ensures excellent handling and control, while giving you the leverage you need for heavy-duty applications. These 6 1/4 inch shears are also ideal for cutting everyday fabrics and materials, and so are a highly versatile tool.

Part No	Description
35205	6 1/4" Kevlar Scissors

Sailmaker Needles	
5 different needles per pack:	
Upholsterers	
Leather	
Sail Tent	
Carpet	
Sack	
Part No	Description
35201	5 Sailmakers Needles

Shockcord
Kingfisher's shockcords have a braided cover and a natural rubber core. The ropes are made to have 100% stretch, have good abrasion resistance and are used for many applications.

ROPES TESTED TO THE LIMIT

All our ropes are tested to the limit. On the water, in some of the world's greatest yacht races, and off the water at the factory where we test all ropes to destruction. We always publish minimum spliced breaking loads as the only loads that are achievable by, and relevant to, the user.

Matt Polyester is a soft Polyester braid on braid with a high grip staple Polyester cover. It is ideal for sheets, control lines and classic rigging.

Diameter (mm)	Red	Blue	Breaking Strain (kg)
6	38990	-	590
8	38991	38995	1000

Evolution Performance Mini Spools

Evolution Performance is a low stretch polyester rope with a hardwearing cover.

Diameter (mm)	White	Red	Blue	Yellow	Orange	Purple	Black
3	39166	39167	39168	39169	39170	39171	39172

Braided Whipping Twine

Waxed polyester braided whipping twine.

Diameter (mm)	White	Red	Blue	Black	Classic/Beige
1	39173	39175	39176	39177	39178
1.4	39174	-	-	-	-

Rope Size Black Heat Shrink 4:1 Ratio Adhesive Lined

1M long black adhesive lined heat shrink which is most suitable for large ropes. Material Polyolefin (With Hot Melt Adhesive). Standard UL Approved. Working Temp - 55°C to +125°C. Shrink Temp 90°C. Dielectric Voltage Withstand 2500V, 60 Seconds, No Breakdown. ROHS Compliant Yes. Zero Halogen Yes . Flammability VW-1

Size before shrink: 32mm. Size after shrink: 8mm. Size before shrink: 40mm. Size after shrink: 10mm. Size before shrink: 52mm. Size after shrink: 13mm.

Part No	Description
70840	32mm x 1M 4:1 Black Adhesive Heatshrink
70841	40mm x 1M 4:1 Black Adhesive Heatshrink
70842	52mm x 1M 4:1 Black Adhesive Heatshrink

64mm Blue Wear Sleeveing

To reduce the wear on your ropes.
Sold by the metre.

Part No	Description
39195	64mm sleeveing

Neon Whipping Twine

1mm x 40 reels. Assorted colours
Braided whipping twine.
(sold each)

Part No	Description
39165	Assorted neon twine.

We now stock a range of allen brothers blocks and can source any items for you. Please head to the allen brothers website, find the part you would like and let us know so that we can quote you and give you an accurate lead time.

6mm Single Plain Bearing Block
 540kg breaking load
 Length 37mm
 The A2020P is our block of choice for applications which require a lightweight, budget friendly pulley.
 Part No
 53200

6mm Double Plain Bearing Block
 500kg breaking load
 Length 47.6mm
 The A2022P is our block of choice for applications which require a lightweight, budget friendly pulley.
 Part No
 53201

6mm Single Plain Bearing Cheek Block
 350kg breaking load
 Length 45mm
 The A2026P ideal for leading lines along a deck, into a cleat or around corner .
 Part No
 53202

6mm Single Plain Bearing Tie On Block
 540kg breaking load
 Length 29mm
 This A2020PTII Tii-On block feature a stainless-steel loop at the head of the block. This gives our Tii-On range maximum strength and reliability with minimal cheek separation when tied on and loaded up with a soft shackle.
 Part No
 53203

8mm Single Plain Bearing Block
 750kg breaking load
 Length 49mm
 The A2030P is our block of choice for applications which require a lightweight, budget friendly pulley. It is ideal for many different applications on dinghies, windsurfing, kitesurfing and anything else that runs smaller diameter lines.
 Part No
 53204

8mm Double Plain Bearing Block
 1250kg breaking load
 Length 64mm
 The A2032P is lightweight and strong, making it ideal for dinghies, windsurfing, kitesurfing and anything else that runs smaller diameter lines.
 Part No
 53205

8mm Single Plain Bearing Cheek Block
 500kg breaking load
 Length 58.7mm
 The A2036P is ideal for leading lines along a deck, into a cleat or around corners. Held in place by one screw through the head of the Profix cheek adaptor.
 Part No
 53206

8mm Single Ball Bearing Tie On Block
 750kg breaking load
 Length 42mm
 The A2030TII features a stainless-steel loop at the head of the block. This gives our Tii-On range maximum strength and reliability with minimal cheek separation when tied on and loaded up with a soft shackle. The stainless-steel head loop also ensures the block stays in the right orientation when being used.
 Part No
 53207

10mm Single Swivel Ball Bearing Block
 780kg breaking load
 Length 82mm
 40mm dynamic blocks are perfect for use on main, jib and spinnaker sheets on dinghies and keelboat control lines.
 A20401
 Part No
 53208

10mm Double Swivel Ball Bearing Block
 1150kg breaking load / Length 92mm
 40mm dynamic blocks are perfect for use on main, jib and spinnaker sheets on dinghies and keelboat control lines.
 A20402
 Part No
 53209

10mm Single Ball Bearing Tie On Block
800kg breaking load
Length 58mm
The 40mm single Tii-on block is our go-to dinghy mainsheet block. Also ideal for dinghy jib and spinnaker sheeting systems as well as keelboat control lines.
A2040TII
Part No
53210

8mm Single Fixed or Swivel Block Ball Bearing
Black nylon and stainless steel reinforced model.
Sheave 34mm
Breaking Load 800kg
Working Load 300kg
Part No
96570

8mm Double Fixed Block Ball Bearing
Black nylon and stainless steel reinforced model.
Sheave 34mm
Breaking Load 800kg
Working Load 300kg
Part No
96571

10mm Single Fixed or Swivel Block Ball Bearing
Black nylon and stainless steel reinforced model.
Sheave 45mm
Breaking Load 950kg
Working Load 370kg

12mm Single Fixed or Swivel Block Ball Bearing
Black nylon and stainless steel reinforced model.
Sheave 56mm
Breaking Load 1450kg
Working Load 580kg
Part No
96574

12mm Double Fixed Block Ball Bearing
Black nylon and stainless steel reinforced model.
Sheave 56mm
Breaking Load 1450kg
Working Load 580kg
Part No
96575

Team McLube One Drop Ball Bearing Conditioner 14.7ml
Allows ball bearings to roll freely and evenly. Eliminates skidding and sliding of the balls. Conditions and lubricates the surface of the balls. Maintains a clean, smooth ball bearing surface, free from dirt, sand, salt, and grime. Packaged in a unique pinpoint dispenser for clean and easy application.
Part No
60691

Dog Bones
Dog Bones can be used in a variety of applications. Ideal for use with soft shackles as rope stops or spliced to the end of a halyard to make a quick and easy attachment for the sail. CNC Machined from aluminium, our dog bones are extremely hard-wearing.
Part No Size
53212 8mm Dogbone (A8608)
53213 10mm Dogbone (A8610)
53214 12mm Dogbone (A8612)

Aluminium Thimble / Friction Rings

Also known as low friction rings, lowering rings, lead rings, hard eyes and thimbles. High Load Thimbles are a great alternative to blocks when there is a need for high static-load capabilities. Our high load thimbles come coated in Teflon to help reduce friction.

Part No	Rope Size	Maximum Working Load KG	Outside Diameter	Allen No

Allenite Cam Cleats

Allenite Plain Bearing Cam Cleats feature the same jaw profile as the aluminium version, but the jaws and base are moulded from a proprietary material developed specifically for low weight and good heat dissipation to increase wear resistance when compared to standard acetals. The removal of ball bearings offers a further weight reduction.

Small Wedge Kit - A.493-993

Wedge Kit For Top And Bottom Of Deck – Tilt or raise the cam cleat to suit the lead of the rope or make cleating or un-cleating easier. Cam cleats should where possible have rope lead into them on a central or negative angle (below the mounting point).

Fixing Hole Centres 28mm

Part No

53227

Small Fairlead - A.488

A nylon fitting that fits directly on top of the cam cleat. The fairlead is specifically for stopping rope from leaving the cam cleat and is best used for applications where high precision cleating from a distance is not required. Fixing Hole Centres 28mm

Part No

53228

Medium Wedge Kit - A.593-893

Wedge Kit For Top And Bottom Of Deck – Tilt or raise the cam cleat to suit the lead of the rope or make cleating or un-cleating easier. Cam cleats should where possible have rope lead into them on a central or negative angle (below the mounting point).

Fixing Hole Centres 38mm

90630	PLB1 Personal Locator Beacon

Wherever you are, at sea, on land, the **rescueME PLB1** provides the reassurance that global emergency services can be alerted by the press of a button.

- 30% smaller (typ) by volume*
- Easily fits in lifejacket
- Retractable Antenna
- 7 Year Battery Life
- 7 year warranty*
- 24+ hour operational life
- High brightness strobe light >1candela
- 66 channel GPS receiver

The **rescueMe PLB1** can be operated with a single hand in even the most challenging situations. A simple spring loaded flap covers the activation button preventing inadvertent use.

rescueME PLB1 works with the only officially recognised worldwide dedicated search and rescue satellite network (operated by Cospas Sarsat). As this is funded by governments there are NO CHARGES to use this service.

When activated the **rescueME PLB1** transmits your position and your ID to a Rescue Coordination Center via satellite link. Rescue services nearest to you are promptly notified of your emergency and regularly advised of your current location to assist prompt rescue.

Part No	Description
90631	EPIRB1 Emergency Position Indicating Radio Beacon

The **rescueME EPIRB1** provides peace of mind with an impressive 10 year battery life. The world's most compact EPIRB can always be on hand, as its small size allows it to be easily retained within its quick release bracket or placed in an emergency grab-bag or life raft.

- 30%(typ) smaller
- 10 year battery life
- 48+ hours operational life
- 5 year warranty
- Fast accurate positioning with 66 channel GPS
- Retractable antenna
- Quick release bracket
- Secure lanyard

A simple protective tab over the operating keys prevents inadvertent activation, yet allows for easy operation when required. The **rescueME EPIRB1** also features two high brightness strobes to maximise visibility in low light conditions.

The retractable antenna provides maximum protection and a reduced outline for stowage. When required the antenna is easily deployed with a gentle pull.

For longer offshore or ocean passages, the Ocean Signal **E100G EPIRB** offers an exceptional 96 hour operational life with the option of an automatic release housing (mandatory for vessels approved under SOLAS regulations).

*30% smaller, compared to other products approved to recognised standards (July 2014) † Subject to warranty statement.

The dimensions are 178mm [H with antenna stowed] x 89mm dia [100mm over the lanyard tab]

Part No	Description
90632	MOB1 Man Over Board Personal Locator

Introducing the world's smallest AIS MOB device with integrated DSC – the **rescueME MOB1** from Ocean Signal. The **MOB1** is compatible with even the most compact inflatable life-jackets.

- Integrated DSC transmitter
- (digital selective calling)
- 30% (typ) smaller than competitors
- Automatic activation
- Simple lifejacket integration
- 7 year battery life
- 24+ hours operational life
- 5 year warranty
- Fast accurate positioning

The **MOB1** is intended to be installed within the life-jacket and will activate automatically on inflation, sending the first alert within 15 seconds.

The integrated strobe light ensures maximum visibility in low light conditions.

The **MOB1** communicates with the vessel you have been separated from and other vessels in the vicinity (up to 5 miles range dependent on conditions). To alert rescue authorities, an alternative product the **rescueME PLB1** communicates directly via a dedicated search and rescue satellite network.

In an emergency **rescueME MOB1** provides 2 methods of rapidly communicating your position, accurate to a few metres, back to the vessel, plus providing visual indication via its built in strobe light.

The best chance of rapid rescue if you fall overboard comes from your own vessel. Your crew needs to be immediately aware of the incident and keep track of your position whilst recovery is carried out. Even in the most moderate of seas it is alarming how quickly a visual sighting of a man overboard can be lost.

Once activated your **MOB1** will transmit an alert to all AIS receivers and AIS enabled plotters in the vicinity. The integrated GPS ensures that your precise location is sent to your vessel and any others that may be assisting.

An additional feature of the MOB1, is its ability to activate the DSC alarm on your vessels VHF, alerting your crew to the situation.

The **rescueME EDF1** electronic distress flare offers users a safe and long-lasting solution to visual signalling in an emergency.

The unique lens design combined with the use of advanced LEDs and highly efficient circuit technology ensures a constant level of light output throughout the life of the user replaceable battery.

The light output is a beam of over 30° throughout the full 360° azimuth, providing in excess of 6 times more light coverage than other electronic flares. Light is also distributed throughout the hemisphere above the unit to ensure visibility from the air.

Unlike single use pyrotechnic flares the **rescueME EDF1** can be used repeatedly in any of its four modes, ensuring continued visibility is maintained over a longer period. The unit is both safe to store and operate while also eliminating any worries associated with disposal.

Part No	Description
90633	EDF1 Electronic

The compact size and rugged design means the **rescueME EDF1** is the perfect safety product for a grab bag, life raft or hiker's backpack.

Certified for boats

FireBlitz

ABC Powder Extinguisher 'Ships Wheel' (1kg)

Refillable ABC Dry Powder Extinguishers suitable for use in the home, office, vehicles, boats and many commercial and industrial applications.

Certified by DNV to MED 'Ships Wheel' – meets the recommendations of the Royal Yachting Association and British Waterways Joint Boat Safety Scheme.

Accredited to EN3 by BSI and Kitemarked.

Certified by DNV to MED 'Ships Wheel'.

5 year warranty.

Stored pressure – Easy low-cost maintenance.

Suitable for A, B and C Fire classifications.

Safe for use on electrical equipment.

Controlled discharge.

Supplied with powder coated, steel wire bracket.

FireBlitz

Glass Fire Blanket (100 x 100cm)

Glass fibre fire blanket for domestic and light industrial use. Can also be used on fires involving personal clothing. Manufactured in the UK. BSI certified to BS EN 1869:2019 and Kitemarked.

Supplied in a red hard plastic container for easy surface mounting

Part No

92055

Alpha 600g - Dry Powder Fire Extinguisher

Dry Powder Fire Extinguishers are small but highly efficient fire extinguishers offering protection against class B & C fires and safe to use on electrical fires. These models are ideal for a wide range of domestic applications and motor vehicles. Safe for use on live electrical equipment. Manufactured to BS6165:2019+A1:2022 • Fully Certified by BSI & Kitemarked

Part No
96056

Fire Port Polished Stainless Steel 68mm

Made in accordance with Directive 2013/53/UE in compliance with ISO 9094-2 standards. Designed to access the engine box with an extinguisher without opening the box. Hole closed with a watertight PVC breakable flap. External Ø 68mm . Hole 45mm.

Part No
96058

Beta 950g Dry Powder Fire Extinguisher

Dry Powder Fire Extinguishers are small but highly efficient fire extinguishers offering protection against class B & C fires and safe to use on electrical fires. These models are ideal for a wide range of domestic applications and motor vehicles. Safe for use on live electrical equipment. Manufactured to BS6165:2019+A1:2022 • Fully Certified by BSI & Kitemarked

Part No
96057

Vetus Fire Port (FIREPORTB)

This fire port permits a fire extinguisher to be discharged into the engine space, or any other enclosed area. In the event of a fire, the extinguisher nozzle can be inserted through the port in complete safety, thus avoiding fuelling the fire by opening the compartment and minimising risk to the crew.

Recommended by CE and ABYC directives
Also suitable for outboard motors
Made of UV and seawater resistant synthetic material
Cut-out diameter: Ø 38 mm. Outside dimensions: Ø 76 mm.

Part No
58231

Vetus Gas & Carbon Monoxide Detector 12/24V

The gas detector model GD1000 offers a gas detection system for a range of combustible gases including propane, butane, methane and hydrogen. In addition it will also detect poisonous carbon monoxide.

Maximum relay contact ratings for extractor fan, gas solenoid valve and external alarm: 1A for each function.

Control panel dimensions : 85 x 85mm

Built in depth: 40mm

Sensor 35 x 26 x 62mm

Part No	Vetus	Description
55935	GD1000	12V/24V Detector + Sensor
55936	GSENSOR	Extra Sensor

Vetus Petrol & Carbon Monoxide Detector 12/24V

The gas detector PD1000 detects petrol vapour to prevent the risk of explosion in the engine room, as well as poisonous carbon monoxide (CO).

Maximum relay contact ratings for extractor fan, gas solenoid valve and external alarm: 1A for each function.

Control panel dimensions : 85 x 85mm

Built in depth: 40mm

Sensor 35 x 26 x 62mm

Part No	Vetus	Description

Secure Lock Antitheft Device

Locks the butterfly nut: 1) So the engine cannot plunge into the water; 2) prevents the outboard engine from being stolen, as the secure lock must be broken. Made of anodized aluminium pipe thickness 4 mm (very sturdy); brass and stainless steel lock with two keys. Tough sturdy lock discourages thieves; compact model with stainless steel end-pieces and the inner pipe is made of anti-rattle foam .

Part No	Description
96315	Antitheft up to 25HP
96316	Antitheft over 25 HP and for all Mercury engines.

Outboard Locks

Allpa Outboard Clamp Lock

Adjustable lock mechanism allows fitment to most outboard motors. Body constructed from 316 stainless steel with a brass lock. Complete with floating key ring.

Dimensions: 303 X 40 X 40mm

Part No

91587

Outboard Motor / Outdrive Leg Bolt Locks

These locks fit over bolts preventing nut removal. Body made from 316 stainless steel with brass lock. Includes PVC protection cover.

Part No	To Fit Bolt Size	Diameter	Length
91589	M10	29mm	55mm
91588	M12	38mm	73mm

- Contains:
- Pair of oars
 - Red hand flares
 - Bailer and 2 sponges
 - Waterproof torch and whistle
 - Lifesaving signal cards
 - Floating knife
 - Drogue
 - Repair clamps
 - Rescue quoit and 30m line
 - Bellows hand pump

Ocean Safety Life Raft

The Ocean Standard life raft is a practical yet affordable life raft and is the latest addition in the life raft range offered by Ocean Safety. It was introduced to fulfil the requirement for a quality yet practical entry level life raft, which is ideal for coastal and short offshore recreational boating and non-coded craft.

Made with quality rubber

Insulated floor

Highly visible orange canopy

4 x 30 litre water pockets

Zip closure on entrance

Rain water dispenser system and collection system

Automatic light

ORC safety pack

Part No	Description
90625	Ocean Standard 4 Man 650 x 430 x 280mm
90626	Ocean Standard 6 Man 740 x 480 x 290mm

Vetus Water Resistant Binoculars BINO1

The durable, lightweight housing and the relatively compact size make the BINO1 the ideal binoculars to have at hand at all times. The BK7 prisms and multi-coated lenses deliver very sharp images and the housing is fitted with a non-slip grip. The rubber eyecups can be rolled down which allows wearers of (sun) glasses to easily use the binoculars. Supplied with bag, strap and lens caps. Magnification: 7x; Lens diameter 50 mm. Water repellent. Fixed focus and central variable focus. Flexible eyecups for use with (sun) glasses. Non-slip grip. Robust housing.

Part No	Description
58633	Vetus Binoculars 7 x 50mm

Thermal Protective Aid—MCA

Unique aluminised polythene suit designed with heat sealed seams for maximum protection.

MED Ship's Wheel approved

One size fits all

Protection to -30 degrees C

Part No	Description
90620	Thermal Protective Aid - MCA

Kru XF: Automatic + Harness - Navy

A versatile and lightweight lifejacket that is ISO approved, AIS ready and features Wave Barrier technology, the Kru XF is ideal for coastal sailing & general watersports. Wave Barrier technology delivers sub 5 second super-fast turn speed. The wearer is placed on their back keeping airways raised above water and clear. The interlocking bladder blocks the flow of water into the wearers airways, massively reducing the risk of secondary drowning

Easy front donning

Rated 150N with actual buoyancy of 170N

Side adjustment for bespoke fit

Tailored collar for increased comfort

Single crotch strap eliminating ride-up

Harness and non-harness versions available

Stainless steel D-ring for safety harness (harness version only)

Durable outer cover

Approved service network

Part No

90618

Kru Sport ADV

The Ocean Safety Kru Sport ADV Inflation PFD offers a sprayhood and wave barrier technology, as well as a quick-burst zip and a lifejacket light. It is AIS ready. Sprayhood. Lifejacket light. Scoop back neck design for increased comfort. Side adjustable waist belt.

Crotch strap for additional security

Wave barrier technology helps keep airways clear

170N buoyancy

Wave barrier tech delivers sub-5-second turn speed

The wearer is placed on their back, keeping airways raised above the water

Interlocking bladder blocks the flow of water into the wearer's airways, reducing the risk of drowning

Part No

90621

The AQ40L is a compact flashing lifejacket light, automatically water activated by its sensor lead or manually. Its unique size and shape, makes the AQ40L ideal for a variety of life jackets.

Ultra bright powerful white flashing LED dome light

Manual and automatic water activation by sensor lead

Functional and simple design

Fixing clip designed for easy attachment

Maintenance free five year battery life

Tamper-proof

Part No Description

90619 Aquaspec AQ40LM Lifejacket Light

United Moulders Junior Manual Re-Arm Pack- 24G

The United Moulders (UM) lifejacket inflator uses a screw on cartridge and activates when it comes into contact with water. The cartridge mechanism has a compressed high powered spring which is held by a paper element. When the paper element dissolves it releases the spring which allows the firing mechanism to puncture the CO2 cylinder, the CO2 then travels through the manifold and inflates the lifejacket. The Automatic system is backed up by a manual override, which allows the user to pull the toggle and inflate the lifejacket.

Part No	Description
90609	24G Manual Junior Re-Arming Pack

United Moulders Gas Cylinder Manual Re-Arm Pack- 33G

The manual re-arming kits are for both United Moulders and Halkey Roberts activated lifejackets.

Part No	Description
90611	33G Manual Re-Arming Pack

United Moulders (UM) Automatic Kit UM 33G Automatic Re-Arm Kit

The United Moulders (UM) lifejacket inflator uses a screw on cartridge and activates when it comes into contact with water. The cartridge mechanism has a compressed high powered spring which is held by a paper element. When the paper element dissolves it releases the spring which allows the firing mechanism to puncture the CO2 cylinder, the CO2 then travels through the manifold and inflates the lifejacket. The Automatic system is backed up by a manual override, which allows the user to pull the toggle and inflate the lifejacket.

Part No	Description

Seat pedestals

All pedestals are made of high grade aluminum and have a 360° rotatable swivel on top. Gas adjustable pedestals are operated with a handle. Manually adjustable pedestals have both a lockpin with a locking position every 25 mm and a clamping knob for complete security. The sliding mechanism can be moved through 135 mm in total and locked in one of 7 positions.

Gas adjustable pedestals with slide

For optimum enjoyment of your seat. Gas spring height adjustable aluminum seat pedestal with slide and 360° swivel. Polished base.

Profile 100 Extra Heavy Cut Paste Compound

Aggressive compounding paste for tough resins and gelcoats. Leaves a low gloss finish. Ideal for plugs and moulds. Our "liquid sandpaper", Profile 100 Extra is a coarse, water-based cutting compound designed for aggressive compounding on tough resins and gel coats. It removes P600 dry sanding marks from most substrates, leaving a relatively low gloss finish. Profile 100 Extra is often used in the first stage of a two-step polishing process when high gloss is required.

Part No

63115 100g Heavy Cut

63116 3kg Heavy Cut

Profile 200 Select Coarse Cut Liquid Compound 1 Litre

Eliminates sanding marks and heavy defects from production and tooling gelcoat surfaces. Can be used as a one-step process from P800 or P1000 for fast polishing of white production gelcoats in areas where a mirror finish is not required. Used with a G Mop Twisted Wool Compounding Pad, Profile 200 Select quickly removes P800 or finer sanding marks from tooling or production gel coats in a one-step process.

Performs best when shaken before use and run at high speed (2000 – 3500rpm).

Part No

63117

Profile 350 Premium Liquid GRP Fast Medium Cut Liquid Compound 1 Litre

Rapidly eliminates P1500 scratches from GRP. Very effective on dark GRP surfaces. Can also be used on painted surfaces to restore colour. Profile 350 Premium Liquid GRP Fast Medium Cut Liquid Compound is a high performance, water-based cutting compound which removes P1500 or finer sanding marks from production gel coats and painted finishes, and is the perfect solution for restoring oxidised and weathered gel coat surfaces. Great on dark colours, Profile 350 Premium Liquid delivers a high gloss finish and is used as a one step product on white gel coats and as the first stage of a two part compounding process where higher gloss and lower swirl is required.

Part No

63118

Profile 400 Advanced Plus Fast Medium Liquid Compound 1 Litre

Rapidly eliminates P1500 sanding marks and defects from paint, lacquer, acrylic, plexiglass and gelcoat surfaces, leaving a high gloss. Can be used as a high gloss one-step process on white production gelcoats

Farecla G3 Pro Supergloss Paste Wax 150g

Ultra high gloss finish Up to 6 months protection Includes Waffle Applicator Pad. G3 Pro SuperGloss Paste Wax is a highly refined wax to create the perfect blend for even application. Made with selected hydrocarbons, microwaxes and high grade Carnauba wax, the results are an exceptional ultra high gloss finish and up to 6 months protection.

Part No

63103

Farecla 1 Litre Profile Polymer UV WAX - Machine Application

Easily applied wax containing UV inhibitors. Provides up to 3 months protection and gloss on paint, lacquer and gelcoat surfaces. Apply with polishing machine, ideal for working on larger areas. Profile Polymer UV Wax Machine Application is a high performance polymeric liquid wax specially developed for ultimate gloss and water resistance, whilst protecting against UV degradation. It is extremely fast and easy to use by machine and can be sprayed onto surfaces using either a small hand spray bottle or pump spray system. It is highly resistant to drying out and can be polished to easily to leave a durable high gloss on

Part No

63100

Farecla 1 Litre Profile UV WAX - Hand Application

Thick wax containing UV inhibitors. Provides up to 3 months protection and gloss on paint, lacquer and gelcoat surfaces. Apply with a clean, dry microfibre cloth to protect gloss finish. Profile UV Wax Hand Application is a liquid wax incorporating special UV absorbers to give up to 3 months protection to gel coats and paints exposed to external weathering. Long lasting protection against rain and salt water whilst the UV absorbers protect against exposure to sunlight. Profile UV Wax will give a high gloss, long-lasting finish on most surfaces and is particularly suitable for use on boats, caravans, trains and planes.

MIRKA

Mirka Polarshine® 45

Save time and achieve that perfect deep gloss. Now it's possible with Polarshine® 45. Mirka's professional coarse polishing compound is ideal for marine and industrial gelcoats, both in production and restoration processes.

For further information, please contact Customer Services on 01908 866100

www.mirka.co.uk

DEDICATED TO THE FINISH.

MIRKA

Polarshine 10 Polishing Compound 1ltr

An ultimate single compound system. Polarshine 10 is a medium coarse polishing compound especially designed for achieving the best result after sanding with Mirka's unique products. Polarshine 10 is suitable for all paint systems and for polishing of scratch resistant clear coats. It is designed to keep the surface temperature low when polishing and it removes marks permanently. Polarshine 10 is silicone-free and can be applied both by machine and by hand.

Part No	Description
64860	Polarshine 10 Polishing Compound 1ltr

MIRKA

Polarshine 12 Polishing Compound (For Dark Hulls)

Polarshine® 12 is a water-based and silicone-free one-step polishing compound. Polarshine® 12 removes scratches from P2000 or finer (depending on the surface and polishing pad) and it has a perfect balance of haze and hologram versus speed of cut. Use for polishing. Leaves a high gloss finish.

Part No	64861
---------	-------

MIRKA

Polarshine 20 Polishing Compound 1ltr

Polarshine 20 is a medium coarse polishing compound for scratch removal and optimised to work on fresh and soft clear coats. This water-soluble polishing compound gives an excellent cut and leaves a very high gloss surface. In order to obtain a hologram free and superior high gloss surface especially on darker colours it is recommended to use Polarshine 5 as the last step in the polishing process.

Part No	Description
64862	Polarshine 20 Polishing Compound 1ltr

MIRKA

Polarshine 35 Polishing Compound 1ltr

Polarshine 35 is a coarse polishing compound developed for demanding Industrial and Marine applications. Polarshine 35 is suitable for materials such as gel coats, high gloss lacquers and composites. This product has a faster and more efficient compound and produces a high surface gloss. By using Polarshine 35 you are able to minimize the sanding steps. This polishing compound has special emulsifying properties, which reduce the risk of drying out or overheating the surface. The viscosity of Polarshine 35 reduces splashing and is easy to use.

Part No	Description
64864	Polarshine 35 Polishing Compound 1ltr

MIRKA

Polarshine 45 Polishing Compound 1ltr

A coarse and fast cutting polishing compound that helps you save time and still achieve a perfect deep gloss finish. Removes sanding scratches from P600 and finer quickly and permanently. Designed for hard surfaces and coatings, especially within the marine sector. Used in both production and restoration processes, Polarshine 45 is ideal for one-step polishing of white and light-coloured gel coat surfaces. For darker colours, we recommend a second step with Polarshine 10 to remove swirl marks.

Part No	Description
64865	Polarshine 45 Polishing Compound 1ltr

Galaxy Ø 150 mm Multifit Grip Sanding Discs

The ceramic grains of the Galaxy are engineered not to dull, as once the edge of the abrasive grain breaks off it simply forms new edges, making it possible for the Galaxy to continue cutting – from edge to edge. The self-sharpening ceramic grains allow for a winning combination of long life, fast cut and easy polishability. Thanks to the optimized Multifit hole configuration, the abrasive is always correctly placed on any machine without the need to specifically align it. At its core, the Mirka Galaxy is a multi purpose product, suitable for the sanding of both soft and hard materials as well as various substrates. Superb edge wear resistance, excellent clogging resistance, dust repellent coating, and optimal dust extraction - the Mirka Galaxy serve well in the automotive sector, in vehicle manufacturing, collision repair, marine production as well as in the wood sector. Use for Steel, Mild steel / carbon steel, Non-ferrous metal, Paint stripping / removal, Plaster / Putty, Synthetic materials, Chipboard, Solid surface, Stainless steel, Composites, Veneer, Plastics, Primer, Paint sanding, Body filler, Hard wood, Soft / Resinous wood, Lacquers, MDF / HDF, Gel coat, Glass fibre .

Mirka Dust Extractor 1230

LPC GB 230V

The Mirka 1230L PC wet and dry extractor is an L-Class machine fitted with a semi-automatic filter cleaning system, Push & Clean. Regular use of the filter cleaning feature maintains suction performance and increases the lifetime of the filter. The machine's selector switch lets you choose between manual or auto-start. Choose the auto-start and the extractor only runs when the power tool is in use, reducing noise and extending the extractor lifetime. This extractor has a 1,200W motor and an air flow rating of 4,500 l/min. High performance comes as standard whether extracting directly from a power tool or cleaning up after a job. The flat filter maximises available space within the 30-litre container, the filter is easily accessible for manual cleaning or replacement. The flat top design offers space for storage of tools, abrasives etc. The machine has facilities for neat onboard storage of both hose and cable, making it a tidy self-contained unit. Large front and back wheels mean the 1230 L PC is easy to manoeuvre on uneven floors. Dry capacity with the dust bag is approx 15 litres.

Mirka Deros 5650CV 230V Orbital Sander

Direct electric random orbital sander developed for effective and dust-free sanding of all kind of surfaces. This upgraded Mirka® DEROS features an integrated vibration sensor and Bluetooth low energy technology. The smallest and most ergonomic sander on the market is equipped with a brushless motor, which maintains constant speed even under heavy load. With the lowest vibration values in its class and the unique symmetrical design guarantees that the tool can be used for long periods without fatigue. This model has a 150 mm (6") pad and 5.0 mm oscillation. Mirka® DEROS 5650CV is delivered in a high quality plastic case, together with the 2-in-1 backing pad solution.

Part No

64883

Mirka Delta 663CV 230V Triangular Sander

The Mirka® DEOS Delta 663CV corner sander is part of Mirka's DEOS (Direct Electric Orbital Sander) product range. At just 10 cm high, its compact dimensions ensure high manoeuvrability and excellent balance. Mirka® DEOS Delta is ideal for precise and efficient sanding of corners, profiles, vertical and hard-to-reach areas at any angle. This model has a 100x152x152mm multi-hole pad for efficient dust extraction and 3mm orbit for effective and fast stock removal. Mirka® DEOS Delta is small and light, thanks to its brushless motor and advanced engineering. With a comfortable and ergonomic grip, it can be used long periods without fatigue. An easy to operate lever enables instant speed adjustment, and a separate on/off switch ensures easy and safe handling. Mirka® DEOS Delta comes with an integrated vibration sensor and Bluetooth low energy technology so you can keep track of vibration, speed and usage data via the myMirka app.

3M Doodlebug System

The 3M Doodlebug cleaning system consists of a swiveling holder to which a selection of cleaning pads attach. The holder features special grippers that hold pads firmly in place and provide for easy attachment and changing of pads. The head incorporates a clamping attachment for a brush handle. There are three different pads available: White for delicate cleaning tasks (e.g. glass, ceramic tiles), blue for medium duty jobs and brown for heavy duty cleaning and stripping.

Part No	Description
64060	Doodlebug Holder
64061	White Pad (Fine)
64062	Blue Pad (Medium)
64063	Brown Pad (Coarse)

3M Scotch-Brite™ Hand Pads

Three grades of tough Scotch-Brite™ pads. The delicate pads are suitable for light scouring including rust removal, the general purpose can replace wire wool and the heavy duty pads can be used instead of scrapers, steel wool and metal sponges. The extra thick pads are 154 X 95mm and the standard thickness general purpose pads are 224 X 158mm.

Part No	Description
64066	Extra thick delicate pad (White)
64065	General Purpose Pad (Green)
64067	Extra thick heavy duty pad (Blue)
64068	General purpose pads (pack of 3) (Green)

Scotch-Brite™ Hand Pad 9447 Black 158 mm x 224 mm Medium

Scotch-Brite™ General Purpose Hand Pad 9447 combines flexibility with effective cutting action and precise hand control to accomplish tough cleaning jobs or produce fine finishing results, use after use. Very fine grade aluminum oxide abrasives cut fast and fine, leaving a smooth, finished surface.

Part No
64070

Scotch-Brite™ Hand Pad 7447+ Red 158 mm x 224 mm Very Fine

Superior alternative to steel wool, wire brushes, sandpaper, and other nonwoven products for cleaning or finishing tasks Very fine grade aluminum oxide abrasive cleans, finishes, grains, denibs, and defuzzes Suitable for use on wood, metal, plastics, ceramics, porcelain, glass, rubber, or composites Reusable pad resists tearing, splintering, shredding, loading and will never rust, providing a long, useful life Perforated for quick and easy tearing, reducing waste.

Part No
64072

3M Twist-Lok Pad Holder 961

Specially designed for use with 3M hand pads to make clean up jobs faster, easier and safer. Distributes pressure evenly over pad surface for efficient cleaning action and improved pad life. Length: 120mm, Width: 89mm

55516	SET0174	HS897 Brass Olive 10mm x 10.4mm

Replacement Rod Ends		
High quality Stainless Steel replacement rod end fitting for standard fit steel versions		
Part No	Vetus	Description
55450	HS071	M10 x 1.5 SS 316 (For MTC30)
55452	HS101	M12 x 1.75 SS 316 (For MTC52-72)
55453	HS210	M20 x 1.5 SS 316 (For MTC125-175)

Hydraulic Fluid Header Tank (HTANK)

This transparent tank can be installed with all Vetus steering pumps up to 89 cm³ per revolution. It is also recommended for electro-hydraulic hatch lifters, when operating more than one cylinder. It has a capacity of about 200 cm³ and is supplied with a large vented screw cap, for easy filling and a mounting bracket. The tank comes complete with 1 metre of Ø 8 mm hose, two matching hose clips, one G ¼ and one G 3/8 nylon hose pillar.

Part No	Vetus
55438	HTANK

Rudder Connection Kit

Part No	Vetus	Description
55454	HSET10	M10 for MTC30
55455	HSET12	M12 for MTC52-72
55456	HSET20	M20 for MTC125-175

HELM Aluminium Rudder Arms

Connections made by in 2 bolt clamps and 2 locking grub screws (included). There are 4 attachment points, making it suitable for several steering cylinders.

Part No	Vetus	Description
55460	HELM30	Helm Rudder Arm 30mm Shaft
55461	HELM40	Helm Rudder Arm 40mm Shaft
55462	HELM50	Helm Rudder Arm 50mm Shaft
55463	HELM60	Helm Rudder Arm 60mm Shaft

Ultraflex Hydraulic Steering Oil

Grade 15 hydraulic oil.

Part No	Description
11795	1 Litre Ultraflex Steering Oil

Vetus Hydraulic Steering Oil HF15

This is a low viscosity oil for hydraulic steering systems with optimum results at all temperatures. This oil has a very low coagulation point and a very high viscosity index. May be mixed with other hydraulic mineral oils.

Specification

Viscosity: 22 cSt at 20° C.

Viscosity index: 353

DIN 51524

Colour: green

Part No	Vetus	Description
56752	VHS1	Hydraulic Steering Oil 1 Litre

Type PRO Steering Wheels

The perfect match for traditional and modern boats

Type PRO has 2 models. Type 'T' with a satin-gloss varnished teak rim and type 'P' with a semi-hard polyurethane rim which will keep your hands warm. Both models have substantial spokes and a hub cover made of high-gloss polished stainless steel (AISI 316). The hub itself is made of synthetic material and bored for a $\text{\O} \frac{3}{4}$ " shaft with 1:12 taper which will fit most steering systems. These steering wheels are according to the CE and ABYC directives. Outer rim $\text{\O} 32$ mm

Part No	Vetus	Description	\O (mm)	\O Outer rim (mm)
55528	PRO40P	Polyurethane rim steering wheel	400	32
55529	PRO50P	Polyurethane rim steering wheel	500	32
55530	PRO60P	Polyurethane rim steering wheel	600	32
55532	PRO40T	Teak steering wheel	400	32
55533	PRO50T	Teak steering wheel	500	32
55534	PRO60T	Teak steering wheel	600	32

**Type SWCRUISER****Cruiser steering wheel**

A three-spoke steering wheel finished in silver aluminium accents and a diameter of 350 mm.

Bored for $\text{\O} \frac{3}{4}$ " shaft, tapered 1:12.

Part No	Vetus	Description	\O (mm)
55590	SWCRUISER	Three spoke sport steering wheel, black with aluminium inserts	350

Type SWCRUISER

Type SWSPORT**Sport steering wheel**

A sporty three-spoke steering wheel finished in carbon with a diameter of 350 mm.

Bored for $\text{\O} \frac{3}{4}$ " shaft, tapered 1:12.

Part No	Vetus	Description	\O (mm)
55589	SWSPORT	Three spoke sport steering wheel, carbon finish	350

Type SWSPORT

Part No	Vetus	Description
55536	SETPS1	1" Diameter Steering Wheel Boss (Tapered 3 1/2:12)
55551	SETKS1	1" Diameter Steering Wheel Boss (Tapered 3 1/2:12)

**PASBUSA Steering Wheel Shaft Adaptor**

All VETUS wheels and steering pumps have a $\text{\O} \frac{3}{4}$ " bore, with a 1:12 taper. The PASBUS is a tapered bushing that can be applied to the $\frac{3}{4}$ " shaft of a steering pump so that it can receive a wheel with a 1" bore. This allows wheels made by others to be installed on their pumps.

Part No	Vetus
55591	PASBUSA

Type KW / KWL

With a mahogany rim

The spokes and hubcap are made of stainless steel (AISI 316). The hub itself is made of aluminium.

- Bored for Ø ¾" shaft, tapered 1:12

Eurocell Standard Masking Tape

A general purpose masking tape, useful for a wide variety of applications.

Part No	Width x Length
60300	19mm x 50m
60305	25mm x 50m
60310	38mm x 50m
60312	50mm x 50m

80°C Masking Tape

A marine and automotive quality creped paper masking tape to achieve a professional finish. Temperature resistant to 80C.

Part No	Width x Length
93030	18mm x 25m
93031	25mm x 25m

7 Day Masking Tape

A high performance creped paper tape for interior and exterior masking, as used by the professionals. Removes cleanly up to 7 days.

Part No	Width x Length
93027	25mm x 25m

3M Scotch Blue 14 Day Tape

Provides UV stability and adhesive transfer resistance for up to 14 days after application. Conformable and smooth for use in various paint and varnish masking applications.

Part No	Width x Length
63917	24mm x 41m
63918	48mm x 50m

Indasa Precision Gold Masking Tape

Washi rice paper technology for thin, super flat edge line. Ideal for critical paintwork. Excellent UV resistance. 90 days (indoor), 60 days (outdoor).

Part No	Width x Length
64690	25mm x 50m
64691	50mm x 50m

3M Gold Masking Tape

Designed with a flat paper backing with synthetic adhesive, this tape offers a good solvent and water resistance and a good paint anchorage. Adhesive transfer resistance and sunlight stability. a good temperature resistance (100 ° C). It offers a good paint line, good handling, good paint flaking resistance and clean removal. Helps resist paint bleed through.

Part No	Width x Length
63912	24mm x 50m
63913	48mm x 50m

3M 3434 Masking Tape

Use Scotch High Performance Masking Tape 3434 for a wide variety of applications in auto refinishing. Use in environments up to 110°C and in conditions of high water resistance. Our high performance blue crepe paper masking tape has excellent solvent and water resistance properties.

Part No	Width x Length
63931	24mm x 50m
63933	48mm x 50m

PSP Fine Line Masking Tape

A high quality masking tape for use when a fine definition line is required. It is flexible and allows precise application, even on curves, without tearing. Being thin (0.11mm), there is little build up of paint at the edges.

Part No	Width x Length
93113	6mm x 33m
93114	12mm x 33m
93115	19mm x 33m
93117	25mm x 33m
93116	25mm x 66m

3M Fine Line Tape

Highly conformable polypropylene tape which stretches easily for painting smooth curves.

Part No	Width x Length
63920	3mm x 55m
63921	6mm x 55m
63922	12mm x 55m
63923	19mm x 55m

3M Taped Masking Film

Ideal for SMART repairs! This plastic film is a great way to quickly mask around areas which require painting. The high quality material ensures that the boat is fully protected against paint spray whilst also preventing paint runs off the film.

Part No	Width x Length
63900	40cm x 25m
63901	60cm x 25m
63902	90cm x 25m
63903	110cm x 25m
63904	180cm x 25m

3M Hand Masking Film MF99

Film is non porous.
Resistant to paint penetration.
Can be used with lacquers.
Flake resistant for multiple coats.
Transparent and compacts for easy disposal.
Clings to surfaces to protect against overspray.

Coverage: 68.9 sq.mtrs

Part No	Size
63905	99" x 90ft 2.51m x 27.4m

3M Prespacing Tape

SCPS-100 is a translucent paper tape designed for use with printed graphics produced with Scotchcal™, Controltac™ and Scotchlite™ Films. It has high adhesion on small film formats and delicate film pieces, and can be removed easily after use.

Part No	Width x Length
63935	1.22m x 91.4m

Gorilla Clear Repair Tape

This tape features the strength of Gorilla Tape in a weatherproof, airtight, crystal-clear tape. Easy to tear by hand, with Gorilla Clear Repair Tape, you can fix, patch, seal, hold and protect almost any surface with a crystal-clear appearance for a perfect fix every time.

Part No	Width x Length
60812	48mm x 8.2m

Duck Tape 50mm x 5m

A self adhesive, high quality, waterproof cloth tape suitable for numerous repair jobs on all boats and canoes.

UV version: Resistant to UV light and weather conditions.

Part No	Colour
93004	Light Grey UV Resistant
93072	Clear
93073	White
93074	Black
93075	Red
93076	Blue

25mm x 10m	93126	93130

Double Sided Tape

A strong, self adhesive double sided tape suitable for a range of temporary and permanent repair jobs on board.

Part No	Size
93105	50mm x 5m

PTFE Tape 12mm x 12m

Thread sealing tape for pipe connection and general on board plumbing.

Part No	Colour
93135	White

Vinyl Foam Hatch Tape

Self-adhesive plasticised vinyl foam tape for bedding in windows, deck fittings and engine hatch covers.

Size	Black	Grey	White
19mm x 3mm x 3m	93094	93095	93096
25mm x 6mm x 3m	93097	93098	93099
25mm x 3mm x 3m	93100	-	-

Race/Course Cards

A pack of 15 self-adhesive waterproof write on stickers with a removable adhesive. Simply jot down the race course in the club house, remove the sticker from the backing paper and position on dinghy. Win the race then remove cleanly afterwards without leaving any residue.

Part No

93034

Double Sided Vinyl Foam Tape

A strong, black double-sided adhesive tape for light to medium weight fixtures. The product uses the classic PVC BEAR FOAM, which provides a compressible tape to fill any void between two uneven rigid surfaces, thus preventing vibration or partial contact of the adhesive surfaces.

Part No

Size

93017	19mm x 1mm x 5m
93018	19mm x 3mm x 3m
93019	25mm x 3m x 3m

PSP Grey Butyl Tape 15mm x 2mm x 3m

For a waterproof joint when bedding, fixing and securing deck fittings.

Part No

93406

Head Lining Tape

A rigid PVC strip backed with a VHB performance adhesive system. DUAL-LOCK, manufactured by 3M™ simply locks to itself. The fastener can be attached to a bulkhead or any smooth surface and will provide an ideal re-closable fastening system for headlinings, cushions etc, securing items in lockers, trim panels and a multitude of other applications.

Part No

Size

93007 2x 25mm x 125mm

Hook & Loop Fastener Tape

A self adhesive hook and loop fastener tape ideal for sail ties and quick release fixings.

Size

Black

White

25mm x 1m	93147	93149
25mm x 25m	93148	93150

3M™ Dual Lock™ Reclosable Fastener SJ355D

This is a general purpose acrylic adhesive on the back of a black, polypropylene reclosable fastener. It is up to 12 times stronger than traditional hook and loop technology. Tough polyolefin mushroom shaped stems snap together to create the tensile strength to replace traditional fasteners. Fast assembly with no drilling. 'Invisible' fixing. High temperature and solvent resistant. Mushroom heads lock together replacing standard hook and loop system.

Part No

Size

63895 5m x 25mm

PSP Back to Back

This is an easy to use product for quick release with a hook face and loop reverse. It is particularly useful for use as stowage straps, sail ties, bundling and many other applications, rolls available in black or white.

Part No

Size

93151	White 25mm x 2m
93152	Black 25mm x 2m

Anti Chafe Stainless Steel Sheet

Extra flexible stainless steel sheets to protect boat gelcoat and paint against any damage caused by rope chafing. Suitable to protect from chafing caused both by mooring and manoeuvring lines. Made of stainless steel and provided with 3M VHB™ powerful adhesive tape. Gelcoat and paint are preserved

Part No	Description
96485	150 x 50mm 1 sheet
96486	225 x 50mm 1 Sheet

Monster Tape

Monster Tape is extremely strong and is resistant to UV light, salt water and works comfortably at temperatures -40°C to - 85°C. It has a high performance adhesive on one side. The multipurpose tape for repairs on board.

Part No	Size
93410	75mm x 1.5m

Yellow & Green PVC Electrical Insulation Tape

PVC insulation tape complies to BS EN 60454, Made from flame retardant PVC. The tape is manufactured to give adequate stretch ability and adhesive levels to help with the perfect application every time, no matter how cold or warm the weather.

Part No	Size
93450	19mm x 33m

Grip Kit

A soft conformable rubber grip tape to coil wrap tillers, windsurf, kite and ski handles. Pack includes self amalgamating tape to secure ends.

Part No	Size
93155	30mm x 1.8m

Grip Foam

A strong soft blue or grey foam with a high performance waterproof adhesive. Providing extra grip with added comfort to any flat or profiled surface.

Part No	Colour	Size
93101	Blue	2mm x 95mm x 300mm
93102	Grey	2mm x 95mm x 300mm

Soft Grip Tape

Soft, comfortable, textured rubber tape, coated with a waterproof adhesive that will remove cleanly without leaving any sticky residue. Essential for the dinghy racer, providing extra grip where needed.

Part No	Colour	Size
93000	Black	50mm x 4m
93001	Grey	50mm x 4m

3M VHB Tape Primer 94 for VHB Tape 236ml

Bond 3M VHB Tapes to a wide range of substrates Get a durable adhesion promoter Clean contaminated with a 50/50 mix of isopropyl alcohol and water mixture before application Priming, adhesion promoting Bond 3M VHB Tapes to different surfaces with 3M Tape Primer 94. Our tape primer is a durable adhesion promoter that supports adhesion of 3M tapes to polyethylene, polypropylene, ABS, PET/PBT blends, concrete, wood, glass, metal and painted metal surfaces. Use 3M Tape Primer 94 to bond 3M tapes to a wide range of substrates. Our tape primer is a durable adhesion promoter that supports adhesion of VHB Tapes to polyethylene, polypropylene, ABS, PET/PBT blends, concrete, wood, glass, metal and painted metal surfaces. Bonding surfaces must be almost clean and dry before the tape primer is used. Contaminated surfaces should be cleaned with a 50/50 mix of isopropyl alcohol and water mixture, and a clean lint free cloth should be used for wiping the surface.

Part No
64055

Spinnaker Repair Tape

Self adhesive rip stop nylon tape ideal for reinforcing batten pockets and carrying out temporary repairs to torn sails. Packed in a hanging sleeve. 50mm x 4.5m

Heavy Duty Sail Repair Tape

A self adhesive polyamide fabric tape for semi-permanent sail repair. Seawater and weather resistant with very high ageing resistance. The tape is supple but exceptionally strong. Available in white only.

Part No	Size
93060	50mm x 2m
93061	100mm x 2m

Mylar Repair Tape

A transparent repair tape for semi-permanent repairs of sail windows and Mylar sails. UV and salt water resistant.

Part No	Size
93084	50mm x 3m
93085	150mm x 3m

Mast Collar Tape

A self bonding waterproof collar which does not require un-stepping the mast when fitting.

Part No	Colour	Size
93119	White	100mm x 1.5m
93120	Black	100mm x 1.5m

Spreader Tape

A soft waterproof tape for capping crosstree ends to reduce chafing of sails. 25mm x 10m

Part No	Colour
93088	White
93089	Silver
93090	Black
93091	Light Grey (UV Resistant)

Dacron Sail Repair Patch

Two strong sail cloth patches to apply to either side of a sail for the larger repair. Now also in a range of colours for repairs to covers, dodgers and spray hoods, etc.

Size:
24cm x 37cm x 2 sheets

Part No	Colour
93022	White
93023	Red
93024	Royal Blue
93025	Black
93026	Dark Blue

Kevlar Repair Tape /Patch

Manufactured from Kevlar scrim encapsulated in a Mylar film, then coated with a high coat-weight of UV resistant adhesive. Ideal for repairs to Kevlar and high performance sails.

Part No	Colour	Size
93057	Gold	75mm x 1.5m Tape
93058	Gold	24cm x 37mm (2 sheets) Patch
93054	Black	75mm x 1.5m Tape
93055	Black	24cm x 37mm (2 sheets) Patch

Dacron Wave Tape

A self adhesive Dacron cloth edging, which is designed to be applied to the leech of the mainsail to help reduce flutter and breakdown. The tape becomes waterproof once the adhesive has set, normally within an hour at room temperature.

Part No	Colour	Size
93385	White	75mm x 3m
93386	Black	75mm x 3m
93387	Gold	75mm x 3m

Kite Tape

This tear resistant adhesive rip-stop nylon is available in an extensive range of colours and comes in a roll width of 150mm. It is perfect for the sailor or kitesurfer, who notices a small tear in their kite or sail, which needs to be dealt with as soon as possible. Size: 150mm x 2.5m

Part No	Colour	Part No	Colour

Anti-Chafe Patch

Anti-Chafe Patch can be cut to size to use around cleats or fairleads or even be applied to a dinghy or keelboat spinnaker chute for friction free hoists and drops. Vulnerable areas can be protected and as a clear product, it will not detract from the overall visual effect of any surface. The glue has been developed to be waterproof and has a strong adhesion with a good temperature resistance and proven longevity.

Each pack contains:
 Two clear 125mm x 150mm patches (250 micron)
 One clear 100mm x 125mm patch (130 micron)
 One clear 75mm x 125mm patch (130 micron)

Part No	Colour
93395	Clear (4 sheets)

Rig Wrap

Stretch and coil wrap the clear/opaque tape around rigging in places where the sails come into contact. Reduce wear on expensive sails and provide a friction free surface to ease the passage of sails on tack and gybe.

Part No	Size
93405	25mm x 5m

93400

Main Tales

Similar to tell tales fitted to genoa luffs the main-tales should be fitted at intervals along the leech of the mainsail so that you can accurately trim the mainsail when sailing upwind or on a reach.

Pack Size:
 8 x Dacron discs
 8 x Ripstop nylon strips

Part No
93399

Exit Tape

Interior application, self-adhesive route marking tape. Photo luminescent properties are designed to charge in natural or artificial light and provide a high intensity initial glow, after which it retains sufficient energy to be seen all night long, conforming to SOLAS regulations for Low Level Lighting.

Suitable for use as a Low Level Lighting System subject to installation to ISO 15370. Available in plain or with exit arrows.

Size: 50mm x 1m rolls

Part No	Description
93390	Plain 50mm x 1m
93391	Arrows 50mm x 1m

Glow Strip

A photo-luminescent safety marking tape, which is designed to be seen all night. It is UV and weather resistant and specially designed for exterior use.

Part No	Size
93380	25mm x 1m (pack of 3)
93381	38mm x 1m (pack of 2)
93382	1m & 25 x 45mm discs

Leak Stop

For emergency or permanent repair, Leak Stop will repair a pipe leak in under thirty minutes and contain pressure up to 20 bar and temperatures up to 500°F. Quick and easy to use on virtually any material, it is also suitable as corrosion protection and electrical insulation to 16,000 volts.

Part No	Size
93002	50mm x 1.5m
93003	75mm x 2.7m

Silicone Tape

Our Self Fusing Silicone tape provides a reliable solution to leaks in water or exhaust pipes and a multitude of containing and sealing applications. Effective between -50°C and +260°C, it can also insulate to 8000v per upstretched layer.

The tensile strength has been tested in excess of 700psi and will effectively seal leaks up to 85Psi (6 bar). It also has good resistance to mild acids, fuels, oils, solvents, salt water, ozone, UV light, and flames.

Part No	Colour	Size
93401	White	25mm x 3m
93402	Black	25mm x 3m
93403	Blue	25mm x 3m

Outdoor Safety Walk Tape

The product consists of large abrasive particles bonded by a tough, durable polymer to a dimensionally stable plastic film. The reverse side is coated with a rubber based pressure sensitive adhesive, covered by a removable protective liner. The product provides a tough, durable, slip resistant surface for heavy duty applications, ladders and ramps.

Primarily for use as a heavy duty, durable, slip resistant surface. For dry, wet, muddy, oily floors in industrial or commercial applications such as: agriculture and forestry, road building, civil engineering and building construction, lorries, tractors, cranes construction vehicles, building machinery, armoured vehicles....

Part No	Size
64054	25mm x 18.3m

Safety Tread Tape

This non-slip surface for decks and companion-ways is easily applied and has a permanent pressure sensitive adhesive.

Size	White	Black	Frosty Clear
25mm x 5m	93226	93228	93230
50mm x 5m	93227	93229	93231

Heavy Duty Safety Tread

A rugged abrasive, self adhesive anti-slip tape. Ideal for most types of craft, pontoons, landing stages etc. Backed with a PVC liner, this product is fully waterproof.

Part No	Colour	Size
93232	Black/Yellow	50mm x 5m

Deck Strip

Safety tread die-cut into ten strips. Suitable for applying to steps etc. 10 strips each

Part No	Colour	Size
93235	White	19mm x 300mm
93234	Black	19mm x 300mm

Retro Reflective Tape

A self-adhesive tape ideal for night time identification. Colours reflect in a beam of light. Ideal for tenders, trailers etc

Colour	25mm x 2.5m 2 Roll Pack	50mm x 2.5m	25mm x 5m	50mm x 5m

Green	93176	-	-	-

Solas Retro-Reflective Tape

Internationally approved self adhesive tape for life saving appliances. Enables the appliances to achieve maximum night-time visibility. Withstands intense exposure to sunlight, sub-zero temperatures and continuous immersion in seawater.

Part No	Size
93214	50mm x 1m
93215	50mm x 45m

Spray Stop

Provides a cost effective, flexible and IMO compliant solution to prevent the risk of spray out from pipe flanges. Quick and easy to apply.

Part No	Size
93397	25mm x 1m (pack of 2) Silver
93398	50mm x 1m (pack of 1) Silver

Maritex Sound Insulation Tape

Suitable for use with V Glass Sound Insulation, a tough fibreglass cloth, with a sealed metallised skin, so it cannot absorb oil. Heavy duty in appearance and fire zero rated, the insulation will not tear or fray.

Part No	Description
59902	50mm x 20M

Sound Insulation Tape

Self-adhesive tape three colours. 50mm x 30m

Part No	Description
57887	Aluminium (TAPEA30)
57888	Grey (TAPEG30)
57889	White (TAPEW30)

Colour stripe Tape

Available in all coveline colours.
Please specify colour when ordering.

Go-Fast Tape

Waterline Tape

Go-Fast / Water Line Tape

Go-Fast tape gives a professional finishing touch to power boats. There are three different coloured stripes on each tape with a void between the colours. Waterline tape is similar, but with no gap between the colours. Please specify the colour combination required when ordering. The combinations available are:

- Dark Blue / Mid Blue / Light Blue
- Dark Blue / Mid Blue / Yellow
- Dark Blue / Yellow / Dark Blue
- Dark Blue / Silver / Dark Blue
- Red / White / Mid Blue
- Red / Orange / Yellow
- Black / Red / Orange
- Black / Red / Silver

Contract

These terms and conditions, together with any other conditions specified in Seaware's website, invoices and price lists, form the entire contract between Seaware (hereinafter referred to as 'the Company') and the Customer and all items supplied by the Company are subject to these terms and conditions. For the avoidance of doubt, the Company shall not be bound by any terms or conditions set out in the Customer's order and these conditions of sale shall supersede and prevail over any other terms and conditions stipulated or referred to by the customer.

Prices

Unless otherwise expressly agreed in writing by us, all quotations, prices and conditions are subject to revision without notice. The Company reserves the right to increase prices at any time prior to acceptance of any order placed.

Delivery

All goods are sent by 1st class post where possible, at a cost of £3.95 + VAT, otherwise they will be sent via courier for an overnight delivery (excluding Saturday, Sunday and Bank Holidays). The cost of this service is a flat rate of £8.95 + VAT, for orders up to 20kg. Please note that dangerous goods (eg. paints, resins, liquids etc) cannot be sent by 1st class post. Shipping to areas such as the Scottish Highlands (above Glasgow), Offshore Islands & Overseas will be charged at cost. Please contact us for carriage charges. Free Shipping is applied when goods are purchased at the value of £150 (ex VAT). This free shipping is only applicable to the mainland UK. Orders dispatched by other means at the Customer's request will be charged at cost. Delivery of heavy items (chain, bulk anodes, bulk paint etc) will be charged at cost. Any delivery date is not guaranteed, however delivery shall be made within a reasonable period taking into account all circumstances affecting such delivery. The Company will not be responsible for late delivery beyond our control. Shortages must be notified within three days of arrival. The Company shall not be liable for any damage which occurs to goods in transit, other than in the Company's own transit, and Customers are advised to seek redress with the carriers involved. For the avoidance of any doubt, any insurance risk will pass to the Customer on delivery.

Terms of Payment

Payments by Trade Account Customers shall be made in full to the Company by the 20th of the month following the date of invoice (by Bacs if possible). Failure to pay by this date will result in your account being placed on 'stop' and no further orders will be able to be placed, until it is paid in full. All payments shall be made strictly in accordance with the terms of Contract without deduction and the Customer agrees not to withhold or defer payment of any sums by virtue of any claim made by him against the Company. Credit cards are not acceptable methods of payment for Trade Account Customers. No general property or equitable interest in goods supplied by the Company to the Customer, hereinafter called "the contract goods", shall pass to the Customer until such time as the price of the contract goods and all other monies (if any) due from the Customer to the Company in respect of the contract goods or under any other contract between the Company and the Customer shall have been paid to the Company in full. In the event of payment on any invoice remaining outstanding for more than 30 days, interest shall be charged thereon at a rate of 2% above the base rate of HSBC, per month, or part month, of which the payment remains outstanding. VAT is chargeable on all business EU sales unless a VAT number and two letter country code is provided with the order.

Claims

The Company will not accept liability for any claims, howsoever arising, unless it has received written notice of the claim within three days of the Customer receiving the goods. The Company cannot be held responsible for errors in typing, description, illustration or specification which are intended only as a guide.

Returns

Goods may be returned for a full refund within 30 days, at the buyer's expense, accompanied with the original invoice. Items must be in a re-saleable condition, with all packaging intact. In some cases a 15% restocking charge may be made unless otherwise agreed. Damaged goods/packaging cannot be accepted. The Company will, at its option, either repair free of charge, or replace free of charge, any product which is found to the satisfaction of the Company to be defective as a result of faulty design, manufacture or workmanship provided that:

1. The products are returned, properly packaged, with a copy of the original invoice, within 30 days from the date of delivery. If we originally delivered the item by van we will collect it (but please ring us to arrange this first), or the Customer can drop it into the office or, if the Customer wishes to post it back, we will refund the postage.
2. Where the products are made to the Customer's specification, the defects are not as a result of errors in such specification.
3. The products have not been modified in any way by the Customer; and
4. The products have not been used for any purpose other than that for which they were designed or otherwise mis-used. Suitability for application is the responsibility of the Customer.

Repaired or replaced goods will be returned free of charge.

Special Orders

Orders for non-stock items must be confirmed in writing by the Customer and are non-cancellable. The Company cannot accept the return of items specially ordered.

Aluminium

LM5 is the principle aluminium alloy used on boats due to its high resistance to corrosion from sea water or marine atmospheres. It is excellent for producing castings required to exhibit and maintain a surface of high polish and is easily anodised.

Name	Designation	Alloy Elements	Uses
-	LM5	Al 95%, Mg 5%	Corrosion resistant castings

Brass

Brasses are alloys of copper and zinc (generally 5 to 40%), and may contain small amounts of other alloying elements. Most are available in a range of forms and can be fabricated by casting, forging, stamping, rolling, extrusion and machining.

They fall into two classes, the alpha alloys with less than 37% zinc which are ductile and can be cold worked and the alpha/beta or duplex alloys which are harder and stronger with limited cold ductility. Lead can be added as an alloying element resulting in a brass that can be rapidly machined and produces minimal tool wear. Additions of aluminium, iron and manganese to brass improve strength, whilst silicon additions improve wear resistance. Additions of tin or aluminium to either alpha or duplex brasses improves corrosion resistance in sea and brackish waters for applications such as propellers.

Name	Designation	Alloy Elements	Uses
Common Brass	CZ108	Cu 63%, Zn 37%	Interior fittings, screws
Naval Brass	CZ112	Cu 62%, Zn 37%, Sn 1%	Pre-war boat fittings
High Tensile Brass	CZ114	Cu 46.2%, Zn 37%, Mn 2%, Al 1.5%, Fe 1%, Pb 1.5%, Sn 0.8%	Snap shackles, propellers, winches
DZR Brass	CZ132	Cu 61%, Pb 2.8%, As 0.1%	Hull valves and skin fittings

Bronze

The term bronze originally described alloys with Tin as the only or principal alloying element. Modern day bronzes tend to be Copper alloys in which the major alloying element is not Nickel or Zinc.

The usual alloy for fasteners is silicon bronze. It has a very long working life (30 - 50 years in marine environment) due to its superb resistance to corrosion.

Name	Designation	Alloy Elements	Uses
Aluminium Bronze	CA104	Cu 80%, Al 10%, Ni, 5% Fe 5%	High strength fittings
Phosphor Bronze	PB102	Cu 95%, Sn 5%, P 0.2%	Fabricated / wrought fittings
Silicon Bronze	CS101	Cu 96%, Si 3%, Mn 1%	Fastenings
Gunmetal	LG2	Cu 85%, Sn 5%, Pb 5%, Zn 5%	Cast hardware

Stainless Steel

Grade 304 is the standard "18/8" stainless; it is the most versatile and most widely used stainless steel, available in a wider range of products, forms and finishes than any other. It has excellent forming and welding characteristics. Grade 316 is the standard molybdenum-bearing grade, second in importance to 304 amongst the austenitic stainless steels. The molybdenum gives 316 better overall corrosion resistant properties than Grade 304, particularly higher resistance to pitting and crevice corrosion in chloride environments. 316 is usually regarded as the standard "marine grade stainless steel".

Name	Designation	Alloy Elements	Uses
'Standard'	304, A2	Fe, <0.8% C, 17.5-20% Cr, 8-11% Ni, <2% Mn, <1% Si, <0.045% P,	General Purpose
'Marine Grade'	316, A4	Fe, <0.03% C, 16-18.5% Cr, 10-14% Ni, 2-3% Mo, <2% Mn, <1% Si, <0.045% P, <0.03% S	Marine fittings & fastenings

Bronze Pipework Range

In recent years there has been a campaign to highlight the dangers of using inferior metals for skinfittings and associated equipment. Confusion exists over various types of metals including brass, gunmetal, bronze, DZR copper alloy, chromed nickel, DZR brass, and what is and is not approved by various authorities. Bronze is therefore one of, if not the best material to use for marine plumbing.

Manufactured to the European standard **CC491K**

One added benefit is that the bronze ball valves come with stainless steel handles, generally the first thing to corrode on more inferior products.

Corrosion Resistant Brass

The so-called dezincification resistant (DZR or DR) brasses, sometimes referred to as CR (corrosion resistant) brasses, are used where there is a large corrosion risk and where normal brasses do not meet the standards. Applications with high water temperatures, chlorides present, or deviating water qualities (soft water) play a role. DZR-brass is excellent in water boiler systems. This brass alloy must be produced with great care, with special attention placed on a balanced composition and proper production temperatures and parameters to avoid long-term failures.

Galvanic Corrosion

Galvanic corrosion is an electrochemical action of two dissimilar metals in the presence of an electrolyte and an electron conductive path. It occurs when dissimilar metals are in contact.

The natural differences in metal potentials produce galvanic differences, such as the galvanic series in sea water. If electrical contact is made between any two of these materials in the presence of an electrolyte, current must flow between them. The farther apart the metals are in the galvanic series, the greater the galvanic corrosion effect or rate will be. Metals or alloys at the upper end are noble while those at the lower end are active. The more active metal is the anode or the one that will corrode.

Control of galvanic corrosion is achieved by using metals closer to each other in the galvanic series or by electrically isolating metals from each other. Cathodic protection can also be used to control galvanic corrosion effects, the use of zinc anodes being a good example.

Galvanic Series in Seawater	Fasteners for Fittings		
Noble (least active) → Anodic (Most Active)	Fitting	Suitable	Unsuitable
18-8-3 Stainless steel, type 316 (passive)	Material	Fastenings	Fastenings
